

determine tobacco-use status after program participation. This will require the Quitline personnel to obtain basic contact information on participants to allow for follow-up.

There will be no limit on the number of times an eligible beneficiary will be allowed to participate in the program if they fail to stop using tobacco products or obtain a prescription for appropriate tobacco cessation pharmacotherapy during the demonstration period.

Weight Management

Location: The Weight Management Demonstration will include Prime enrollees residing in Indiana, Illinois, Michigan and Ohio. These states have been selected in part on the basis of high prevalence of obesity and overweight in these areas, according to the CDC. The Demonstration participants will be TRICARE eligible beneficiaries enrolled in TRICARE Prime, TRICARE Prime Remote (TPR), or TPR for Active Duty Family Members (TPR-ADFM), are between 18–64 years of age, who are not entitled to Medicare on the basis of age, disability, or end-stage renal-disease, and reside in the identified zip code areas of the demonstration. Beneficiaries enrolled in other special programs (for example, ECHO) available through TRICARE are not eligible for enrollment in this demonstration. Eligible beneficiaries in the four state demonstration areas will receive a letter from the Weight Management Demonstration service provider explaining program elements, participation criteria, and how to enroll in the demonstration.

Scope: The scope of services available through the program will include: (1) Telephone and web-based counseling for weight management, and (2) prescription pharmacotherapy and physician visits with normal cost-shares. The physician visits are to evaluate the patient to insure patients who may be at cardiovascular risk or metabolic risk approve patient's participation in diet and exercise changes. Physician visits may also be used to manage medication in event titration is needed, or there are side effects.

To access pharmacotherapy, Prime enrolled beneficiaries must see a provider, have a Body Mass Index ≥ 30 or ≥ 27 with other risk factors or diseases, and obtain a prescription for appropriate weight loss pharmacotherapy. Pharmacotherapy will be made available through TMOP only. Uniform formulary TMOP cost-shares will apply.
