

may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become operative before the expiration of the current pilot period. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, because waiver would allow the pilot period to continue uninterrupted after its current expiration date of August 31, 2016, thereby avoiding any potential investor confusion that could result from temporary interruption in the pilot program. For this reason, the Commission hereby waives the 30-day operative delay and designates the proposal operative upon filing.¹⁶

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.
