[Docket No. 231023–0250]

RIN 0648–BM60

Magnuson-Stevens Act Provisions; Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; Pacific Coast Groundfish Fishery Management Plan; 2024 Specifications and Management Measures Corrections

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: This rule proposes to correct 2024 harvest specifications for several species of groundfish where the numerical values were mathematically calculated incorrectly and do not accurately reflect the harvest policy recommendations of the Pacific Fishery Management Council (Council). These harvest specifications are for groundfish caught in the U.S. exclusive economic zone seaward of Washington, Oregon, and California, consistent with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) and the Pacific Coast Groundfish Fishery Management Plan (PCGFMP). This proposed rule would revise harvest limits or allocations that were calculated based on incorrect annual catch limits. This action would implement corrected numerical values that align with the Council's intended harvest policy decisions and considers the most recent fishery information available at the time those policies were recommended.

DATES: Comments must be received no later than November 13, 2023.
