

comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Generic Clearance for the Collection of Minimal Data Necessary for Case Data During an Emergency Response (OMB Control No. 0920–1447, Exp. 10/31/2027)—Change Request—Office of Public Health Data, Surveillance, and Technology (OPHDST), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Generic Clearance for the Collection of Minimal Data Necessary for Case Data During an Emergency Response is a Generic Information Collection Request (ICR) that is designed to facilitate standardized, rapid, and consistent data exchange between state, tribal, local, and territorial (STLT) health departments and CDC on confirmed, probable, and suspected cases during a public health emergency response.

CDC requests approval for a Non-Substantive Change Request for the

Generic Clearance for the Collection of Minimal Data Necessary for Case Data During an Emergency Response. This request includes addition of the following 11 new data elements: Age Units—Other, Race Category—Other, Ethnic Group—Other, Person Address County—Other, Person Address State—Other, Case Disease Imported Code—Other, Disability Type—Other, Outbreak Case Status, CDC Outbreak Name, First Date of Exposure, and Last Date of Exposure.

Seven of the 11 added data elements are ‘other’ data elements. These data elements are associated with a coded data element of a similar name (e.g., Age Units and Age Units Other). These added fields give jurisdictions the option to send either coded data elements in the coded field or text data in the text field. This makes it easier for jurisdictions as they do not need to map to the CDC value set in order for data to be sent. First and Last Date of Exposure are important data elements to collect as understanding the time from exposure to symptom onset or infection provides important information for responding to and modeling outbreaks. Outbreak Case Status is critical as a definition of a case can differ in an outbreak and in routine data collection and it is very important to know

whether a case meets the outbreak definition in addition to whether the case meets the routine definition. CDC Outbreak Name is important so that outbreaks that cross state lines can be tracked as a single outbreak, whereas the previously approved ‘Case Outbreak Name’ is state-assigned and could differ for the same outbreak.

CDC projects 10 emergency responses annually that will require states, territories, freely associated states, and cities to submit case data to CDC daily. The annual burden estimates below include the time that states, territories, freely associated states, and cities will incur to submit confirmed, probable, and suspected case data (MDN and response-specific data elements) for diseases or conditions for 10 emergency responses. The average burden per response of 30 minutes is the same regardless of the number of data elements. The number of data elements will fluctuate by emergency response since each emergency response may require a different number of response-specific data elements depending on the condition. Therefore, the addition of 11 new data elements will not affect the affect the previously approved burden. The estimated annual burden for the 60 respondents is 109,510 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
States	Submission of case data	50	3,650	30/60
Territories	Submission of case data	5	3,650	30/60
Freely Associated States	Submission of case data	3	3,650	30/60
Cities	Submission of case data	2	3,650	30/60

Agency Information Collection Request. 60-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.
ACTION: Notice.

SUMMARY: In compliance with the requirement of the Paperwork

Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment.

DATES: Comments on the ICR must be received on or before September 8, 2025.

ADDRESSES: Submit your comments to sagal.musa@hhs.gov or by calling 202–578–5441.

FOR FURTHER INFORMATION CONTACT:

When submitting comments or requesting information, please include the document identifier 4040–0005–60D and project title for reference, to Sagal Musa, email: sagal.musa@hhs.gov or call 202–578–5441, the Reports Clearance Officer.

SUPPLEMENTARY INFORMATION: Interested persons are invited to send comments

regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency’s functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Title of the Collection: Application for Federal Domestic Assistance—Individual.

Type of Collection: Extension.
OMB No.: 4040–0005.

Abstract: The Application for Federal Assistance—Individual form provides the Federal grant-making agencies an

alternative to the Standard Form 424 data set and form. Agencies may use Application for Federal Assistance—Individual form for grant programs not required to collect all the data that is

required on the SF-424 core data set and form.

Type of Respondent: The Application for Federal Assistance—Individual form is used by organizations to apply for Federal financial assistance in the form

of grants. This form is submitted to the Federal grant-making agencies for evaluation and review. This IC expires on February 26, 2026. *Grants.gov* seeks a three-year clearance of these collections.

ANNUALIZED BURDEN HOUR TABLE

Forms (if necessary)	Respondents (if necessary)	Number of respondents	Number of responses per respondents	Average burden per response	Total burden hours
Application for Federal Assistance—Individual	Grant Applicants	5,403	1	1	5,403
Total	5,403	1	1	5,403
