Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled "Formative Research to Develop HIV Social Marketing Campaigns for Healthcare Providers" to the Office of Management and budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on March 8, 2021 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

- (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- (c) Enhance the quality, utility, and clarity of the information to be collected;
- (d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and
- (e) Assess information collection

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/ do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review-Open for Public Comments" or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Formative Research to Develop HIV Social Marketing Campaigns for Healthcare Providers (OMB Control No. 0920–1182)—Reinstatement without Change—National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

To address the HIV epidemic in the U.S., the Department of Health and Human Services launched Ending the HIV Epidemic: A Plan for America, which is a cross-agency initiative aiming to reduce new HIV infections in the U.S. by 90% by 2030. CDC's Let's Stop HIV Together campaign (formerly

known as Act Against AIDS) is part of the national Ending the HIV Epidemic initiative and includes resources aimed at reducing HIV stigma and promoting testing, prevention, and treatment across the HIV care continuum.

Within this context, CDC's Division of HIV/AIDS Prevention (DHAP) has, and will continue implementing various communication initiatives to increase healthcare providers' awareness of HIV testing-, prevention- and treatmentrelated topics; reduce new HIV infections among disproportionately impacted populations; and improve health outcomes for people living with HIV/AIDS in the US and its territories. Specifically, the initiatives target healthcare providers, including primary care, and relevant specialties such as HIV medicine and infectious disease, physicians, physician assistants, and nurses.

The rounds of data collection include exploratory, message testing, concept testing, and materials testing. Information collected by DHAP will be used to assess healthcare providers' informational needs about topics related to HIV testing, prevention, and treatment; pre-test campaign-related messages, concepts, and materials; and evaluate the extent to which the communication initiatives are reaching the target audiences and providing them with trusted HIV-related information. Data collections will include in-depth interviews and brief surveys. The data gathered under this request will be summarized in reports prepared for CDC by its contractor, such as quarterly and annual reports and topline reports that summarize results from each data collection. It is possible that data from this project will be published in peerreviewed manuscripts or presented at conferences, and the manuscripts and conference presentations may appear on the internet.

The total estimated annualized burden hours are 902. Participation of respondents is voluntary, and there is no cost to participants other than their time.

ESTIMATED ANNUALIZED B	SURDEN HOURS
------------------------	--------------

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Health care providers	Study screener	1,138	1	10/60

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-21-0600; Docket No. CDC-2021-0087]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled CDC Model Performance Evaluation Program (MPEP) for Mycobacterium tuberculosis Susceptibility Testing information collection. CDC is requesting a threeyear approval for revision to the previously approved project used to monitor and evaluate performances and practices among national laboratories for M. tuberculosis susceptibility testing.

DATES: CDC must receive written comments on or before October 26, 2021.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2021-0087 by any of the following methods:

- Federal eRulemaking Portal: Regulations.gov. Follow the instructions for submitting comments.
- Mail: Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS–D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to Regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS—D74, Atlanta, Georgia 30329; phone: 404–639–7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the Federal Register concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the

collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

- 1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- 2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- 3. Enhance the quality, utility, and clarity of the information to be collected:
- 4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
 - 5. Assess information collection costs.

Proposed Project

CDC Model Performance Evaluation Program (MPEP) for *Mycobacterium* tuberculosis Susceptibility testing (OMB Control No. 0920–0600, Exp. 2/20/ 2022)—Revision—National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention (CDC) is requesting a revision to approved information collection from participants in the CDC Model Performance for *Mycobacterium tuberculosis* Drug Susceptibility Testing Program for a period of three years. Revision of this information will not
