*Abstract of proposed collection:*

Since 2002, MEPI has obligated more than \$430 million to over 250 organizations, who carry out more than 370 projects in support of political, economic, education and women's rights reform in 20 countries of the

Middle East and North Africa. As a normal course of business and in compliance with OMB Guidelines contained in Circular A-110, recipient organizations are required to provide, and the U.S. State Department required to collect, periodic program and financial performance reports. The responsibility of the State Department to track and monitor the programmatic and financial performance necessitates a database that can help facilitate this in a consistent and standardized manner. The MEPI Performance Reporting System (PRS) enables enhanced monitoring and evaluation of grants through standardized collection and storage of relevant award elements, such as quarterly progress reports, workplans, results monitoring plans, grant agreements, financial reports, and other business information related to MEPI implementers. The PRS streamlines communication with implementers and allows for rapid identification of information gaps for specific projects.

*Methodology:*

Information will be entered into PRS electronically by respondents. Non-respondents will submit their quarterly reports on paper.

*Additional Information:*

Dated: December 20, 2007.

*Abstract of proposed collection*: The forms associated with OMB Collection Number 1405-0105 are means by which foreign missions in the United States

request the issuance of a driver license and/or a sales tax exemption card for foreign mission personnel and their dependents. The exemption from sales taxes and the operation of a motor vehicle in the United States by foreign mission personnel are benefits under the Foreign Missions Act, 22 U.S.C. 4301 *et seq.*, which must be obtained by foreign missions through the U.S. Department of State, Office of Foreign Missions (DS/OFM). The DS-1972, DS-1972D, and DS-1972T applications provide OFM with the necessary information required to administer the two benefits effectively and efficiently. Sales tax exemption is enjoyed under the provisions of international law but is granted on the bases of reciprocity. The administration of driver licenses at the national level helps the Federal Government identify operators who repeatedly receive citations. This also helps the Federal Government determine the necessary course of action that may be required against an individual's driving privilege. Accordingly, the Federal Government is able to provide consistency of enforcement to the diplomatic community on a national level through a uniform program. The respondents are foreign government representatives assigned to the United States.

**Methodology:** These applications/information collections are submitted by all foreign missions to the Office of Foreign Missions via the following methods: mail, personal delivery, and/or electronically.

Dated: December 27, 2007.
