

ENVIRONMENTAL PROTECTION AGENCY**[EPA-HQ-OAR-2020-0661; FRL-9729-01-OMS]****Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Surface Coating of Plastic Parts for Business Machines (Renewal)****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Surface Coating of Plastic Parts for Business Machines (EPA ICR Number 1093.13, OMB Control Number 2060-0162), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2022. Public comments were previously requested, via the **Federal Register**, on February 8, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted either on or before May 9, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2020-0661, online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 2821T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public

Comments" or by using the search function.

Abstract: The New Source Performance Standards (NSPS) for Surface Coating of Plastic Parts for Business Machines (40 CFR part 60 subpart TTT) were proposed on January 8, 1986; promulgated on January 29, 1988; and amended on October 17, 2000. These regulations apply to new facilities that perform industrial surface coating operations on plastic parts for use in the manufacture of business machines: Each spray booth that applies prime coats, color coats, texture coats or touch-up coats. New facilities include those that either commenced construction, modification, or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart TTT.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities:

Facilities that perform industrial surface coating on plastic parts for business machines.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart TTT).

Estimated number of respondents: 10 (total).

Frequency of response: Initially, quarterly and semiannually.

Total estimated burden: 992 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$117,000 (per year), which includes no annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is no change in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; (2) the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

Director, Regulatory Support Division.

FEDERAL COMMUNICATIONS COMMISSION**[OMB 3060-0010, FR ID 81193]****Information Collection Requirement Being Reviewed by the Federal Communications Commission****AGENCY:** Federal Communications Commission.**ACTION:** Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the

respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The Commission may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before June 7, 2022.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the Title as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0010.

Title: Ownership Report for Commercial Broadcast Stations, FCC Form 323; Section 73.3615, Ownership Reports; Section 74.797, Biennial Ownership Reports.

Form Number: FCC Form 323.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; State, Local, or Tribal Governments.

Number of Respondents: 4,340 respondents; 4,340 responses.

Estimated Time per Response: 1.5 to 2.5 hours.

Frequency of Response: On occasion reporting requirement; biennial reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for these collections are contained in 47 U.S.C. 151, 152(a), 154(i), 257, 303(r), 307, 309, and 310.

Total Annual Burden: 9,620 hours.

Total Annual Cost: \$10,220,980.

Needs and Uses: On January 20, 2016, the Commission released a Report and Order, Second Report and Order, and Order on Reconsideration in MB Docket Nos. 07-294, 10-103, and MD Docket No. 10-234 (Second Report and Order). The Second Report and Order refines the collection of data reported on FCC Form 323, Ownership Report for Commercial Broadcast Stations, and FCC Form 323-E, Ownership Report for Noncommercial Broadcast Stations. Specifically, the Second Report and

Order implements a Restricted Use FRN (RUFN) within the Commission's Registration System (CORES) that individuals may use solely for the purpose of broadcast ownership report filings; eliminates the availability of the Special Use FRN (SUFN) for broadcast station ownership reports, except in very limited circumstances; prescribes revisions to Form 323-E that conform the reporting requirements for noncommercial educational (NCE) broadcast stations more closely to those for commercial stations; and makes a number of significant changes to the Commission's reporting requirements that reduce the filing burdens on broadcasters, streamline the process, and improve data quality. These enhancements enable the Commission to obtain data reflecting a useful, accurate, and thorough assessment of minority and female broadcast station ownership in the United States while reducing certain filing burdens.

Currently, Form 323, Section II-A/II-B, Question 2.c asks "Does the Respondent or any interest holder reported in response to Question 2(a) hold an attributable interest in any newspaper entities in the same market as any station for which this report is filed, as defined in 47 CFR 73.3555?" This question was relevant to the Commission's Newspaper/Broadcast Cross-Ownership Rule, which prohibited common ownership of a full-power broadcast station and a daily newspaper if the station's contour (defined separately by type of station) completely encompassed the newspaper's city of publication and the station and newspaper were in the same relevant Nielsen market. On November 20, 2017, the Commission released an Order on Reconsideration and Notice of Proposed Rulemaking in MB Docket Nos. 04-256, 07-294, 09-182, 14-50, and 17-289 (Order on Reconsideration). Among other things, the Order on Reconsideration repealed the Newspaper/Broadcast Cross-Ownership Rule. Accordingly, Section II-A/II-B, Question 2.c will be eliminated from Form 323.

Licenses of commercial AM, FM, and full power television broadcast stations, as well as licensees of Class A and Low Power Television stations, must file FCC Form 323 every two years. Biennial Ownership Reports shall provide information accurate as of October 1 of the year in which the Report is filed. Form 323 shall be filed by December 1 in all odd-numbered years.

In addition, Licensees and Permittees of commercial AM, FM, and full power television stations must file Form 323 following the consummation of a

transfer of control or an assignment of a commercial AM, FM, or full power television station license or construction permit; a Permittee of a new commercial AM, FM, or full power television station must file Form 323 within 30 days after the grant of the construction permit; and a Permittee of a new commercial AM, FM, or full power television broadcast station must file Form 323 to update the initial report or to certify the continuing accuracy and completeness of the previously filed report on the date that the Permittee applies for a license to cover the construction permit.

In the case of organizational structures that include holding companies or other forms of indirect ownership, a separate Form 323 must be filed for each entity in the organizational structure that has an attributable interest in the Licensee or Permittee.

Federal Communications Commission.

Secretary, Office of the Secretary.
