SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On November 26, 2003 (68 FR 66412), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID number OAR-2003-0059, which is available for public viewing at the Air and Radiation Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket and Information Center is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as

CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: Emission Defect Information Reports and Voluntary Emission Recall Reports (Renewal).

Abstract: Per sections 207(c)(1) and 213 of the Clean Air Act (CAA), when emission testing shows that a substantial number of properly maintained and used engines produced by a manufacturer do not conform to emission standards, the manufacturer is required to recall the engines. Manufacturers are also required to submit Defect Information Reports (DIRs) to alert EPA of the existence of emission-related defects on certain classes of engines that may cause the engines' emissions to exceed the standards and ultimately may lead to a recall. EPA uses these reports to target potentially nonconforming classes of engines for future testing, to monitor compliance with applicable regulations and to order a recall, if necessary. Manufacturers can also initiate a recall voluntarily by submitting a Voluntary Emission Recall Report (VERR). VERRs and VERR updates allow EPA to determine whether the manufacturer conducting the recall is acting in accordance with the CAA and to examine and monitor the effectiveness of the recall campaign.

The information is collected by the Engine Programs Group, Certification and Compliance Division, Office of Transportation and Air Quality, Office of Air and Radiation. Confidentiality of proprietary information submitted by manufacturers is granted in accordance with the Freedom of Information Act, EPA regulations at 40 CFR part 2, and class determinations issued by EPA's Office of General Counsel.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 260 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate,

maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers of on-highway heavy-duty trucks, non-road compression-ignition engines, non-road spark-ignition engines, marine engines, locomotives and locomotive engines.

Estimated Number of Respondents: 17.

Frequency of Response: On occasion and quarterly.

Estimated Total Annual Hour Burden: 4,417.

Estimated Total Annual Cost: \$265,971 includes \$0 annualized capital/startup costs, \$413 annual O&M costs and \$265,558 annual labor costs.

Changes in the Estimates: There is a decrease of 508 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to the correction of a mistake made in the original calculations. The decrease in burden is, therefore, due to an adjustment to the estimates.

Dated: January 27, 2004.

Acting Director, Collection Strategies
Division.

Title: NESHAP for Wood Furniture Manufacturing Operations (40 CFR part 63, subpart JJ).

Abstract: Respondents to this information collection request are the owners and operators of both new and existing wood furniture manufacturing operations that are sources of hazardous air pollutants. Major sources are required to perform recordkeeping activities and submit both initial and semiannual/quarterly compliance reports. Incidental wood furniture manufacturers and area sources must keep records to show that they are not major sources. The information is used to determine that all sources subject to the rule are complying with the standards. The information to be collected is mandatory under the rule.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15,

and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 45 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wood Furniture Manufacturers.

Estimated Number of Respondents: 750.

Frequency of Response:

Semiannually, quarterly and initially.

Estimated Total Annual Hour Burden: 47,190 hours.

Estimated Total Annual Costs:

\$3,003,109, which includes zero annualized capital/startup costs, \$18,000 annual O&M costs, and \$2,985,109 respondents' labor costs.

Changes in the Estimates: There is a decrease of 44,881 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is a result of a more accurate characterization of the sources affected by the standard.

Dated: January 22, 2004.
