[Project No. 13511-003]

Igiugig Village Council; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC's) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the Igiugig Village Council's application for a 10-year pilot project license for the proposed Igiugig Hydrokinetic Project No. 13511, which would be located on the Kvichak River in the Lake and Peninsula Borough, near the town of Igiugig, Alaska, and has prepared an Environmental Assessment (EA). In the EA, Commission staff analyzed the potential environmental effects of constructing and operating the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at www.ferc.gov using the eLibrary link. Enter the docket number excluding the last three digits in the docket number
