SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration Acquisition Regulation (GSAR) 552.236–79, Construction-Contractor-as-Constructor, requires the contractor to submit proposals to establish the final estimated cost of the work, to convert the contract to a firm-fixed-price, and to determine the final settlement.

The GSAR coverage on construction contracts, including clauses for solicitations and resultant contracts, clarifies, updates, and incorporates existing guidance on the construction-manager-as-constructor (CMc) project delivery method.

The CMc refers to a project management and contracting technique that is one of three predominant methods used for acquiring construction services by GSA. The other two methods are design-bid-build and design-build.

The information is used by leasing contracting officers to evaluate lease proposals and negotiate lease contract terms and conditions in a competitive or non-competitive environment. GSA would be unable to assess readily and equitably offers fairly and competitively if they were not allowed to collect data required in the information collection.

B. Annual Reporting Burden

Total public reporting burden for this collection of information is estimated to average 400 total hours (\$33,004) annually, including the time for reviewing instructions, searching

existing data sources, gathering, and maintaining the data needed, and completing and reviewing the collection of information. The estimated burden hours to the public for the below clauses are as follows:

GSAR 552.236–79, Construction-Contractor-as-Constructor, requires the contractor to submit proposals to establish the final estimated cost of the work, to convert the contract to a firm-fixed-price, and to determine the final settlement.

Respondents: 5.

Responses per Respondent: 1.

Total Annual Responses: 10.

Hours per Response: 40.

Total Response Burden Hours: 400.

Cost per Hour: \$82.51.

Estimated Cost Burden to the Public: \$33,004.

GSAR 552.236–80, Accounting Records, contains a recordkeeping requirement that is subject to the Paperwork Reduction Act (44 U.S.C. 3501, *et seq.*). The clause requires the contractor to keep all relevant documents for a period of three years after the final payment. However, the clause does not add burden to what is already estimated for the existing FAR clause at 52.215–2, Audit and Records by a previous information collection (see OMB Control Number 9000–0034).

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate and based on valid assumptions and methodology; and ways to enhance the quality, utility, and clarity of the information to be collected.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division, by calling 202–501–4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 3090–0320, Construction Manager as Constructor, in all correspondence.

A focus of the discussion will include the treatment effect size in the context of the high placebo mortality rate, the limited size of the safety database, and identifying the proposed population.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its website prior to the meeting, the background material will be made publicly available on FDA's website at the time of the advisory committee meeting. Background material and the link to the online teleconference meeting room will be available at <https://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee meeting link. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before September 22, 2022. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session.
