Parts and Accessories Necessary for Safe Operation; Exemption Application From Brent Higgins Trucking, Inc.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: The Federal Motor Carrier Safety Administration (FMCSA) requests public comment on Brent Higgins Trucking, Inc.'s (Higgins) application for an exemption from the requirement that lighting devices be steady burning. The exemption would allow the company to operate commercial motor vehicles (CMVs) equipped with a module manufactured by Intellistop, Inc. II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption and the regulatory provision from which the exemption is granted. The notice must specify the effective period and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Higgins' Request

Higgins seeks an exemption from the requirement in 49 CFR 393.25(e) that all exterior lamps (both required lamps and any additional lamps) be steady-burning, except for turn signal lamps, hazard warning signal lamps, school bus warning lamps, amber warning lamps or flashing warning lamps on tow trucks and CMVs transporting oversized loads, and warning lamps on emergency and service vehicles authorized by State or local authorities.

Higgins asserts that using the Intellistop module, which pulses the rear clearance, identification, and brake

lamps from a low-level lighting intensity to a high-level lighting intensity 4 times in 2 seconds when the brakes are applied rather than providing steady burning lamps during the first 2 seconds, would enhance rear signal systems. Higgins submits that pulsing the rear brake lamps of a CMV may significantly increase visibility and reduce the frequency of rear-end crashes, and thus would maintain a level of safety that is equivalent to, or greater than, the level that the CMV would achieve without the requested exemption.

On October 7, 2022 (87 FR 61133), FMCSA denied Intellistop's application for an industry-wide exemption to allow all motor carriers to operate commercial motor vehicles (CMVs) equipped with Intellistop's module. FMCSA noted that the decision did not preclude individual motor carriers from seeking an exemption from 49 CFR 393.25(e) to purchase, install, and use Intellistop's device subject to terms and conditions to allow sufficient monitoring of the use of the device. Therefore, consistent with the October 7, 2022, decision, the Agency seeks public comment on Higgins' carrier-specific exemption application.

A copy of Higgins' application is included in the docket referenced at the beginning of this notice.

IV. Request for Comments

In accordance with 49 U.S.C. 31315(b), FMCSA requests public comment from all interested persons on Higgins' application for a five-year exemption from 49 CFR 393.25(e) to allow it to operate CMVs equipped with Intellistop's module which pulses the rear clearance, identification and brake lamps from low-level lighting intensity to high-level lighting intensity 4 times in 2 seconds when the brakes are applied.

All comments received before the close of business on the comment closing date will be considered and will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. Comments received after the comment closing date will be filed in the public docket and may be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested

persons should continue to examine the public docket for new material.

SUPPLEMENTARY INFORMATION: An agency that has acquired property or service from a business concern and has failed to pay for the complete delivery of property or service by the required payment date shall pay the business concern an interest penalty. 31 U.S.C. 3902(a). The Contract Disputes Act of 1978, Sec. 12, Public Law 95-563, 92 Stat. 2389, and the Prompt Payment Act, 31 U.S.C. 3902(a), provide for the calculation of interest due on claims at the rate established by the Secretary of the Treasury.
