Final Results of Administrative Review

For these final results, we determine that the following estimated weighted-average dumping margins exist for the POR, September 1, 2022, through August 31, 2023:

Producer/exporter	Estimated weighted-average dumping margin (percent)
Adisseo España S.A	0.71

Disclosure

Normally, Commerce discloses to interested parties the calculations performed in connection with the final results of review within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b). However, because we made no changes from the *Preliminary Results*, there are no new calculations to disclose.

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. Pursuant to 19 CFR 351.212(b)(1), we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for examined sales to each importer to the total entered value of those sales. Where an importer-specific assessment rate is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. Pursuant to a refinement to Commerce’s assessment practice, for subject merchandise that was entered into the United States, or withdrawn from warehouse, for consumption during the POR, that was produced or exported by Adisseo España for which Adisseo España did not report the sale in its U.S. sales database, we will instruct CBP to liquidate the entry of such merchandise at the all-others rate (*i.e.*, 37.53

percent)⁶ if there is no rate for the intermediate company(ies) involved in the transaction.⁷

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register**, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for companies subject to this review will be equal to the weighted-average dumping margin listed in the “Final Results of Review” section above; (2) for merchandise that was exported by a company that is not under review and the company has a company-specific cash deposit rate from a completed segment of this proceeding, the cash deposit rate will continue to be the company-specific cash deposit rate from a completed segment of the proceeding that is currently applicable to the company; (3) if the exporter of the subject merchandise was not covered by this review or a previously completed segment of this proceeding, but the producer of the subject merchandise was covered, then the cash deposit rate will be equal to the company-specific cash deposit rate from a completed segment of this proceeding that is currently applicable to the producer of the subject merchandise; and (4) if neither the exporter nor the producer of the subject merchandise was covered by this review or a previously completed segment of this proceeding, then the cash deposit rate will be 37.53 percent *ad valorem*, the all-others rate established in the less than fair value investigation.⁸ These cash deposit requirements, when imposed, shall remain in effect until further notice.

certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order (APO)

This notice also serves as a reminder to parties subject to an APO of their responsibility concerning the destruction or return of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the destruction or return of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing these final results of review and this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(h) and 351.221(b)(5).
