

authorized under OMB number 2060-0094, EPA ICR 0167.06. Both recall activities impose relatively minor burdens and are an extension of the information originally collected to support certification. As such, EPA proposes to include them in the consolidated ICR. Upon OMB approval of the consolidated ICR, the previously approved separate ICRs will no longer be needed.

Concurrent Rulemaking: EPA is concurrently proposing to amend certain aspects of the ICR regarding On Board Diagnostic (OBD) service information. The ICR was submitted to OMB on 01 April 2001 under EPA number 0783.41; the Notice of Proposed Rulemaking was published on June 8, 2001, 66 FR 30830. Comments on this proposal should be submitted as directed in those documents. The ICR renewal will be amended to reflect any changes in information burden that are ultimately approved by OMB.

The EPA would like to solicit comments to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
 - (ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
 - (iii) Enhance the quality, utility, and clarity of the information to be collected; and
 - (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
- (v) Evaluate the effect of combining the ICRs discussed above.

Burden Statement: The total labor burden imposed by the Motor Vehicle Emission Certification and Fuel Economy Compliance program is approximately 538,192.5 hours/year. Approximately 70 respondents are regulated by this program, yielding an average burden of 7,688.5 hours/year/ respondent. The annual operating and capitalized costs are \$3 million and \$9.7 million respectively. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for

the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Public Listening Sessions on the Total Maximum Daily Load (TMDL) Program and Related Areas of the National Pollutant Discharge Elimination System (NPDES) Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public meetings.

SUMMARY: EPA is inviting all interested members of the public to participate in one or all of a series of five public listening sessions on the Total Maximum Daily Load (TMDL) program (section 303(d) of the Clean Water Act) and related issues in the National Pollutant Discharge Elimination System (NPDES) program (section 402 of the Clean Water Act).

DATES: See **SUPPLEMENTARY INFORMATION** section for meeting dates.

ADDRESSES: See **SUPPLEMENTARY INFORMATION** section for meeting locations.

FOR FURTHER INFORMATION CONTACT: For general information on the meetings and to register to attend one or more meetings, visit EPA's TMDL web site at: <http://www.epa.gov/owow/tmdl/meetings/>. When registering online, include your name, affiliation, address, phone number, fax number, email, and which TMDL listening session you will attend. If you are unable to register online, please fax registration information to (703) 934-1057. If you have questions about these meetings or if you want to mail in a written statement in advance of a public meeting or after a meeting, contact: Anne C. Weinberg, U.S. EPA Office of Wetlands, Oceans and Watersheds (4503F), U.S. Environmental Protection

Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, phone (202) 401-078 or email weinberg.anne@epa.gov.

SUPPLEMENTARY INFORMATION: The purpose of these listening sessions is to: Improve understanding of the TMDL program; provide information about the status of the current program; get stakeholder perspectives on key issues associated with the TMDL program and related issues in the NPDES program; and identify/discuss ideas about how to address issues in the TMDL and NPDES programs. EPA will use the information received at these public listening sessions as it considers changes to the regulations which govern the TMDL program (40 CFR part 130) and related areas of the NPDES program (40 CFR parts 122, 123, and 124), with a view toward proposing modifications in mid-2002.

Four of the public TMDL listening sessions will focus on specific themes/issues including: Implementation of TMDLs Addressing Nonpoint Sources; Scope and Content of TMDLs; EPA's Role, the Pace/Schedule for Development of TMDLs, and National Pollutant Discharge Elimination System (NPDES) Permitting Pre and Post TMDLs; and Listing Impaired Waters. At each of these meetings, the public will have an opportunity to discuss TMDL interests or concerns both related and unrelated to the specific theme/issue of the meeting. At the fifth meeting in Washington, DC, EPA will summarize the input received at the first four public meetings and will provide an opportunity for additional input.

We are using a non-traditional format for these listening sessions. These listening sessions will include: A background presentation by EPA, small group sessions during which participants can choose to discuss issues associated with the theme or other topics of concern to them, and general discussions in plenary session to report the highlights and/or raise questions from the small group sessions. In addition, any person who wishes to file a written statement may do so before or after the public listening session.

Members of the public who would like to attend one or more meetings or submit a written statement, should see the information on registering for meetings and submitting written statements in the For Further Information Contact section of this notice.

I. Background

Section 303(d) of the Clean Water Act (CWA) and EPA's implementing regulations at 40 CFR 130.7, require states and territories to: Develop lists of water-quality limited waters still requiring Total Maximum Daily Loads (TMDLs); establish a priority ranking of these waters; identify pollutants causing their impairment; and identify waters targeted for TMDL development over the next two (2) years. TMDLs include a determination of pollutant loadings compatible with achievement of applicable state water quality standards. State 303(d) lists and TMDLs are submitted to the EPA for approval or disapproval.
