Submission for OMB Review; Comment Request

ACTION: Notice.

SUMMARY: The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATES: Consideration will be given to all comments received by [insert date 30 days from date of publication of this notice in the **Federal Register**].

FOR FURTHER INFORMATION CONTACT: Fred Licari, 571-372-0493.

SUPPLEMENTARY INFORMATION:

Title, Associated Form And OMB Number: Army Public Health Data Repository (APHDR); OMB Control Number 0702-XXXX.

Type Of Request: New Collection.

Number Of Respondents: 36.

Responses Per Respondent: 8.

Annual Responses: 288.

Average Burden Per Response: 3 hours.

Annual Burden Hours: 864 hours.

Needs and Uses: The Army Public Health Data Repository (APHDR) provides a system of records that will integrate medical information from non-related and dispersed databases into a comprehensive health surveillance database. It will support operational public health practices and maintain a record of work places, training, exposures (occupational and environmental), medical surveillance, ergonomic recommendations, corrections and any medical care provided for eligible individuals.

Affected Public: Individuals and Households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Seehra.

Written comments and recommendations on the proposed information collection should be sent to Ms. Jasmeet Seehra at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

SUPPLEMENTARY INFORMATION:

I. Background and Authority

Part C of Title III of the Energy Policy and Conservation Act contains energy conservation requirements for, among other things, electric motors and small electric motors, including test procedures, energy efficiency standards, and compliance certification requirements. 42 U.S.C. 6311-6316.¹ Section 345(c) of EPCA directs the Secretary of Energy to require manufacturers of electric motors "to certify through an independent testing or certification program nationally recognized in the United States, that [each electric motor subject to EPCA efficiency standards] meets the applicable standard." 42 U.S.C. 6316(c).

Regulations to implement this statutory directive are codified in Title 10 of the Code of Federal Regulations

Part 431 (10 CFR Part 431) at sections 431.36 (Compliance Certification), 431.20 (Department of Energy recognition of nationally recognized certification programs), and 431.21 (Procedures for recognition and withdrawal of recognition of accreditation bodies and certification programs). Sections 431.20 and 431.21 set forth the criteria and procedures for national recognition of an energy efficiency certification program for electric motors by DOE. With the support of a variety of interests, including industry and energy efficiency advocacy groups, DOE published a final rule on May 4, 2012, that established requirements for small electric motors that are essentially identical to the criteria and procedures for national recognition of an energy efficiency certification program for electric motors. See 77 FR 26608, 26629 (codifying parallel provisions for small electric motors at 10 CFR 431.447 and 431.448).

For a certification program to be classified by the DOE as being nationally recognized in the United States for the testing and certification of small electric motors, the organization operating the program must submit a petition to the Department requesting such classification, in accordance with sections 431.447 and 431.448. In sum, for the Department to grant such a petition, the certification program must: (1) Have satisfactory standards and procedures for conducting and administering a certification system, and for granting a certificate of conformity; (2) be independent of small electric motor manufacturers, importers, distributors, private labelers or vendors; (3) be qualified to operate a certification system in a highly competent manner; and (4) be expert in the test procedures and methodologies in IEEE Standard 112-2004 Test Methods A and B, IEEE Standard 114-2010, CSA Standard C390-10, and CSA C747 or similar procedures and methodologies for determining the energy efficiency of small electric motors, and have satisfactory criteria and procedures for selecting and sampling small electric motors for energy efficiency testing. 10 CFR 431.447(b).

Each petition requesting classification as a nationally recognized certification program must contain a narrative statement as to why the organization meets the above criteria, be accompanied by documentation that supports the narrative statement, and be signed by an authorized representative. 10 CFR 431.447(c).

II. Discussion

Pursuant to sections 431.447 and 431.448, on November 1, 2013, CSA submitted a "Petition for Recognition as a *Nationally Recognized Certification Program* for small electric motors" ("Petition" or "CSA Petition"). The Petition was accompanied by a cover letter from CSA to the Department, and the petition itself contained five separate sections—(1) Scope and Application, (2) Overview of CSA Group, (3) Certification and Testing—Quality Management System, (4) CSA Group's Motor Efficiency Verification Program—Product Directory, and (5) Examples of Other CSA Group Accreditations. In accordance with the requirements of section 431.448(b), DOE published CSA's petition in the **Federal Register** on December 30, 2013 and requested public comments. 78 FR 79423.

In response to the notice of petition, the National Electrical Manufacturers Association (NEMA), a trade association representing manufacturers of electrical products and equipment, including small electric motors, submitted comments to DOE in a letter dated January 24, 2013 (Comment response to the published Notice of Petition, No. 3). In these comments, NEMA generally stated its support for CSA's petition and recommended that DOE grant recognition to CSA. The comments also specifically explained that, in NEMA's view, (1) CSA has satisfactory standards and procedures for conducting and administering a certification system, including periodic follow-up to ensure basic model compliance; (2) CSA is independent of small motor manufacturers, importers, distributors, private labelers, or vendors; and (3) CSA is expert in the content and application of the test procedures and methodologies in IEEE Std 112-2004 Test Methods A and B, IEEE Std 114-2010, CSA 390-10, and CSA C747 or similar procedures and methodologies for determining the energy efficiency of small electric motors. NEMA added that CSA uses technically appropriate and statistically rigorous criteria and procedures for selecting and sampling small electric motors for energy efficiency testing.

