Comment Request****AGENCY:** Department of the Air Force, Department of Defense (DoD).**ACTION:** 30-Day information collection notice.**SUMMARY:** The DoD has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.**DATES:** Consideration will be given to all comments received by July 26, 2024.**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). L. 85-726, sec. 1107) authorized government agencies to regulate public use of government-owned airfields. The military departments have made military airfields available to civil aircraft operators, primarily to conduct official government business; however, use for other purpose is also occasionally accommodated (see Air Force Instruction 10-1001, Army Regulation 95-2, and Secretary of the Navy Instruction 3770-IC). Access must be managed to ensure that security and operational integrity are maintained and that the government is not held liable if the civil aircraft becomes involved in an accident or incident while using military airfields, facilities, and

services. The collection of information is necessary to identify the aircraft operator and the aircraft to be operated; establish the purpose for use of military airfields; and protect the U.S. Government against litigation.

The respondents for this collection include any civil aircraft operator applying for landing rights on a DoD airfield. The Air Force processes three times more requests than other military branches of service, thus the Air Force is the owner of the Civil Aircraft Landing Permit System program and DD Forms 2400, 2401, and 2402. The respondents may access the collection instruments via the DoD Forms website or by contacting the base of interest to obtain info on how to request forms for landing approval. Respondents must complete DD Form 2401 to identify themselves, indicate where they want to operate, state their purpose for use, and list their aircraft. DD Form 2402 is used to ensure that the respondent agrees to hold the government harmless and notify their insurance company to complete the DD Form 2400 to show evidence of third-party liability insurance coverage. The forms are provided at no cost to the individual or company, and when use is for official government business, there is no charge for use of the airfield. The military departments also use the information to advise installation commanders of approved users, aircraft registration numbers, and purpose for use.
