(B) 70 percent of the total cost of a project carried out by an eligible entity that has received at least 1 grant under this section.

(c) Limitation on Revenue Collected.—Any revenue collected through a user-based alternative revenue mechanism established using funds provided under this section shall not be considered a toll under section 301 of title 23, United States Code.

(d) Recommendations and Report.—Not later than 3 years after the date of enactment of this Act, the Secretary, in coordination with the Secretary of the Treasury and the Federal System Funding Alternative Advisory Board established under section 13002(g)(1), shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that—

(1) summarizes the results of the pilot projects under this section and the national pilot program under section 13002; and

(2) provides recommendations, if applicable, to enable potential implementation of a nationwide user-based alternative revenue mechanism.

(e) Funding.—(1) In General.—Of the funds made available to carry out section 503(b) of title 23, United States Code, for each of fiscal years 2022 through 2026 \$15,000,000 shall be used for pilot projects under this section.

(2) Flexibility.—If, by August 1 of each fiscal year, the Secretary determines that there are not enough grant applications to meet the requirements of this section for that fiscal year, the Secretary shall transfer to the national pilot program under section 13002 or to the highway research and development program under section 503(b) of title 23, United States Code—(A) any funds reserved for a fiscal year under paragraph (1) that the Secretary has not yet awarded under this section; and (B) an amount of obligation limitation equal to the amount of funds that the Secretary transfers under subparagraph (A).

(f) Repeal.—

(1) In General.—Section 6020 of the FAST Act (23 U.S.C. 503 note; Pub. L. 114–94) is repealed.

(2) Clerical Amendment.—The table of contents in section 1(b) of the FAST Act (Pub. L. 114–94; 129 Stat. 1312) is amended by striking the item relating to section 6020.

Federal Highway Administration [Docket No. FHWA-2023-0039]

Agency Information Collection Activities: Request for Comments for a

**AGENCY:** Federal Highway Administration (FHWA), DOT. **ACTION:** Notice and request for

**New Information Collection** 

comments.

**SUMMARY:** The FHWA invites public comments about our intention to request

the Office of Management and Budget's (OMB) approval for an information collection, which is summarized below under SUPPLEMENTARY INFORMATION. We are required to publish this notice in the Federal Register by the Paperwork Reduction Act of 1995.

**DATES:** Please submit comments by December 18, 2023.

**ADDRESSES:** You may submit comments identified by DOT Docket ID Number 0039 by any of the following methods:

Website: For access to the docket to read background documents or comments received go to the Federal eRulemaking Portal: Go to http://www.regulations.gov.

Follow the online instructions for submitting comments.

Fax: 1-202-493-2251.

Mail: Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590–0001.

Hand Delivery or Courier: U.S.
Department of Transportation, West
Building Ground Floor, Room W12–140,
1200 New Jersey Avenue SE,
Washington, DC 20590, between 9 a.m.
and 5 p.m. ET, Monday through Friday,
except Federal holidays.

### FOR FURTHER INFORMATION CONTACT:

Steven Jessberger, (202) 366 5052/ steven.jessberger@dot.gov; Patrick Zhang, (202) 366–1941/patrick.zhang@dot.gov, Department of Transportation, Federal Highway Administration, Office Highway Policy Information, 1200 New Jersey Avenue SE, Washington, DC 20590. Office hours are from 7 a.m. to 4 p.m., Monday through Friday, except Federal Holidays.

#### SUPPLEMENTARY INFORMATION:

*Title:* Travel Monitoring Analysis System.

Background and Justification: The purpose of this document is to request OMB's three-year extension for a currently approved information collection titled "Heavy Vehicle Travel Information System (HVTIS)," covered by OMB Control No. 2125–0587. This information collection is due to expire on August 30, 2021. The Travel Monitoring Analysis System (TMAS) is the current system used to collect HVTIS information; therefore, the extension should now be titled Travel Monitoring Analysis System.

Part A. Justification

1. Circumstances That Make the Collection of Information Necessary

23 U. S. Code 150 National Goals and Performance Management Measures requires that the U.S. DOT to establish a performance management system for its Federal-aid highway program. The Federal Highway Administration (FHWA), U.S. Department of Transportation (DOT) promulgated the performance management via 23 CFR 490: National Performance Management Measures. Traffic data, including volume (# of vehicles and travelers), class (types of vehicles), weight (weight of vehicles), and travel time (speed), are parameters the performance management program relies upon.

