II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the BSE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below and is set forth in Sections A, B, and C below.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the Exchange's Floor Operation Fees schedule with the overall goal of increasing the number of stocks traded on the BSE. The Exchange is proposing to eliminate the credit it offers to specialists for inbound Intermarket Trading System ("ITS") volume and to also reduce the fee that it charges to specialists to execute outbound volume through the same system. The credit was initially implemented to induce specialists to attract volume to the BSE through ITS by openly displaying their limit orders. Since the initial implementation of this

credit, overall market conditions have changed and, more importantly, the Limit Order Display Rule, SEC Rule 11Ac1–4,⁴ now requires that specialists display their limit orders. The Exchange realizes that eliminating this credit may increase the overall cost to transact business on the BSE for some specialists and, as a result, further proposes to reduce the cost to transact outbound ITS volume from \$.003/share to \$.0018/share to offset this cost.

The Exchange also proposes to implement a credit program for its specialists by which, for the first six (6) months of the program, the BSE will credit back 100% of the Trade Recording and Value Charge revenue it generates on BSE executed Floor-Brokered trades in the issues ranked 501

⁴ 17 CFR 240.11Ac1–4.

or greater in listed securities volume reported to the Consolidated Tape Association ("CTA"). In addition, as part of the credit program, the BSE proposes to include 50% Tape Revenue sharing for revenue generated on the same Floor-Brokered volume.⁵ After the first six (6) months of the program, the credit of 100% of the Trade Recording and Value Charge revenue will be reduced to 50%. CTA revenue sharing will remain at the current rate of 50%. The purpose of the credit program for the specialists is to acknowledge the importance of their participation in the Exchange's overall initiative by implementing incentives for specialists to increase the number of issues, and related executions, traded on the BSE.

Additionally, the BSE also proposes to amend its Transaction Fees schedule by revising the rate at which it charges member firms that route orders to the BSE and also provide BSE specialists with the capability of routing order flow to other exchanges (for example, through DOT⁶ terminals). A firm may currently use its automated inbound volume that it routes to the BSE to qualify for reduced rates on outbound volume executed through its DOT terminals and will continue to be able to do so. However, a firm that provides automated inbound volume to the BSE, will now be charged rates on its outbound volume (up to the amount of inbound volume routed to the BSE) of \$.025/100 shares. Rates on outbound volume executed in excess of automated inbound volume routed to the BSE will continue to be charged at the rate of \$.05/100 shares, as previously established. These fees are necessary to offset systems related expenses incurred by the Exchange in providing facilities for its member firms to provide layoff

services to the BSE specialist community.

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act,⁷ in general, and furthers the objectives of Section 6(b)(4) of the Act,⁸ in particular, in that it is an equitable allocation of reasonable dues, fees, and other charges among Exchange members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change has been designated as a fee change pursuant to Section 19(b)(3)(A)(ii) of the Act⁹ and Rule 19b-4(f)(2) thereunder.¹⁰ Accordingly, the proposal will take effect upon filing with the Commission. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the

public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the BSE. All submissions should refer to File No. SR-BSE-2003-12 and should be submitted by September 23, 2003.

⁵ The BSE represented to the Commission that the proposed BSE specialist Revenue Sharing Program will not result in a market data revenue rebate that exceeds 50% of Tape A or B market data revenue. See Securities Exchange Act Release No. 46159 (July 2, 2002), 67 FR 45775 (July 10, 2002) (File Nos.
