BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0166]

Issuance and Availability of Draft Regulatory Guide

AGENCY: Nuclear Regulatory
Commission.

ACTION: Notice of issuance and
availability of Draft Regulatory Guide
1211.

FOR FURTHER INFORMATION CONTACT:
Wallace E. Norris, Division of
Engineering, Office of Nuclear
Regulatory Research, U.S. Nuclear
Regulatory Commission, Washington,
DC 20555-0001, telephone (301) 251-
7650 or e-mail to
Wallace.Norris@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory
Commission (NRC) is issuing for public
comment a draft regulatory guide in the
agency's "Regulatory Guide" series.
This series was developed to describe
and make available to the public such
information as methods that are
acceptable to the NRC staff for
implementing specific parts of the
NRC's regulations, techniques that the
staff uses in evaluating specific
problems or postulated accidents, and
data that the staff needs in its review of
applications for permits and licenses.

The draft regulatory guide (DG), titled,
"Materials and Inspections for Reactor
Vessel Closure Studs," is temporarily
identified by its task number, DG-1211,
which should be mentioned in all
related correspondence. DG-1211 is the
proposed Revision 1 of Regulatory
Guide 1.65.

General Design Criterion 1, "Quality
Standards and Records," of Appendix
A, "General Design Criteria for Nuclear
Power Plants," to Title 10, Part 50,
"Domestic Licensing of Production and
Utilization Facilities," of the Code of
Federal Regulations (10 CFR part 50),
requires, in part, that structures,
systems, and components important to
safety be designed, fabricated, erected,
and tested to quality standards
commensurate with the importance of

the safety function to be performed.
Where generally recognized codes and
standards are used, Criterion 1 requires
that they be identified and evaluated to
determine their applicability, adequacy,
and sufficiency and be supplemented or
modified as necessary to ensure a
quality product in keeping with the
required safety function.

Criterion 30, "Quality of Reactor
Coolant Pressure Boundary," of the
same appendix requires, in part, that
components that are part of the reactor
coolant pressure boundary be designed,
fabricated, erected, and tested to the
highest practical quality standards.

Criterion 31, "Fracture Prevention of
Reactor Coolant Pressure Boundary,"
requires, in part, that the reactor coolant
pressure boundary be designed with
sufficient margin to assure that when
stressed under operating, maintenance,
testing, and postulated accident
conditions (1) the boundary behaves in
a nonbrittle manner and (2) the
probability of rapidly propagating
fracture is minimized.

Appendix B, "Quality Assurance
Criteria for Nuclear Power Plants and
Fuel Reprocessing Plants," to 10 CFR
part 50 requires, in part, that measures
be established for the control of special
processing such as heat treating and that
proper testing be performed.

II. Further Information

The NRC staff is soliciting comments
on DG-1211. Comments may be
accompanied by relevant information or
supporting data, and should mention
DG-1211 in the subject line. Comments
submitted in writing or in electronic
form will be made available to the
public in their entirety through the
NRC's Agencywide Documents Access
and Management System (ADAMS).

Personal information will not be
removed from the comments. Comments
may be submitted by any of the
following methods:

1. *Mail to:* Rulemaking and Directives
Branch, Mail Stop: TWB-05-B01M,
Office of Administration, U.S. Nuclear
Regulatory Commission, Washington,
DC 20555-0001.
2. *Fax to:* Rulemaking and Directives
Branch, Office of Administration, U.S.
Nuclear Regulatory Commission at (301)
492-3446.

Requests for technical information
about DG-1211 may be directed to
Wallace E. Norris at (301) 251-7650 or
e-mail to Wallace.Norris@nrc.gov.

Comments would be most helpful if
received by June 12, 2009. Comments
received after that date will be
considered if it is practical to do so, but
the NRC is able to ensure consideration
only for comments received on or before

this date. Although a time limit is given,
comments and suggestions in
connection with items for inclusion in
guides currently being developed or
improvements in all published guides
are encouraged at any time.

Electronic copies of DG-1211 are
available through the NRC's public Web
site under Draft Regulatory Guides in
the "Regulatory Guides" collection of
the NRC's Electronic Reading Room at
<http://www.nrc.gov/reading-rm/doc-collections/>. Electronic copies are also
available in ADAMS ([http://
www.nrc.gov/reading-rm/adams.html](http://www.nrc.gov/reading-rm/adams.html)),
under Accession No. ML082820439.

In addition, regulatory guides are
available for inspection at the NRC's
Public Document Room (PDR), which is
located at Room O-1F21, One White
Flint North, 11555 Rockville Pike,
Rockville, Maryland 20852-2738. The
PDR's mailing address is USNRC PDR,
Washington, DC 20555-0001. The PDR
can also be reached by telephone at
(301) 415-4737 or (800) 397-4209, by
fax at (301) 415-3548, and by e-mail to
pdr.resource@nrc.gov.

Regulatory guides are not
copyrighted, and NRC approval is not
required to reproduce them.

Dated at Rockville, Maryland, this 6th day
of April 2009.

For the Nuclear Regulatory Commission.

Andrea D. Valentin,

*Chief, Regulatory Guide Development Branch,
Division of Engineering, Office of Nuclear
Regulatory Research.*

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

VoIP, Inc.; Order of Suspension of Trading

April 13, 2009.

It appears to the Securities and
Exchange Commission that there is a
lack of current and accurate information
concerning the securities of VoIP, Inc.
("VoIP") because it has not filed an
Annual Report on Form 10-K since
December 31, 2006 or periodic or
quarterly reports on Form 10-Q for any
fiscal period subsequent to its fiscal
quarter ending September 30, 2007.

