Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: Pacific Fishery Management Council (Pacific Council) staff and Office of National Marine Sanctuaries (ONMS) staff will present a briefing on two September Pacific Council meeting agenda items, the Chumash Sanctuary Designation and the Coral Restoration and Research Plan, to interested Pacific Council members, advisory body members, and the public.

DATES: The online briefing will be held Thursday, August 24, 2023, from 2 p.m. to 4 p.m., Pacific Daylight Time, or until discussion is finished.

ADDRESSES: This meeting will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820–2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220–1384.

FOR FURTHER INFORMATION CONTACT: Jessi Doerpinghaus, Staff Officer, Pacific Council; telephone: (503) 820–2415 or Mr. Kerry Griffin, Staff Officer, Pacific Council; telephone: (503) 820–2409.

SUPPLEMENTARY INFORMATION: The Pacific Council will be considering two administrative items related to the ONMS at its September meeting. The first item, Chumash Sanctuary

Designation, will focus on the proposed designation documents and regulations for the new Sanctuary, with particular focus on any proposed regulations that may affect fishing activities under the Council's jurisdiction. The second item is the consideration of new areas for coral research and restoration in the Gulf of Farallones and Monterey Bay National Marine Sanctuaries. The Council will begin scoping this item in September and will consider the areas that may be closed to fishing and to what fisheries the closures would apply. This presentation is aimed at a broad audience of Council members, advisory body members, and the public. Pacific Council and ONMS staff may follow up with more targeted discussions with advisory bodies during their September meetings will also brief the Council directly.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820–2412) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 3, 2023.

Diane M. DeJames-Daly,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Advisory Committee Open Session on Management Strategy Evaluation for North Atlantic Swordfish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of meeting.

SUMMARY: NMFS is holding a public meeting via webinar session for the Advisory Committee to the U.S. Section to the International Commission for the Conservation of Atlantic Tunas (ICCAT) and all interested stakeholders to receive an update and provide input on the development of the management strategy evaluation (MSE) for North Atlantic swordfish.

DATES: A virtual meeting that is open to the public will be held by webinar session on August 24, 2023, from 3 p.m. to 5 p.m. EDT.

ADDRESSES: Please register to attend the meeting at: <https://forms.gle/QbymT8n4mYm7SP3S9>. Registration will close on August 22, 2023, at 5 p.m. EDT. Instructions for accessing the webinar session will be emailed to registered participants.

FOR FURTHER INFORMATION CONTACT: Bryan Keller, Office of International Affairs, Trade, and Commerce at (301) 427–7725 or Bryan.Keller@noaa.gov.

SUPPLEMENTARY INFORMATION: MSE is a process that allows fishery managers and stakeholders (e.g., industry, scientists, and non-governmental organizations) to assess how well different strategies achieve specified management objectives for a fishery. ICCAT expects to finalize its North Atlantic swordfish MSE in 2023 and anticipates adopting a management procedure in November 2023 to set the total allowable catch for 2024 and future years for the stock. NMFS, and the U.S. Government more broadly, engages in this MSE development, an important part of which involves considering stakeholder input throughout the process through various means, including consultation with the Advisory Committee to the U.S. Section to ICCAT. The United States is also participating in the development of the North Atlantic swordfish MSE through the active involvement of U.S. scientists in the scientific work carried out by ICCAT's Standing Committee on Research and Statistics (SCRS).

The August 24 meeting is intended to update U.S. stakeholders and solicit their input on the MSE approach being developed by ICCAT for North Atlantic swordfish. NMFS will provide information on the progress of the SCRS in developing initial candidate management procedures (CMPs) and testing them based on the initial input on management objectives and other relevant matters provided by ICCAT's Panel 4. CMPs illustrate tradeoffs associated with achieving identified management objectives related to stock status, stock safety, yield, and catch stability over time. CMP testing assists