The FHWA is planning to continue to collect these traffic data through the TMAS system. To carry out the data collection, the FHWA will request that State Departments of Transportations (SDOTs) provide traffic volume, vehicle classification, vehicle speed, vehicle weight data, and nonmotorized data, which they collect as part of their traffic

monitoring programs.

In addition, 23 CFR 1.5 and 49 CFR 1.48 provide the Federal Highway Administrator with authority to request such information deemed necessary to administer the Federal-aid highway program. Traffic data are used for assessing highway system performance under FHWA's strategic planning and performance reporting process in accordance with the requirement of the Government Performance and Results Act (GPRA, Sections 3 and 4).

Finally, both the 23 U. S. Code 503 and the 23 CFR 420.105(b) require States to provide data that support FHWA's responsibilities carrying out the Federal-aid highway program to

Congress and the public.

The data to be collected will continue to be used by the FHWA and other DOT agencies to (a) manage its Federal-aid highway program through the performance management mechanism, (b) evaluate changes in vehicular and nonmotorized travel to assess impacts on highway safety, (c) analyze the role of travel in economic development and productivity, (d) assess impacts from truck travel on infrastructure demands, and (e) maintain and improve our Nation's mobility while protecting the human and natural environment.

2. How, by Whom, and for What Purpose Is the Information Used

The data submitted through TMAS will provide the amount and nature of vehicular travel at the national, regional, and state levels. The data also provide information on how vehicular travel pattern varies by hour of the day, day of the week, the month of the year, and year to year.

Data submitted under the TMAS program are essential to the FHWA and the LLS DOT in determining.

the U.S. DOT in determining:

- The effectiveness of current highway programs in supporting travel demands, safety improvement, and travel reliability
- The potential of possible modifications to the Federal-aid highway program, and
- The need for new programs
- The adequacy of the U.S. DOT Strategic Goals in areas of:
- i. Safety exposures: providing accurate and detailed exposure information related to travel and especially the roles of different vehicles in the same traffic stream
- ii. *Mobility:* providing data on the relative usage of system capacity by various vehicles by time of day and the associated share of congestion that may be implicit in such travel
- iii. Productivity: providing data necessary to estimate the tonnage of goods and number of people being moved by time of day, and season of the year over the various highway systems and
- iv. Human and Natural Environment: providing data needed for the highway noise and air quality effect assessments.

State highway agencies use the traffic data for project and program level applications such as geometric design, pavement design, safety analysis, overweight and oversize vehicle permitting, designating truck routes, estimating trends in freight movement, highway noise abatement needs assessment.

In addition to the usage by the Federal and State governmental agencies, institutions of higher learning, industry, consultants, professional organizations, and the public are using the data for research and education, business development, and general information.

3. Extent of Automated Information Collection

All data for the TMAS will be submitted electronically to the FHWA by all State highway and local agencies, including the District of Columbia and Puerto Rico Departments of Transportation. Reliance on electronic reporting is responsive to limited staff resources at both the local, State and Federal levels. With the unlimited data upload file size, online electronic submission reduces burden to all respondents.

The collected data will be further inserted into a Geographical Information System by the FHWA in order to support the analysis of point-specific vehicle travel data on a network basis. This is expected to allow:

- Correlation of pavement loadings generated by vehicles to data in other FHWA systems that report pavement condition:
- Major truck and interregional passenger corridors will be more readily identifiable among the links comprising the Nation's highway network, and;
- Weather, natural disaster and other geographically related phenomena can be more readily related to associated changes in travel patterns

All data summarization, processing, and editing are fully automated. The TMAS is supported by various software browsers for use by the local, States and FHWA staff in order to report, edit and summarize the collected data.

Respondents: State Departments of Transportation Agencies and Metropolitan Planning Organizations and Local Agencies responsible for submitting traffic data (both motorized and micromobility) to FHWA.

Frequency: All data for the TMAS will be submitted electronically monthly to the FHWA by all State highway and local agencies, including the District of Columbia and Puerto Rico Departments of Transportation. Reliance on electronic reporting is responsive to limited staff resources at both the local, State and Federal levels. With the unlimited data upload file size, online electronic submission reduces burden to all respondents.

