

Taxpayer Identification Number information by the provision at FAR 52.204–3, Taxpayer Identification, for other than commercial acquisitions, and by paragraph (l) of the provision at FAR 52.212–3, Offeror Representations and Certifications—Commercial Products and Commercial Services, for commercial acquisitions.

2. FAR 52.204–6, 52.212–1(j), and 52.204–12—Unique Entity Identifier. When there is not a requirement to be registered in SAM, offerors are required to submit their unique entity identifier by the provision at FAR 52.204–6, Unique Entity Identifier, for other than commercial acquisitions, and by paragraph (j) of the provision at FAR 52.212–1, Instructions to Offerors—Commercial Products and Commercial Services, for commercial acquisitions. The clause at FAR 52.204–12, Unique Entity Identifier Maintenance, requires contractors to maintain their unique entity identifier with the organization designated in SAM to issue such identifiers, for the life of the contract. The clause also requires contractors to notify contracting officers of any changes to the unique entity identifier.

3. FAR 52.204–7, 52.204–13, and 52.212–3(b)—SAM Registration and Maintenance. The provision at FAR 52.204–7, System for Award Management, requires offerors to be registered in SAM when submitting an offer or quotation, except in certain limited cases, and to continue to be registered through final payment of any award that results from such offer. The clause at FAR 52.204–13, System for Award Management Maintenance, requires contractors to make sure their SAM data is kept current, accurate, and complete throughout contract performance and final payment; this maintenance is, at a minimum, to be done through an annual review and update of the contractor's SAM registration. Paragraph (b) of the provision at FAR 52.212–3, Offeror Representations and Certifications—Commercial Products and Commercial Services, contains the equivalent of FAR 52.204–7 and 52.204–13, for commercial acquisitions.

4. FAR 52.204–14, and 52.204–15—Service Contract Reporting Requirements. The clauses at FAR 52.204–14, Service Contract Reporting Requirements, and FAR 52.204–15, Service Contract Reporting Requirements for Indefinite-Delivery Contracts, require contractors to report the following information in SAM annually:

(a) Contract number and, as applicable, order number.

(b) The total dollar amount invoiced for services performed during the previous Government fiscal year under each contract.

(c) The number of contractor direct labor hours expended on the services performed during the previous Government fiscal year.

(d) Data reported by each first-tier subcontractor providing services under the contract if required to do so.

5. FAR 52.204–20, Predecessor of Offeror. This provision requires offerors to identify if the offeror is, within the last three years, a successor to another entity that received a Federal Government award and, if so, to provide the Commercial and Government Entity code and legal name of the predecessor.

6. FAR 52.204–23, Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab and Other Covered Entities. This clause requires contractors to report, in writing, to the contracting officer or, in the case of DoD, to the website at <https://dibnet.dod.mil>, any instance when the contractor identifies a covered article provided to the Government during contract performance, or if contractors are notified of such an event by subcontractors at any tier or any other source.

C. Annual Burden

Respondents: 393,680.

Total Annual Responses: 843,490.

Total Burden Hours: 419,401.

D. Public Comment

A 60-day notice was published in the **Federal Register** at 86 FR 67470, on November 26, 2021. No comments were received.

BILLING CODE 6820–EP–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Notice of Award of a Single-Source Grant To Fund Michigan State University (MSU)

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Disease Control and Prevention (CDC), located within the Department of Health and Human Services (HHS), announces the award of approximately \$3.6 million funding with an expected total funding of approximately \$18 million over a 5-year period to Michigan State University. The award will support activities related to the Flint Registry, a comprehensive public health registry of residents who were exposed to lead-contaminated water in Flint, Michigan.

DATES: The period for this award will be August 1, 2022, through July 31, 2023.

FOR FURTHER INFORMATION CONTACT: Alexis Pullia, M.P.H., C.P.H, National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention, 4770 Buford Highway, Atlanta, GA 30341, Telephone: 770–488–3300, Email: leadinfo@cdc.gov.

SUPPLEMENTARY INFORMATION: The single-source award will support activities related to the existing public health registry of residents who were exposed to lead-contaminated water from the Flint Water System during April 25, 2014, to October 15, 2015. In Fiscal Year 2022, the activities are expected to include continued community, tribal, and stakeholder outreach and training; registrant enrollment via targeted outreach to eligible individuals and high risk individuals; data collection; referral of registrants to services to reduce or control lead exposure effects; measurement of registrants' exposure, health, developmental milestones with their interventions, services, and enrichment activities; follow-up of enrolled registry participants; and evaluation and dissemination of findings to share best practices.

Michigan State University is in a unique position to conduct this work, as it successfully collaborated with community partners to establish the registry through previous CDC grants and has an established relationship with the Flint community. Progress to date has been substantial since the registry's inception, and continued forward

momentum depends on the continuity of the same team managing the registry.

Summary of the award:

Recipient: Michigan State University.

Purpose of the Award: The purpose of this award is to support activities related to the Flint Registry, a comprehensive public health registry of residents who were exposed to lead-contaminated water from the Flint water system during April 25, 2014, to October 15, 2015.

