

regulation by the Dodd-Frank Act. Agricultural producers, packers, processors and handlers will benefit from the ability to use agricultural swaps to hedge their risk and also will benefit from the transparency brought forth under the Dodd-Frank Act. I believe this proposed rulemaking provides an appropriate regulatory framework for the transaction of agricultural swaps and commodity options, and I look forward to hearing the public's views on this matter.

SUPPLEMENTARY INFORMATION: The Commission has requested comment on a release proposing amendments to its rules to implement Section 1503 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Act"). Section 1503(a) of the Act requires issuers that are operators, or that have a subsidiary that is an operator, of a coal or other mine to disclose in their periodic reports filed with the Commission information regarding specified health and safety violations, orders and citations, related assessments and legal actions, and mining-related fatalities. Section 1503(b) of the Act mandates the filing of a Form 8-K disclosing the receipt of certain orders and notices from the Mine Safety and Health Administration. The disclosure requirements set forth in the Act are currently in effect,¹ but the Commission is proposing to amend its rules to implement and specify the scope and application of the disclosure requirements set forth in the Act and to require a limited amount of additional disclosure to provide context for certain items required by the Act. This release was published in the **Federal Register** on December 22, 2010.

The Commission originally requested that comments on the release be received by January 31, 2011. The

nature of the proposed disclosure requirements differs from the disclosure traditionally required by the Securities Exchange Act of 1934, and the proposal requested comment on a variety of significant aspects of the proposed rules. The Commission has received requests for an extension of time for public comment on the proposal to, among other things, allow for the collection of information and improve the quality of responses.² The Commission believes that providing the public additional time to consider thoroughly the matters addressed by the release and to submit comprehensive comments to the release would benefit the Commission in its consideration of final rules. Therefore, the Commission is extending the comment period for Release No. 33-9164 "Mine Safety Disclosure" for 30 days, to Wednesday, March 2, 2011.

By the Commission.

Dated: January 28, 2011.

Elizabeth M. Murphy,
Secretary.
