SUPPLEMENTARY INFORMATION: The Privacy Act of 1974 (5 U.S.C. 552a) provides certain protections for individuals applying for and receiving Federal benefits. Accordingly, the law governs Federal agency computer matching programs when records in a system of records containing information about individuals, that is retrieved by name or other personal identifier, are matched with records of other Federal, State, or local government agency records. The Privacy Act requires agencies involved in a matching program to:

1. Obtain approval of a Computer Matching Agreement, prepared in accordance with the Privacy Act, by the Data Integrity Board of any Federal agency participating in a matching program.
2. Enter into a written Computer Matching Agreement.
3. Provide a report of the matching program to Congress and the Office of Management and Budget (OMB) and make it available to the public, as required by 5 U.S.C. 552a(o), (u)(3)(A), and (u)(4).
4. Publish a notice of the matching program in the **Federal Register** as required by 5 U.S.C. 552a(e)(12) after OMB and Congress complete their review of the report, as provided by OMB Circular A-108.
5. Notify the individuals whose information will be used in the matching program that the information they provide is subject to verification through matching, as required by 5 U.S.C. 552a(o)(1)(D).

6. Verify match findings before suspending, terminating, reducing, or making a final denial of an individual's benefits or payments or taking other adverse action against the individual, as required by 5 U.S.C. 552a(p).

This matching program complies with these requirements.

Linda Boyer,
Deputy Commissioner, OCSS.

PARTICIPATING AGENCIES:

The agencies participating in the matching program are OCSS (source agency) and state agencies administering the TANF program (non-Federal agencies).

AUTHORITY FOR CONDUCTING THE MATCHING PROGRAM:

The authority for conducting the matching program is contained in section 453(j)(3) of the Social Security Act (42 U.S.C. 653(j)(3)).

PURPOSE(S):

The purpose of the matching program is to compare name and Social Security Number (SSN) combinations of TANF applicant and recipient records from each participating state agency administering TANF with new hire, quarterly wage, and unemployment insurance information maintained in the OCSS NDNH system of records. Any match results from the comparison are returned to the state TANF agency to help them with establishing or verifying TANF applicants' and recipients' eligibility for assistance, reducing payment errors, and maintaining program integrity, including determining whether duplicate participation exists or if the applicant or recipient resides in another state. The state TANF agencies may also use the NDNH match information to update the recipients' reported participation in work activities and recipients' and their employers' contact information maintained by the state TANF agencies.

CATEGORIES OF INDIVIDUALS:

The categories of individuals involved in the matching program are adult TANF applicants and recipients.

CATEGORIES OF RECORDS:

The categories of records involved in the TANF-NDNH matching program, which include personal identifiers, are new hire, quarterly wage, and unemployment insurance information. For successful comparison, state TANF input files sent to OCSS must be programmed according to TANF-NDNH Record Specifications and must include the individual applicant or recipient's name and SSN. The state TANF agency may use alpha-numeric characters in the Passback Data field of the input file to identify the specific authorized purpose for which the record is being submitted for NDNH matching. They may also use the same State Data Indicator field to

indicate whether or not to receive NDNH data that was provided by the state. OCSS will compare the SSNs in the state TANF agency input file to the SSNs in the NDNH and will send the state agency an output file with any available new hire, quarterly wage, and available unemployment insurance information in the NDNH that matched the name and SSNs in the state TANF agency input file records.
