

service (TRS) in exercising this delegated authority.

Pursuant to this updated delegated authority, the Bureaus released a Public Notice, DA 24–918, 89 FR 80449 (rel. Sept. 11, 2024) (*September 11, 2024 Public Notice*), in which it sought to refresh the record on possible revisions to the Annual Report instructions, templates, and certification form, in addition to those proposed in the *August 3, 2023 Public Notice*, and to implement the modifications to the annual reporting and certification requirements adopted by the Commission in the *2024 IPCS Order*. The Bureaus also sought comment on any additional modifications the Bureaus should consider to make these forms consistent with the new IPCS rules, including the varied compliance dates adopted in the *2024 IPCS Order* for the Commission's rate cap and site commission reforms.

On January 8, 2025, the Bureaus released an Order, WC Docket Nos. 23–62, 12–375, DA 25–23 (rel. Jan. 8, 2025) (*2025 Annual Reports Order*), <https://www.fcc.gov/document/2025-ipc-annual-reports-order>, revising the instructions and reporting templates for the Annual Reports, as well as the associated certification form. The revisions reflect the proposals contained in the *August 3, 2023 Public Notice* and *September 11, 2024 Public Notice*, with refinements and modifications made in response to comments in support of more streamlined, and therefore less burdensome, reporting obligations. The revisions also reflect the Commission's expanded authority under the Martha Wright-Reed Act, including authority over video IPCS, as well as the reporting requirements proposed in the *August 3, 2023 Public Notice* regarding access to IPCS by persons with communication disabilities, including access to TRS.

We note that we are addressing the information requirements and burdens of this collection in several discrete steps. In the first step, we sought OMB approval of the requirements in section 64.6040(c) in order to effectuate the improved access to communications services for incarcerated people with communication disabilities required by section 64.6040(c). We received OMB approval of those information collection requirements on December 14, 2023. See 89 FR 269 (Jan. 3, 2024).

In the second step, which is still in process, the **Federal Register** published a 60-Day Notice on October 25, 2024, inviting comment on the additional information collection requirements imposed by the *2024 IPCS Order*. October 25, 2024 60-Day Notice, WC Docket Nos. 23–62, 12–375, 89 FR

85209 (Oct. 25, 2024) (*2024 60-Day Notice*). We will continue to address the paperwork burdens associated with that portion of this information collection separately from the Annual Reports burdens addressed here. In the *2024 60-Day Notice*, we stated that the Commission had not yet issued an order adopting changes to the instructions, templates, and certification form for the Annual Reports. We also stated that upon release of an order adopting any such changes, we would address any paperwork burdens arising from those changes in a subsequent 60-Day Notice under the PRA.

Accordingly, in this 60-Day Notice, we seek comment on the paperwork burdens associated with the specific revisions to the instructions, reporting templates, and certification form adopted in the *2025 Annual Reports Order*.

FEDERAL COMMUNICATIONS COMMISSION**[OMB 3060-0157, OMB 3060-0996; FR ID 282810]****Information Collections Being Reviewed by the Federal Communications Commission Under Delegated Authority****AGENCY:** Federal Communications Commission.**ACTION:** Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of

Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before May 5, 2025. If you anticipate that you will be submitting comments but find it difficult to do so within the time period allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:*OMB Control Number:* 3060-0157.

Title: Section 73.99, Presunrise Service Authorization (PSRA) and Postsunset Service Authorization (PSSA).

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 200 respondents; 200 responses.

Frequency of Response: Annual and on occasion reporting requirements.

Estimated Time per Response: 0.25 hours.

Total Annual Burden: 50 hours.*Total Annual Costs:* \$15,000.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in Section 154(i) of the Communications Act of 1934, as amended.

Needs and Uses: The information collection requirements contained in 47 CFR 73.99(e) requires the licensee of an AM broadcast station intending to operate with a presunrise or postsunset service authorization to submit by letter to the Commission the licensee's name, call letters, location, the intended service, and a description of the method whereby any necessary power reduction will be achieved. Upon submission of this information, operation may begin without further authority. The FCC staff uses the letter to maintain complete technical information about the station to ensure that the licensee is in full compliance with the Commission's rules and will not cause interference to other stations.

OMB Control Number: 3060-0996.

Title: AM Auction Section 307(b) Submissions.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit entities; State, local or Tribal governments.

Number of Respondents and Responses: 210 respondents; 210 responses.

Estimated Time per Response: 0.5-6 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for the information collection requirements is contained in Sections 154(i), 307(b) and 309 of the Communications Act of 1934, as amended.

Total Annual Burden: 1,029 hours.*Total Annual Costs:* \$2,126,100.

Needs and Uses: When Congress granted auction authority in the Balanced Budget Act for commercial broadcast and secondary broadcast services, it did not eliminate or revise section 307(b) of the Communications Act. Section 307(b) requires that the Commission effect a fair, efficient, and equitable distribution of radio stations throughout the United States.

Section 307(b) information was previously collected in the framework of comparative hearing proceedings when mutually exclusive AM applications proposing to serve different communities were filed, or when non-mutually exclusive AM applications proposed a major modification of facility change. Since the comparative hearing process was discontinued as a result of the implementation of competitive bidding, the Commission now collects the section 307(b) information and undertakes a section 307(b) analysis in the context of auction proceedings. For example, for mutually exclusive AM applications proposing to serve different communities, the process is performed prior to conducting the auction.

In order to evaluate section 307(b) considerations, the Commission requires the submission of supplemental information subsequent to the AM auction filing window application (FCC Form 175, including technical information) submission. Section 307(b) information is not collected in the initial auction filing window application because Section 307(b) considerations are not pertinent to all window filed applications. Section 307(b) is relevant only when the mutually exclusive AM application group consists of applications to serve different communities of license.
