

Information Collection Requirement

Title: TSA Claims Application.
Type of Request: Revision of a currently approved collection.
OMB Control Number: 1652–0039.
Forms(s): Supplemental Information Form, Payment Form and Authorization for Disclosure of Protected Health Information Pursuant to HIPAA.
Affected Public: Members of the traveling public who believe they have experienced property loss or damage, a personal injury, or other damages due to the negligent or wrongful act or omission of a TSA employee within their scope of employment, and who decide to seek compensation by filing a federal tort claim against TSA.
Abstract: TSA adjudicates tort claims pursuant to the Federal Tort Claims Act (28 U.S.C. 1346(b), 1402(b), 2401(b), 2671–2680). OMB Control Number 1652–0039, TSA Claims Application, allows the agency to collect information from claimants to examine and resolve tort claims against the agency.
TSA receives approximately 750 tort claims per month arising from airport screening activities, motor vehicle accidents, and employee loss, among others. Because TSA requires further clarifying information, claimants are asked to complete a Supplemental Information page added to the SF–95. TSA is revising the collection to include TSA Form 600, *Authorization for Disclosure of Protected Health Information Pursuant to HIPAA*. If TSA requires information protected by Health Insurance Portability and Accountability Act (HIPAA) in order to fully adjudicate a claim, claimants are asked to complete TSA Form 600 to provide TSA with the claimant’s: (1) name, (2) date of birth, (3) social security number, (4) address, (5) a description of the information to be disclosed, and (6) signature.
Estimated Number of Respondents: 7,500.
Estimated Annual Burden Hours: 3,900.

Dated: December 11, 2024.
Christina A. Walsh,
TSA Paperwork Reduction Act Officer,
Information Technology.

Endangered Species; Receipt of Recovery Permit Application

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Notice of receipt of permit application; request for comments.
SUMMARY: We, the U.S. Fish and Wildlife Service, have received an application for a permit to conduct scientific research to promote conservation or other activities intended to enhance the propagation or survival of endangered or threatened species under the Endangered Species Act. We invite the public and local, State, Tribal, and Federal agencies to comment on the application. Before issuing the requested permit, we will take into consideration any information that we receive during the public comment period.
DATES: We must receive any written comments on or before January 15, 2025.
ADDRESSES: Use one of the following methods to request documents or submit comments. Requests and comments should specify the applicant’s name and application number (e.g., PER0001234):

- *Email:* permitsR5ES@fws.gov.
- *U.S. Mail:* Abby Goldstein, Ecological Services, U.S. Fish and Wildlife Service, 300 Westgate Center Dr., Hadley, MA 01035.

or permitsR5ES@fws.gov (email). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.
SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on an application for a permit under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permit would allow the applicant to conduct activities intended to promote recovery of species that are listed as endangered under the ESA.
Background
With some exceptions, the ESA prohibits activities that constitute take of listed species, unless a Federal permit is issued that allows such activity. The ESA’s definition of “take” includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.
A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.
Permit Application Available for Review and Comment
We invite local, State, and Federal agencies; Tribes; and the public to comment on the application in table 1.

Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite review and comment from the public and local, State, Tribal, and Federal agencies on applications we have received for permits to conduct certain activities with endangered and threatened species under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16

U.S.C. 1531 *et seq.*), and our regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17. Documents and other information submitted with the applications are available for review, subject to the requirements of the Privacy Act of 1974, as amended (5 U.S.C. 552a), and the Freedom of Information Act (5 U.S.C. 552).

Background

With some exceptions, the ESA prohibits take of listed species unless a federal permit is issued that authorizes such take. The definition of “take” in the ESA includes hunting, shooting, harming, wounding, or killing, and also such activities as pursuing, harassing, trapping, capturing, or collecting.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to take endangered or threatened species while engaging in activities that are conducted for scientific purposes that promote recovery of species or for enhancement of propagation or survival of species. These activities often include the capture and collection of species, which would result in prohibited take if a permit were not issued. Our regulations implementing section 10(a)(1)(A) of the ESA for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies. Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild.

Permit application No.	Applicant	Species	Location	Activity	Type of take	Permit action