Having received no other comments regarding CSA's petition, DOE finds no specific cause to reject CSA's request for recognition as a nationally recognized certification program for small electric motors. This determination is based primarily on DOE's previous recognition of CSA as a nationally recognized certification program for electric motors (the sampling and testing requirements

¹ For editorial reasons, upon codification in the U.S. Code, Part C was re-designated Part A-1.

for which are substantially the same), as well as the support of the motors industry as expressed by NEMA.

The Department hereby announces its interim determination pursuant to 10 CFR 431.448(d) that CSA is classified as a nationally recognized certification program for small electric motors, and will accept comments on this interim determination until April 3, 2014. Any person submitting written comments to DOE with respect to this interim determination must also, at the same time, send a copy of such comments to CSA. As provided under § 431.448(c), CSA may submit to the Department a written response to any such comments. After receiving any such comments and responses, the Department will issue a final determination on the CSA Petition, in accordance with § 431.448(e) of 10 CFR part 431.

Issued in Washington, DC, on February 26, 2014.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC14-9-000]

Commission Information Collection Activities (FERC-520, FERC-561, FERC-566); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collections FERC-520 (Application for Authority to Hold Interlocking Directorate Positions), FERC-561 (Annual Report of Interlocking Positions), and FERC-566 (Annual Report of a Utility's 20 Largest Purchasers).

DATES: Comments on the collection of information are due May 5, 2014.

ADDRESSES: You may submit comments (identified by Docket No. IC14-9-000) by either of the following methods:

- eFiling at Commission's Web site: <http://www.ferc.gov/docs-filing/efiling.asp>

- Mail/Hand Delivery/Courier: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE., Washington, DC 20426.

Instructions: All submissions must be formatted and filed in accordance with submission guidelines at: <http://www.ferc.gov/help/submission-guide.asp>. For user assistance contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208-3676 (toll-free), or (202) 502-8659 for TTY.

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/downloading comments and issuances in this docket may do so at <http://www.ferc.gov/docs-filing/docs-filing.asp>.

FOR FURTHER INFORMATION CONTACT:

Ellen Brown may be reached by email at DataClearance@FERC.gov, telephone at (202) 502-8663, and fax at (202) 273-0873.

SUPPLEMENTARY INFORMATION:

Titles: FERC-520 (Application for Authority to Hold Interlocking Directorate Positions), FERC Form 561 (Annual Report of Interlocking Positions), and FERC-566 (Annual Report of a Utility's 20 Largest Purchasers).

OMB Control Nos.: FERC-521 (1902-0083); FERC-561 (1902-0099); FERC-566 (1902-0114).

Type of Request: Three-year extension of the FERC-521, FERC Form 561, and FERC-566 information collection requirements with no changes to the current reporting requirements.

Abstract: The Federal Power Act (FPA), as amended by the Public Utility Regulatory Policies Act of 1978 (PURPA), mandates federal oversight and approval of certain electric corporate activities to ensure that neither public nor private interests are adversely affected. Accordingly, the FPA proscribes related information filing requirements to achieve this goal. Such filing requirements are found in the Code of Federal Regulations (CFR), specifically in 18 CFR Parts 45, 46, and Section 131.31 and serve the basis for FERC-520, Form 561, and FERC-566.

Overview of the Three Data Collections. FERC-520, Form 561 and FERC-566 provide views into complex electric corporate activities and serve to safeguard public and private interests, as the FPA requires. The Commission can use its enforcement authority when violations and omissions of FPA requirements occur.

FERC-520: FERC-520 is divided into two types of applications: Full and

informational. The full application, as specified in 18 CFR 45.8, implements the FPA requirement under Section 305(b) that it is unlawful for any person to concurrently hold the positions of officer or director of more than one public utility; or a public utility and a bank or financial institution that underwrites or markets public utility securities; or a public utility and an electrical equipment supplier to that public utility unless authorized by order of the Commission. In order to obtain authorization, an applicant must demonstrate that neither public nor private interests will be adversely affected by the holding of the position. The full application provides Commission staff with a list of certain information about any interlocking position for which he/she seeks authorization including, but not limited to, a description of duties, estimated time devoted to the position, and any indebtedness to the public utility. The informational application, as specified in 18 CFR 45.9, allows an applicant to receive automatic authorization for an interlocked position upon receipt of filing with the FERC. The informational application applies only to those individuals who seek authorization as (1) an officer or director of two or more public utilities where the same holding company owns, directly or indirectly, that percentage of each utility's stock (of whatever class or classes) which is required by each utility's by-laws to elect directors; (2) an officer or director of two public utilities, if one utility is owned, wholly or in part, by the other and, as its primary business, owns and operates transmission or generation facilities to provide transmission service or electric power for sale to its owners; or (3) an officer or director of more than one public utility, if such person is already authorized under Part 45 to hold different positions as officer or director of those utilities where the interlock involves affiliated public utilities.

Pursuant to 18 CFR 45.5, in the event that an applicant resigns or withdraws from all Commission-authorized interlocked positions within a corporate structure or is not re-elected or re-appointed to any interlocked position within that corporate structure, FERC requires that the applicant submit a notice of change within 30 days from the date of the change.

FERC Form 561: The Commission uses FERC Form 561 to implement the FPA requirement that those who are authorized to hold interlocked directorates annually disclose all the interlocked positions they held the prior year. The positions that must be disclosed in the Form 561 are those