The collected data will be further inserted into a Geographical Information System by the FHWA in order to support the analysis of point-specific vehicle travel data on a network basis. This is expected to allow:

 Correlation of pavement loadings generated by vehicles to data in other FHWA systems that report pavement condition;

- Major truck and interregional passenger corridors will be more readily identifiable among the links comprising the Nation's highway network, and;
- Weather, natural disaster and other geographically related phenomena can be more readily related to associated changes in travel patterns

All data summarization, processing, and editing are fully automated. The TMAS is supported by various software browsers for use by the local, States and FHWA staff in order to report, edit and summarize the collected data.

Estimated Average Burden per Response: FHWA estimates that the average State DOT operates 60 continuous vehicle classification installations, and 15 weigh-in-motion sites. State highway agencies have established their Traffic Monitoring System (TMS) under the Intermodal Surface Transportation Efficiency Act, Transportation Equity Act for the 21st Century, and the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users. The data collection burden relevant for this notice is the additional burden for each State to provide a copy of its traffic data per data formats specified in the FHWA Traffic Monitoring Guide. Automation and online tools continue to be developed and improved in support of the TMAS and the capability now exists for online submission and validation of volume, speed, classification and weight data. The combined burden for the monthly report is estimated to be 50 hours per respondent. The estimated total burden for all States, the District of Columbia, and Puerto Rico are 2,600 hours.

Salary costs associated with burden hours are estimated at an average of \$35.50 per hour for the technical specialists dealing with the TMAS data types. The hourly rate is taken from Table 452 of the 2007 Statistical Abstract of the United States Census Bureau. These costs are calculated as follows:  $$35.50 \times 2,600 \text{ hours} = $92,300.$ 

## ESTIMATED TOTAL ANNUAL BURDEN HOURS

| Data type                 | Reportings<br>per year<br>per site | Average<br>hours per<br>response | Hours<br>per year<br>per state |
|---------------------------|------------------------------------|----------------------------------|--------------------------------|
| Site Description          | 1                                  | 2                                | 2                              |
| Vehicle Classification    | 12                                 | 1                                | 12                             |
| Vehicle Speed             | 12                                 | 1                                | 12                             |
| Vehicle Weight            | 12                                 | 1                                | 12                             |
| Total Volume              | 12                                 | 0.5                              | 6                              |
| Total Nonmotorized Volume | 12                                 | 0.5                              | 6                              |

#### ESTIMATED TOTAL ANNUAL BURDEN HOURS—Continued

| Data type                      | Reportings | Average   | Hours     |
|--------------------------------|------------|-----------|-----------|
|                                | per year   | hours per | per year  |
|                                | per site   | response  | per state |
| Total Hours per State per Year |            |           | 50        |

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

Issued On: October 12, 2023.

BILLING CODE 4910-22-P

# DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900-0706]

Agency Information Collection Activity under OMB Review: Application For Reimbursement of National Exam Fee

**AGENCY:** Veterans Benefits Administration, Department of Veterans

ACTION: Notice.

Affairs.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995, this notice announces that the Veterans Benefits Administration (VBA), Department of Veterans Affairs, will submit the collection of information abstracted below to the Office of Management and Budget (OMB) for review and comment. The PRA submission describes the nature of the information collection and its expected cost and burden, and it includes the actual data collection instrument.

**DATES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice by clicking on the following link

www.reginfo.gov/public/do/PRAMain, select "Currently under Review—Open for Public Comments", then search the list for the information collection by Title or "OMB Control No. 2900–0706."

#### FOR FURTHER INFORMATION CONTACT:

Maribel Aponte, Office of Enterprise and Integration, Data Governance Analytics (008), 810 Vermont Ave. NW, Washington, DC 20420, (202) 266–4688 or email *Maribel.aponte@va.gov*. Please refer to "OMB Control No. 2900–0706" in any correspondence.

#### SUPPLEMENTARY INFORMATION:

Authority: Public Law 108–454 and Public Law 111–377; 38 U.S.C. 5101 and CFR 21.1030.

Title: Application for Reimbursement of National Exam Fee, VA Form 22–

OMB Control Number: 2900-0706.

*Type of Review:* Revision of a currently approved collection.

Abstract: VA will use the information collected to determine whether the claimant qualifies to receive reimbursement for a claimed national test, and if so, the amount of the reimbursement of the fee charged.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** Notice with a 60-day comment period soliciting comments on this collection of information was published at 88 FR 60743 on Tuesday, September 5, 2023, Page 60743.

Affected Public: Individuals and Households.

Estimated Annual Burden: 57 hours. Estimated Average Burden Time per Respondent: 15 minutes.

Frequency of Response: Once.
Estimated Number of Respondents:
230.

By direction of the Secretary.
