II. Background

EPA is convening a public workshop to explain the proposed revisions to the data requirements for the registration of antimicrobial pesticides. Under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), anyone seeking to register a pesticide product is required to provide information to EPA to demonstrate that their products can be used without posing “unreasonable adverse effects on the environment” as defined by FIFRA section 2(bb).

The public workshop will include presentations by staff from the Antimicrobial, and the Field and External Affairs Divisions of the Office of Pesticide Programs. The proposed revisions are directed at antimicrobial pesticides, not conventional pesticides, biochemical and microbial pesticides or product performance data requirements. Nonetheless, all interested parties are welcome and may benefit from the discussions since two areas not addressed in the conventional pesticide (72 FR 60934, October 26, 2007) (FRL-8106-5), or biochemical and microbial pesticide (72 FR 60988, October 26, 2007) (FRL-8109-8) data requirements final rules are addressed in the antimicrobial data requirements proposed rule. These two areas are: Down-the-drain data requirements and the Program’s use of structure-activity-relationship (SAR).

During the workshop, persons in attendance will be able to ask questions regarding the proposed rule and/or material being presented and seek any clarification they believe may assist them in submitting comments to the docket for the proposed rule. Any person wishing to comment on the proposed rule must submit any comments to the docket within the timeframe set forth in the Notice of Proposed Rulemaking.

The proposed revisions were issued in the **Federal Register** of October 8, 2008 (73 FR 59382) (FRL-8358-2). A 90-day comment period will end on January 6, 2008. The notice of the workshop was published on October 10, 2008 (73 FR 60211) (FRL-8383-6). A limited number of copies of the proposed rule will be available at the workshop. Attendees are encouraged to access the electronic version of the proposed rule from the [regulations.gov](http://www.regulations.gov) website under Docket ID number EPA-HQ-OPP-2008-0110.

The Agency has arranged for a web conference to serve as an alternate means of participating in the workshop. You can join the web conference

starting at 8 a.m. on November 6, 2008. To access the web conference go to <http://portal.epa.gov/webconference>, and complete the Join Conference box on the right of the screen using the following information: Conference ID: 309742 and Conference Key: 12345. AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Comments are requested on the proposed Base (1 percent annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the proposed regulatory flood elevations for the reach described by the downstream and upstream locations in the table below. The BFEs and modified BFEs are a part of the floodplain management measures that the community is required either to adopt or show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, these elevations, once finalized, will be used by insurance agents, and others to calculate appropriate flood insurance premium rates for new buildings and the contents in those buildings.
