

contributors to MU risk. Due to computational challenges, MU Level 2 and Level 3 analyses were limited to two MUIEs: weather-related losses of offsite power and a large seismic event. The study found that MU consequences for these MUIEs were small compared to the single-unit results. For the final ISR step, a single illustrative scenario was identified that involved potential sitewide dependencies between the

reactors and the spent fuel pools and was risk-significant to both the spent fuel pools and the reactors: a large seismic event. Risk results for the illustrative ISR scenario are reported for several consequence metrics, including individual latent cancer fatality risk, collective total effective dose risk, and economic cost. Regardless of the consequence metric, the risk estimated for the illustrative ISR scenario was

calculated to be low as compared to the MU and single-source (*i.e.*, single-unit reactor or SFP) results.

FOR FURTHER INFORMATION CONTACT: David Simonetti (simonetti.david@pbgc.gov; 202-229-4362), Attorney, Office of the General Counsel, Pension Benefit Guaranty Corporation, 445 12th Street SW, Washington, DC 20024-2101. If you are deaf or hard of hearing, or have a speech disability, please dial 7-1-1 to access telecommunications relay services.

SUPPLEMENTARY INFORMATION: Annual reporting to the Internal Revenue Service (IRS), the Employee Benefits Security Administration (EBSA), and the Pension Benefit Guaranty

Corporation (PBGC) is required by law for most employee benefit plans. For example, section 4065 of the Employee Retirement Income Security Act of 1974 (ERISA) requires annual reporting to PBGC for pension plans covered by title IV of ERISA. To accommodate these filing requirements, IRS, EBSA, and PBGC have jointly promulgated the Form 5500 Series, which includes the Form 5500 Annual Return/Report of Employee Benefit Plan and the Form 5500-SF Short Form Annual Return/Report of Small Employee Benefit Plan.

The collection of information has been approved by OMB under control number 1212-0057 through March 31, 2026. PBGC intends to request that OMB extend its approval, without modifications, for 3 years. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that it will receive approximately 25,000 Form 5500 and Form 5500-SF filings per year under this collection of information for the 2025 Form 5500 Series. PBGC further estimates that the total annual burden of this collection of information for the Form 5500 Series, attributable to PBGC, will be 15,089 hours and that there will be no cost burden.

PBGC is soliciting public comments to—

- evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;

- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g. permitting electronic submission of responses).

Issued in Washington, DC.

Assistant General Counsel, Pension Benefit Guaranty Corporation.

SUPPLEMENTARY INFORMATION: The Pension Benefit Guaranty Corporation (PBGC) intends to request that the Office of Management and Budget (OMB) extend approval under the Paperwork Reduction Act, of a collection of information under title IV of the Employee Retirement Income Security Act of 1974 (ERISA) and PBGC's premium regulations (29 CFR parts 4006 and 4007). (OMB control number 1212-0064, expires March 31, 2026). This notice informs the public of PBGC's intent and solicits public comment on the collection of information.

PBGC administers the pension plan termination insurance program under title IV of ERISA. Section 4006(a)(7) of ERISA provides for a "termination premium" (in addition to the flat-rate and variable-rate premiums under sections 4006(a)(3) and (8)) that is payable for 3 years following certain distress and involuntary plan terminations. PBGC's regulations on Premium Rates (29 CFR part 4006) and Payment of Premiums (29 CFR part 4007) implement the termination premium. Sections 4007.3 and 4007.13(b) of the premium payment regulation require the filing of termination premium information and payments with PBGC.

In general, the termination premium applies where a single-employer plan terminates in a distress termination under section 4041(c) of ERISA (unless contributing sponsors and controlled group members meet the bankruptcy liquidation requirements of section 4041(c)(2)(B)(i)) or in an involuntary termination under section 4042 of ERISA, and the termination date under section 4048 of ERISA is after 2005.

The termination premium is payable for 3 years and the same amount is payable each year. The termination premium is due on the 30th day of each of 3 consecutive 12-month periods. The first 12-month period generally begins shortly after the termination date or after the conclusion of bankruptcy proceedings in certain cases. The termination premium and related information must be filed by a person liable for the termination premium. The persons liable for the termination premium are contributing sponsors and members of their controlled groups, determined on the day before the plan termination date. Section 4007.10 of PBGC's Payment of Premiums regulation requires the retention of records supporting or validating the computation of premiums paid and requires that the records be made available to PBGC.

PBGC uses Form T and its corresponding instructions for paying the termination premium. The existing Form T and its corresponding instructions has been approved through March 31, 2026, under OMB control number 1212-0064. PBGC intends to request that OMB extend its approval of this collection of information for 3 years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that, during the next 3 years, it will receive an average of 1 Form T filing per year. PBGC estimates that the total annual burden for the collection of information will be 5 minutes and \$67.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;
