**Notice of Inventory Completion:
Peabody Museum of Archaeology and
Ethnology, Harvard University,
Cambridge, MA**

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Peabody Museum of Archaeology and Ethnology, Harvard University (PMAE) has completed an inventory of human remains and has determined that there are known lineal descendants connected to the human remains in this notice.

DATES: Repatriation of the human remains in this notice may occur on or after June 10, 2024.

ADDRESSES: Jane Pickering, Peabody Museum of Archaeology and Ethnology, Harvard University, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-2374, email jpickering@fas.harvard.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the PMAE, and additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Based on the information available, human remains representing one individual have been reasonably identified. The human remains were collected at the U.S. Indian Vocational School, Albuquerque, Bernalillo County, NM, and are hair clippings collected from one individual, Harrison Jackson, who was recorded as being 15 years old and identified as "Walapai." Reuben Perry took the hair clippings at the U.S. Indian Vocational School between 1930 and 1933. Perry sent the hair clippings to George Woodbury, who donated the hair clippings to the PMAE in 1935. No associated funerary objects are present.

Lineal Descendant

Based on the information available and the results of consultation, a lineal descendant is connected to the human remains described in this notice.

Determinations

The PMAE has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Lucille J. Watahomigie is connected to the human remains described in this notice.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under

ADDRESSES. Requests for repatriation may be submitted by:

1. The known lineal descendant connected to the human remains.
2. Any other lineal descendant not identified who shows, by a preponderance of the evidence, that the requestor is a lineal descendant.

Repatriation of the human remains in this notice to a requestor may occur on or after June 10, 2024. If competing requests for repatriation are received, the PMAE must determine the most appropriate requestor prior to repatriation. The PMAE is responsible for sending a copy of this notice to the lineal descendant and any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: April 30, 2024.

Melanie O'Brien,

Manager, National NAGPRA Program.

Abstract of Information Available

In 1964-71, Stephen Humphreys, a student at Sacramento State College, conducted extensive surveys and excavations in the region between Oroville and Paradise in Butte County, California.

Human remains representing, at minimum, two individuals were removed from CA-BUT-301 (Kathy's Rockshelter). The 52,341 associated funerary objects from the site include baked clay objects; faunal and floral remains; flaked and ground stone objects; modified bone, shell, stone, and wood objects; basketry and cordage, thermally altered rock; quartz crystals; unmodified stones; pigment; historic materials (worked glass, buttons, beads and textiles), and soils.

Human remains representing, at minimum, three individuals were removed from CA-BUT-302 (Fox Site). The 4,324 associated funerary objects from the site include baked clay objects; faunal and floral remains; flaked and ground stone objects; modified bone, shell and stone; quartz crystals; unmodified stone; and soils.

Human remains representing, at minimum, four individuals were removed from CA-BUT-669 (Kendall's Rockshelter). The 4,754 associated funerary objects from the site include baked clay objects; faunal and floral remains; flaked and ground stone objects; modified bone, shell and stone; quartz crystals; unmodified stone; pigment; historic material (worked glass, buttons); and ash and soils. An unknown number of objects may be missing from the collection, and California State University, Sacramento continues to look for them.
