adopting as final regulations governing the collection of debts owed to it and other Federal agencies. Federal agencies are required to try to collect debts owed to the Federal Government. These regulations describe actions that NARA may take to collect debts, and apply, with certain exceptions, to any person or entity. These regulations also provide that NARA may enter into a cross-servicing agreement with the U.S. Department of the Treasury (Treasury) under which the Treasury will take authorized action to collect amounts owed to NARA.

**EFFECTIVE DATE:** This rule is effective on August 5, 2002.

**FOR FURTHER INFORMATION CONTACT:** Kim Richardson at telephone number 301-713-2902 or fax number 301-713-0319.

**SUPPLEMENTARY INFORMATION:** The interim rule was published in the July 5, 2002, **Federal Register** (67 FR 44757) for a 60-day comment period. NARA did not receive any comments. Therefore, NARA is adopting the interim rule as final without change. This rule is not a significant regulatory action for the purposes of Executive Order 12866 and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, I certify that this rule will not have a significant impact on a substantial number of small entities. #### Researcher Identification Cards

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Final rule.

**SUMMARY:** NARA is revising the general regulations concerning availability of records and donated historical materials to change the time period researcher identification cards are valid. NARA is reducing the valid time period to increase NARA's ability to obtain accurate address and telephone information. This will allow NARA to contact researchers if necessary and will ensure better protection of NARA's holdings, buildings, personnel, and the public. This final rule will affect individuals who do research in archival materials at NARA facilities.

**EFFECTIVE DATE:** November 12, 2002.

**FOR FURTHER INFORMATION CONTACT:** Jennifer Davis Heaps on 301-837-1801 or fax number 301-837-0319.

**SUPPLEMENTARY INFORMATION:** The proposed rule was published in the July 10, 2002, **Federal Register** (67 FR 45684) for a 60-day public comment period. NARA notified several researcher organizations of the availability of the proposed rule. A copy of the proposed rule was also posted on the NARA Web site.

NARA received no comments on the proposed rule. The final rule is published without change. The rule will apply to researcher identification cards issued on or after the effective date. Cards issued prior to that date will remain valid for the period indicated on the card.

This final rule is not a significant regulatory action for the purposes of Executive Order 12866 and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, I certify that this rule will not have a significant impact on a substantial number of small entities because it applies only to individuals. This rule has no federalism or tribalism implications. This rule is not a major rule as defined in 5 U.S.C. Chapter 8, Congressional Review of Agency Rulemaking.

#### List of Subjects in 36 CFR Part 1254

For the reasons set forth in the preamble, NARA amends part 1254 of title 36, Code of Federal Regulations, as follows:

### PART 1254—AVAILABILITY OF RECORDS AND DONATED HISTORICAL MATERIALS

1. The authority citation for part 1254 continues to read as follows:

2. Revise § 1254.6(a) to read as follows:

**§ 1254.6 Researcher identification card.**

(a) An identification card is issued to each person whose application is approved to use records other than microfilm. Cards are valid for 1 year and may be renewed upon application. Cards issued at one NARA facility are valid at each facility, except as described in paragraph (b) of this section. They are not transferable and must be presented if requested by a guard or research room attendant.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[IN144-1a; FRL-7390-3]

### Approval and Promulgation of Implementation Plans; Indiana

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** EPA is approving revisions to Particulate Matter (PM) control requirements for certain natural gas combustion sources in Indiana. EPA is also approving various cleanup revisions to Indiana's PM rules and contingency measures for the Lake County, Indiana PM nonattainment area. The Indiana Department of Environmental Management (IDEM) submitted these revisions to Title 326 of the Indiana Administrative Code, Section 6-1 (326 IAC 6-1) as a requested revision to the Indiana State Implementation Plan (SIP) on December 19, 2001. The requested SIP revision eliminates PM emissions limits on certain natural gas combustion sources in specified counties, and replaces the limits with a requirement that such sources may only burn natural gas. The requested SIP revision also contains many cleanup provisions such as eliminating limits for sources which have shut down and updating names of sources. Third, the requested SIP revision adds PM contingency measures for the Lake County, Indiana PM nonattainment area.

**DATES:** This rule is effective on December 10, 2002, unless EPA receives relevant adverse written comments by

November 12, 2002. If adverse comment is received, EPA will publish a timely withdrawal of the rule in the **Federal Register** and inform the public that the rule will not take effect.

#### I. What Is the EPA Approving?

EPA is approving changes to 326 IAC 6-1 as a revision to the Indiana SIP. These changes eliminate PM emissions limits on certain natural gas combustion sources, and replace the limits with a requirement that such sources may only burn natural gas. The changes also contain many cleanup provisions such as eliminating limits for sources which have shut down and updating names of sources. Third, the changes add PM contingency measures for the Lake County, Indiana PM nonattainment area.

##### *a. Provisions for Natural Gas Combustion Sources*

Revised 326 IAC 6-1-1(c) states that PM limitations shall not be established for combustion units that burn only natural gas at sources or facilities identified in sections 8.1, 9, and 12 through 18 of the rule, as long as the units continue to burn only natural gas.

This revision replaces PM limitations on gas fired combustion units with the requirement that they only burn natural gas. Since natural gas combustion sources generally have very low PM emissions, enforcement of the "natural gas only" requirement will ensure that these units do not emit PM in excess of what would have been required under the previously approved rules.

Since this revised rule does not allow increased emissions over the current version, this change is not expected to have an adverse effect on air quality. Therefore, we are approving this requested SIP revision.

#### *b. Cleanup Revisions*

These revisions affect 326 IAC 6-1-1 through 6-1-6, and 6-1-8.1 through 6-1-18. They generally consist of minor wording changes, updating of source and facility names, and elimination of reference to sources or facilities which have ceased operations. While these changes will not result in a decrease in actual PM emissions, removal of sources and facilities which have shut down will result in a decrease in the emissions allowed under the rules.

#### *c. Continuous Compliance Plan Requirements*

In addition, IDEM has submitted "Continuous Compliance Plan" provisions in 326 IAC 6-1-10.1(l-v). These provisions have been a part of the State rules since 1993, but have not previously been submitted for EPA approval. These provisions required certain large sources in Lake County to submit "Continuous Compliance Plans" to the Indiana Department of Environmental Management by December 10, 1993. The plans were to contain documentation on operation and maintenance practices, a compliance schedule, and various recordkeeping requirements. The Continuous Compliance Plan provisions also contain 20% 3-minute average opacity limits on disposal and reclamation on iron and steel; maintenance of process vessels; and steel scrap burning or cutting and oxygen lancing operations. Approval of these regulations will strengthen the existing SIP.

These revisions improve the rule and have no impact on previously approved emissions limitations. Therefore, we are approving these requested SIP revisions.

#### *d. Contingency Measures*

Indiana has established certain PM contingency measures in 326 IAC 6-1-11.2. The contingency measures require emissions reductions from Lake County sources which are "culpable" for an
