DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA-2020-0159 (Notice No. 2021-05)]

Hazardous Materials: Information Collection Activities

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Requests (ICRs) discussed below will be forwarded to the Office of Management and Budget (OMB) for renewal and extension. These ICRs describe the nature of the information collections and their expected burdens. A notice and request for comments with a 60-day comment period on these ICRs was published in the **Federal Register** on February 23, 2021 under Docket No. PHMSA-2020-0159 (Notice No. 2021-01). PHMSA did not receive any comments in response to this notice.

DATES: Interested persons are invited to submit comments on or before July 2, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collections should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

We invite comments on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the Department's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Docket: For access to the Dockets to read background documents or comments received, go to <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Steven Andrews or Shelby Geller, Standards and Rulemaking Division, (202) 366-8553, ohmspra@dot.gov,

Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue SE, Washington, DC 20590-0001.

SUPPLEMENTARY INFORMATION: Section 1320.8(d), title 5, Code of Federal Regulations (CFR) requires PHMSA to provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This notice identifies information collection requests PHMSA will be submitting to the Office of Management and Budget (OMB) for renewal and extension. These information collections are contained in 49 CFR 171.6 of the Hazardous Materials Regulations (HMR; 49 CFR parts 171-180). PHMSA has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on changes in proposed or final rules published since the information collections were last approved. Please note that in the February 23, 2021 (86 FR 11052), notice and request for comments, PHMSA included an additional information collection under OMB Control Number 2137-0022 titled "Testing, Inspection, and Marking Requirements for Cylinders." However, since that publication, PHMSA received a 3-year renewal for this collection based on changes associated with a final rule PHMSA published on December 28, 2020, titled "*Hazardous Materials: Miscellaneous Amendments Pertaining to DOT-Specification Cylinders*" (HM-234; 85 FR 85380). As this collection has been renewed until May 31, 2024, OMB Control Number 2137-0022 is no longer contained in this notice for comment and subsequent renewal. The following information is provided for each information collection: (1) Title of the information collection, including former title if a change is being made; (2) OMB control number; (3) summary of the information collection activity; (4) description of affected public; (5) estimate of total annual reporting and recordkeeping burden; and (6) frequency of collection. PHMSA will request a 3-year term of approval for each information collection activity and will publish a notice in the **Federal Register** upon OMB's approval.

PHMSA requests comments on the following information collections:
Title: Cargo Tank Specification Requirements.

OMB Control Number: 2137-0014.

Summary: This information collection consolidates and describes the information collection provisions in parts 107, 178, and 180 of the HMR

involving the manufacture, qualification, maintenance, and use of all specification cargo tank motor vehicles. It also includes the information collection and recordkeeping requirements for persons who are engaged in the manufacture, assembly, requalification, and maintenance of DOT specification cargo tank motor vehicles. The types of information collected include:

(1) *Registration Statements*: Cargo tank manufacturers and repairers, as well as cargo tank motor vehicle assemblers, are required to be registered with DOT and must furnish information relative to their qualifications to

perform the functions in accordance with the HMR. DOT uses the registration statements to identify these persons to ensure they possess the knowledge and skills necessary to perform the required functions and that they are performing the specified functions in accordance with the applicable regulations.

(2) *Requalification and Maintenance Reports*: These reports are prepared by persons who requalify or maintain cargo tanks. This information is used by cargo tank owners, operators and users, and DOT compliance personnel to verify that the cargo tanks are requalified, maintained, and in proper condition for

the transportation of hazardous materials.

(3) *Manufacturers' Data Reports, Certificates, and Related Papers*: These reports are prepared by cargo tank manufacturers and certifiers. They are used by cargo tank owners, operators, users, and DOT compliance personnel to verify that a cargo tank motor vehicle was designed and constructed to meet all requirements of the applicable specification.

The following information collections and their burdens are associated with this OMB Control Number. Please note that these estimates may be rounded for readability:

Information collection	Annual respondents	Total annual responses	Time per response	Total annual burden hours
Registration—Cargo Tank Manufacturers	24	24	20 minutes	8
Registration—Repair Facilities	33	33	20 minutes	11
Registration—Design Certifying Engineers & Registered Inspectors	1,110	1,110	20 minutes	370
Registration—Recordkeeping	117	117	15 minutes	29
Updating a Cargo Tank Registration	145	145	15 minutes	36
Design Certificates for Prototypes	55	55	2.5 hours	138
Design Certificates for Prototypes—Recordkeeping	7	7	15 minutes	2
Manufacture's Data Reports or Certificate and Related Papers	145	6,960	30 minutes	3,480
Manufacture's Data Reports or Certificate and Related Papers—Record-keeping	700	700	15 minutes	175
Completion of Manufacturer's Data Report—New Cargo Tanks	145	4,785	30 minutes	2,393
Completion of Manufacturer's Data Report—Remanufactured Cargo Tanks	145	1,015	30 minutes	508
Completion of Manufacturer's Data Report—Recordkeeping	145	580	15 minutes	145
Cargo Tank Repair/Modification Reports	195	15,015	5 minutes	1,251
Testing and Inspection of Cargo Tanks—Visual Inspections	1,654	24,600	30 minutes	12,300
Testing and Inspection of Cargo Tanks—External Visual Inspections	1,654	123,000	30 minutes	61,500

Affected Public: Manufacturers, assemblers, repairers, requalifiers, certifiers, and owners of cargo tanks.

Annual Reporting and Recordkeeping Burden:

Number of Respondents: 6,274.

Total Annual Responses: 178,146.

Total Annual Burden Hours: 82,346.

Frequency of Collection: On occasion.

Title: Container Certification Statements.

OMB Control Number: 2137–0582.

Summary: Shippers of explosives, in freight containers or transport vehicles by vessel, are required to certify on shipping documentation that the freight container or transport vehicle meets minimal structural serviceability requirements. This requirement ensures

an adequate level of safety for the transport of explosives aboard vessel and consistency with similar requirements in international standards. The following information collections and their burdens are associated with this OMB Control Number. Please note that these estimates may also be rounded for readability:

Information collection	Annual respondents	Total annual responses	Time per response (minutes)	Total annual burden hours
Freight Container Packing Certification	620	890,000	1	14,833
Class 1 (explosives) Container Structural Serviceability Statement	30	4,500	1	75

Affected Public: Shippers of explosives in freight containers or transport vehicles by vessel.

Annual Reporting and Recordkeeping Burden:

Number of Respondents: 650.

Total Annual Responses: 894,500.

Total Annual Burden Hours: 14,908.

Frequency of Collection: On occasion.

Issued in Washington, DC, on May 27, 2021, under authority delegated in 49 CFR 1.97.

William A. Quade,

Deputy Associate Administrator of Hazardous Materials Safety, Pipeline and Hazardous Materials Safety Administration.