Amount of Award: \$3.6 million in Federal Fiscal Year (FFY) 2022 funds, with a total estimated \$18 million over the 5-year period of performance, subject to availability of funds.

Authority: This program is authorized under Section 2203(b) of Public Law 114–322, the Water Infrastructure Improvements for the Nation (WIIN) Act of 2016; 42 U.S.C. Section 300j–27(b).

Period of Performance: August 1, 2022, through July 27, 2027.

Dated: January 25, 2022.

Terrance Perry,

Chief Grants Management Officer, Centers for Disease Control and Prevention.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC–2022–0014]

Notice of Intent To Prepare a Supplemental Environmental Impact Statement and Request for Comments

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice and request for comment.

SUMMARY: Pursuant to the requirements of the National Environmental Policy Act of 1969 (NEPA) as implemented by the Council on Environmental Quality (CEQ) regulations (Title 40 CFR Section 1507.3) and the Department of Health and Human Services (HHS) General Administration Manual Part 30 “Environmental Procedures,” dated February 25, 2000, the Centers for Disease Control and Prevention (CDC) within HHS announces its intent to prepare a Supplemental Environmental Impact Statement (SEIS) to address changes proposed since completing the 2014 *Final Environmental Impact Statement (EIS) for Centers for Disease Control and Prevention Roybal Campus 2025 Master Plan* (2014 Final EIS) and issuing the Record of Decision dated November 7, 2014. The 2014 Final EIS

analyzed the potential impacts associated with implementing a new long-range Master Plan to guide the future physical development of the Roybal Campus for the planning horizon of 2015 to 2025.

DATES: Written scoping comments will be accepted through February 28, 2022.

ADDRESSES: You may submit comments, identified by Docket Number CDC–2022–0014, by either of the following methods:

- *Federal eRulemaking Portal:*

<https://www.regulations.gov/>. Follow the instructions for submitting comments.

- *U.S. Mail:* Thayra Riley, NEPA

Coordinator Office of Safety, Security, and Asset Management (OSSAM), Centers for Disease Control and Prevention, 1600 Clifton Road NE, Mailstop H20–4, Atlanta, Georgia 30329.

Instructions: All submissions received must include the Agency name and Docket Number (CDC–2022–0014). CDC will post, without change, all relevant comments to <https://www.regulations.gov/>, including any personal information provided. Do not submit comments by email. CDC does not accept comments by email. For access to the docket to read background documents or comments received, go to <https://www.regulations.gov/>.

FOR FURTHER INFORMATION CONTACT:

Thayra Riley, NEPA Coordinator, Office of Safety, Security, and Asset Management (OSSAM), Centers for Disease Control and Prevention, 1600 Clifton Road NE, Mailstop H20–4, Atlanta, Georgia 30329, email: cdc-roybalga-seis@cdc.gov, or telephone: 770–488–8170.

SUPPLEMENTARY INFORMATION: CDC intends to prepare an SEIS to analyze the potential impacts of proposed components that were not analyzed in the 2014 Final EIS. Proposed components that will be analyzed in the SEIS include the addition of a Hospital, Medical, and Infectious Waste Incinerator in a new laboratory and two emergency standby power diesel generators. The construction of a new laboratory was included in the 2014 Final EIS and will not be re-evaluated in the SEIS.

In accordance with NEPA as implemented by CEQ regulations (Title 40 CFR Section 1507.3) and HHS environmental procedures, CDC will prepare an SEIS to analyze the effects of proposed components that were not analyzed in the 2014 Final EIS. The potential impacts of construction and operation of these components on the natural and built environment will be evaluated.

Under the NEPA, federal agencies are required to evaluate the environmental effects of their proposed actions and a range of feasible alternatives to the proposed actions prior to making a final decision about what actions to take. The SEIS will incorporate the 2014 Final EIS by reference and will build upon that document to focus on specific resource areas that would have potential effects different from those analyzed in the 2014 Final EIS. Areas of anticipated concern include, but are not limited to, the following: Air quality, climate change and sustainability, environmental justice, and hazardous materials and hazardous waste.

Scoping Process

The scoping process is a requirement of NEPA and serves to identify the full range of environmental issues and inform the interested or affected parties of the proposed action. During the scoping process, CDC will actively seek input from the public, interested persons, organizations, and federal, state, and regional agencies to identify environmental concerns to be addressed in the SEIS. The purpose of this Notice is to inform interested or affected parties of CDC’s plan to prepare the SEIS for component changes to a new laboratory that were not analyzed in the 2014 Final EIS, to provide information on the nature of the proposed actions, and to initiate the scoping process. NEPA does not require a public scoping meeting for an SEIS, and CDC will not conduct a public scoping meeting. CDC will conduct a virtual public meeting during the public comment period for the draft SEIS (a separate notice will be published for that comment period).

Dated: January 25, 2022.

Angela K. Oliver,

Executive Secretary, Centers for Disease Control and Prevention.