The Commission is of the opinion that
the public interest and the protection of
investors require a suspension of trading
in the securities of the above listed
company.

Therefore, it is ordered, pursuant to
Section 12(k) of the Securities Exchange
Act of 1934, that trading in the

securities in the above listed company is suspended for the period from 9:30 a.m. EDT, April 13, 2009 through 11:59 p.m. EDT, on April 24, 2009.

By the Commission.

Florence E. Harmon,

Deputy Secretary.

BILLING CODE 8010-01-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket No. USTR-2009-0010]

Request for Public Comments Regarding Status of U.S. Equipment Industry Access to the European Community's (EC) Galileo Program and European Markets for Related Goods and Services

AGENCY: Office of the United States Trade Representative.

ACTION: Request for comments.

SUMMARY: The Trade Policy Staff Committee is seeking the views of interested parties on six questions regarding U.S. equipment industry access to the EC Galileo program and European markets for related goods and services, which pertain to Articles 5, 6, and 8 of the Agreement on the Promotion, Provision and Use of Galileo and GPS Satellite-Based Navigation Systems and Related Applications ("Agreement"). USTR will use this information in connection with its preparation of a report to Congress, as requested in the explanatory statement accompanying the Omnibus Appropriations Act, 2009, and to identify issues that may merit further discussion with the EC and its Member States under the consultation mechanism established under the Agreement.

DATES: Public comments are due no later than 5 p.m., Wednesday, May 13, 2009.

ADDRESSES: Comments should be submitted electronically to <http://www.regulations.gov>, docket number USTR-2009-0010. If you are unable to provide submissions by <http://www.regulations.gov>, please contact Gloria Blue at (202) 395-3475 to arrange for an alternative method of transmission. If (as explained below) the comment contains confidential information, then the comment should be submitted only by fax to Gloria Blue at (202) 395-5141.

FOR FURTHER INFORMATION CONTACT: For procedural questions concerning written comments, contact Gloria Blue,

Executive Secretary, Trade Policy Staff Committee, at (202) 395-3475. All other questions should be directed to Scott Pietan, Director of Industry, Office of the United States Trade Representative, 600 17th Street, NW., Washington, DC, (202) 395-9646.

SUPPLEMENTARY INFORMATION: In 2004, the United States and the EC and its Member States signed the Agreement on the Promotion, Provision and Use of Galileo and GPS Satellite-Based Navigation Systems and Related Applications ("Agreement"), which addresses U.S. and EC satellite navigation services, in particular the U.S. Global Positioning System, and the planned EC Galileo system. The Agreement has not yet entered into force, but it is being provisionally applied. The Agreement may be found at <http://pnt.gov/public/docs/2004/gpsgalileoagreement.pdf>. In addition to addressing signal compatibility and individual and mutual security concerns, the Agreement calls for non-discrimination and open markets in trade in civil satellite navigation-related goods and services.

In an explanatory statement accompanying the Omnibus Appropriations Act, 2009, Congress requested that USTR report on the status of U.S. equipment industry access to the EC Galileo program and European markets for related goods and services, in order to assess EC compliance with the Agreement. Joint Explanatory Statement to the Omnibus Appropriations Act, 2009, Public Law 111-008, 155 Cong. Rec. H1653, H1840 (daily ed., Feb. 23, 2009). To assist it in fulfilling that request, and in identifying matters that merit further discussion with the EC and its Member States in connection with the consultation mechanism provided under the Agreement, USTR is seeking comments on six issues:

(1) Has the EC or any of its Member States established any measures of the type described in Article 5.1 of the Agreement that adversely affect U.S. equipment industry access to Galileo navigation and timing signals and services, value added services, augmentations and global navigation and timing goods, or European markets for related goods and services?

(2) Has the EC or any of its Member States established any measures that have the effect, directly or indirectly, of mandating the use of any civil satellite-based navigation and timing signals or services, value-added service, augmentation, or global navigation and timing equipment within its territory, not expressly authorized by the

International Civil Aviation Organization or the International Maritime Organization, as described in Article 5.2 of the Agreement?

(3) Does the EC or any of its Member States maintain a non-discriminatory approach with respect to trade in goods and services related to civil satellite-based navigation and timing signals, augmentations, and value-added services, consistent with the affirming statement contained in Article 6.1 of the Agreement?

(4) Are any EC or Member State measures with respect to goods and services related to civil satellite-based navigation and timing signals or services, augmentations, and value-added services used as a disguised restriction on or an unnecessary obstacle to international trade, as described in Article 6.2 of the Agreement?

(5) Does the EC make publicly available on a non-discriminatory basis, sufficient information concerning its unencrypted civil satellite-based navigation and timing signals and augmentations, consistent with Article 8.1 of the Agreement?

(6) To the extent that it provides civil satellite-based navigation and timing signals or services, augmentation, or value-added service for civil users that is encrypted or otherwise has features that allow the global navigation service provider to deny access, does the EC or any of its Member States, subject to applicable export controls, afford to U.S. manufacturers of global navigation and timing equipment or augmentation or value-added services providers, on a non-discriminatory basis, access to the information necessary to incorporate such encryption or other similar features into their equipment, through licensing of necessary information or other means at market prices, consistent with the terms set forth in Article 8.2 of the Agreement?

Public Comment: Requirements for Submissions

Persons may submit public comments electronically to <http://www.regulations.gov> docket number USTR-2009-0010. If you are unable to provide submission by <http://www.regulations.gov>, please contact Gloria Blue at (202) 395-3475 to arrange for an alternative method of transmission.

To submit comments via <http://www.regulations.gov>, enter docket number USTR-2009-0010 on the home page and click "go". The site will provide a search-results page listing all documents associated with this docket. Find a reference to this notice by
