Title: Security Program for Hazardous Materials Motor Carriers & Shippers.

Type of Request: New collection.

OMB Control Number: Not yet assigned.

Form(s): NA.

Affected Public: Hazmat Motor Carriers and Shippers.

Abstract: TSA's Highway & Motor Carrier Division will be producing a voluntary security-related training course for the Hazmat motor carrier and shipper industry. Participants will be able to choose to attend instructor-led training sessions that TSA will conduct at multiple sites in the United States and provide information to the industry through trade associations, conferences, and stakeholder meetings. Hazmat motor carriers and shippers that are registered with the U.S. Department of Transportation (DOT) will automatically receive the training via CD-ROM and DVD. Companies may also complete the training on-line at the TSA Web site, <http://www.tsa.gov>. After completion of the training program, participants will have the option to complete a course evaluation form to comment on the effectiveness of the training program. The participants who choose to complete the training evaluation form will submit the form via e-mail to a secure Web surveyor tool that is managed at TSA. Participants who attend the classroom training sessions will also be asked to complete an evaluation form on site, which will later be entered into the Web surveyor tool by TSA personnel. TSA will use this data to measure the program's effectiveness at achieving its goal of heightened security awareness levels throughout the hazmat motor carrier and shipper industry.
