

releases within 60 days after the end of the 12-month monitoring period for the Fermi 2 ISFSI. The exemption as requested would have permitted DTE to delay submission of the relevant report from on or before March 1, the current deadline, to prior to May 1 of each year. Delaying this submission deadline would allow DTE to align the submittals of the relevant report and the Annual Radioactive Effluent Release Report.

The NRC staff could not grant DTE the exemption as requested because, under 10 CFR 72.13, “Applicability,” 10 CFR 72.44(d)(3) does not apply to general licensees such as DTE. That said, under 10 CFR 72.212, DTE must follow the technical specifications (TS) for the spent fuel casks it uses, and the relevant cask’s TS require DTE to submit the 10 CFR 72.44(d)(3) effluent monitoring report. Thus, DTE must make the 10 CFR 72.44(d)(3) report. Consequently, the NRC, on its own initiative, granted DTE an exemption from the applicable requirements such that DTE would receive relief equivalent to the relief it requested. In practice, this means the NRC exempted DTE from 10 CFR 72.212(a)(2), (b)(2), (b)(3), (b)(4), (b)(5)(i), (b)(11), and 72.214 pursuant to 10 CFR 72.7, “Specific exemptions” for the ISFSI.

The exemption granted upon the NRC’s own initiative only provides relief from the 60-day requirement so that the annual effluent release report for the Fermi 2 ISFSI may be submitted prior to May 1, rather than on or before March 1, of each year. The granted exemption only changes the due date and not the content of the information that the licensee would provide in the annual report. An analysis of this exemption can be found at the previously cited ADAMS accession number.

The application seeks authorization to export no greater than 60,000 kilograms and 0.05 terabecquerels of low-level radioactive waste in the form of residual ash and residual metal or non-combustible material. The amendment application requests an expiration date of September 1, 2026.

Form 13F

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*), the Securities and Exchange Commission (the "Commission") has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Section 13(f) ¹ of the Securities Exchange Act of 1934 ² (the "Exchange Act") empowers the Commission to: (1) Adopt rules that create a reporting and disclosure system to collect specific information; and (2) disseminate such information to the public. Rule 13f-1 ³ under the Exchange Act requires institutional investment managers that exercise investment discretion over accounts that have in the aggregate a fair market value of at least \$100,000,000 of

certain U.S. exchange-traded equity securities, as set forth in rule 13f-1(c), to file quarterly reports with the Commission on Form 13F.⁴

The information collection requirements apply to institutional investment managers that meet the \$100 million reporting threshold. Section 13(f)(6)(A) of the Exchange Act defines an "institutional investment manager" as any person, other than a natural person, investing in or buying and selling securities for its own account, and any person exercising investment discretion with respect to the account of any other person. Rule 13f-1(b) under the Exchange Act defines "investment discretion" for purposes of Form 13F reporting.

The reporting system required by Section 13(f) of the Exchange Act is intended, among other things, to create in the Commission a central repository
