Needs and Uses: In the *USF/ICC Transformation Order*, the Commission laid the groundwork for today's universal service programs providing \$4.5 billion in support for broadband internet deployment in high-cost areas. *Connect America Fund, et al.*, Report and Order and Further Notice of Proposed Rulemaking, WC Docket No. 10–90, et al., 26 FCC Rcd 17663 (2011) (*USF/ICC Transformation Order*). The *USF/ICC Transformation Order* required, among other things, that high-cost universal service recipients "test their broadband networks for compliance with speed and latency metrics and certify to and report the results to the Universal Service Administrative Company (USAC) on an annual basis." *Id.* at 17705, para. 109. See generally *Performance Measures Order*. See also 47 CFR 54.313(a)(6) (requiring that recipients of high-cost support provide "[t]he results of network performance tests pursuant to the methodology and in the format determined by the Wireline Competition Bureau, Wireless Telecommunications Bureau, and Office of Engineering and Technology").

This collection includes requirements for testing speed and latency to ensure that carriers are meeting the public interest obligations associated with their receipt of high-cost universal service support.
