Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

Form Number: FCC Form 337.

Estimated Time per Response: 0.25 to 3 hours.

Frequency of Response: On occasion reporting requirement; Recordkeeping requirement.

Total Annual Burden: 263 hours.

Total Annual Cost: \$37,000.

Needs and Uses: Congress has mandated that after February 17, 2009, full-power television broadcast stations must transmit only in digital signals, and may no longer transmit analog signals. On December 22, 2007, the Commission adopted a Report and Order in the matter of the Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television, MB Docket No. 07-91, FCC 07-228, to establish the rules, policies and procedures necessary to complete the nation's transition to Digital TV (DTV). With the DTV transition deadline less than 14 months away, the Commission must ensure that broadcasters meet their statutory responsibilities and complete construction of, and begin operations on, the facility on their final, post-transition (digital) channel that will reach viewers in their authorized service areas by the statutory transition deadline, when they must cease broadcasting in analog. The Commission wants to ensure that no consumers are left behind in the DTV transition.

Specifically, the Report and Order requires the following:

- *Extension Requests.* Stations with a construction deadline on or before February 17, 2009 may file a request for an extension of time to construct their final, post-transition (DTV) facility using FCC Form 337.
- *Revisions to FCC Form 337.* FCC Form 337 was revised to reflect the stricter standard of review.
- *Tolling Requests.* Stations with a construction deadline occurring

February 18, 2009 or later may file a notification of an event that would toll their deadline to construct their final, post-transition (DTV) facility using FCC Informal Application Form.

Federal Communications Commission.

Secretary.
