Rural Utilities Service

Title: Broadband Grant Program.

OMB Control Number: 0572–0127.

Summary of Collection: Congress has recognized the need to facilitate the deployment of broadband service to unserved rural areas. The provision to broadband transmission service is vital to the economic development, education, health, and safety of rural Americans. The Consolidated Appropriations Act, 2004 (Title III, Pub. Authorized Board employees and the industry are the primary users of the information. SUPPLEMENTARY INFORMATION:

Title: Lamb Promotion, Research, and Information Program.

OMB Number: 0581-0198.

Expiration Date of Approval: September 30, 2010.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: The current information collection is essential to carry out the intent of the Commodity Promotion, Research, and Information Act of 1996 (Act) (7 U.S.C. 7411 *et seq.*) and the Lamb Promotion, Research, and Information Order (Order) (7 CFR 1280). While the Order imposes certain recordkeeping requirements on persons subject to the Order, some information required under the Order can be compiled from records currently maintained. The forms covered under this collection require the minimum information necessary to effectively carry out the requirements of the order, and their use is necessary to fulfill the intents of the Act as expressed in the order. Information required can be supplied without data processing equipment or outside technical expertise. In addition, there are no training requirements for individuals

filling out the forms. The forms are simple, easy to understand, and place as small a burden as possible on those required to file information.

USDA requires several forms to be filed in order to enable the administration of the program. These include forms covering the selection process for industry members to serve on a board, ballots used in referenda, and assessment forms.

The timing and frequency of collecting information are intended to meet the needs of the industry while minimizing the amount of work necessary to fill out the required reports. In addition, the information included on these forms is not available from other industry sources because such information relates specifically to individuals or organizations subject to the provisions of the Act.

We estimate the paperwork and time burden of the above referenced information collection to be as follows:

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.99 hours per response.

Respondents: Producers, seedstock producers, market agencies, first handlers, feeders, and exporters.

Estimated Number of Respondents: 555.

Estimated Number of Responses per Respondent: 11.

Estimated Total Annual Burden on Respondents: 6,015.75.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information for those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Dated: July 27, 2010.
