

ADDRESSES: To obtain a copy of the solicitation once it is issued, interested parties must access the DOE Golden Field Office Home Page at <http://www.golden.doe.gov/businessopportunities.html>, click on "Solicitations." And then locate the solicitation number identified above. DOE does not intend to issue written copies of the solicitation.

FOR FURTHER INFORMATION CONTACT: Matthew Barron, Contracting Officer, DOE Golden Field Office, 1617 Cole Boulevard, Golden, CO 80401-3393 or facsimile to (303) 275-4788, or electronically to matt_barron@nrel.gov. Responses to questions will be made by Amendment and posted on the DOE Golden Field Office Home Page.

SUPPLEMENTARY INFORMATION: The objective of this solicitation is to award cooperative agreements to State Energy Offices that will support deploying projects under the following DOE energy technology initiatives (this list of EERE programs is not all inclusive): (1) Wind Energy; (2) Geothermal Energy; (3) Biomass Energy; (4) Distributed Energy Resources (DER); (5) Solar Energy; (6) Community Energy Partnerships; (7) Federal Energy Management; (8) Residential Energy Savings Program; (9) Alternative Transportation Fuels Program; (10) Industrial Energy Program.

Proposals will be subject to the objective merit review procedures for the Office of Energy Efficiency and Renewable Energy. Eligibility for this assistance is restricted to Governor-designated State Energy Offices. For individual projects subsequently awarded, selected applicants may enter teaming or partnership agreements with industry, DOE national laboratories, institutions of higher education, non-profit organizations and Native American organizations.

Issued in Golden, Colorado, on May 22, 2001.

Jerry L. Zimmer,

Director, Office of Acquisition and Financial Assistance.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP01-366-000]

Columbia Gas Transmission Corporation; Notice of Filing

May 25, 2001.

Take notice that on May 16, 2001, Columbia Gas Transmission Corporation (Columbia), 12801 Fair Lakes Parkway, Fairfax, Virginia 22030-0146, filed in Docket No. CP01-366-000 an abbreviated application pursuant to Section 7 of the Natural Gas Act (NGA) and the Commission's Rules and Regulations for a certificate of public convenience and necessity authorizing Columbia to abandon by sale certain natural gas facilities, designated as the CHEWP System, located in West Virginia and Pennsylvania (facilities) and abandonment authorization for the various services provided through the facilities to be sold. Further, Columbia requests that the Commission determine the facilities be exempt from Commission jurisdiction, except in those limited cases where incidental deliveries will be made by the buyer to certain Local Distribution Companies (LDC's), all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may be viewed at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Columbia states that the facilities have been offered for sale by public auction. Additionally, Columbia states that the sale of the facilities will be conditioned on the buyer's continued service to the current customers under items acceptable to both the buyer and the customers. As a result of this condition, Columbia contends that there will be no material change to, or interruption in, the services currently

being provided through the facilities. Columbia is not proposing any construction or facility removal in connection with the proposed abandonment. Columbia states that it will require the buyer to install custody transfer meters at or near points of interconnection between Columbia's facilities to be retained and those being sold.

Columbia states that upon sale and transfer of the facilities to the buyer, the facilities will, among other things, continue to be used for incidental delivery of gas to LDC customers currently receiving service through the facilities. Under the present operating conditions, locally produced gas is received into the facilities and transported to Columbia's mainline transmission system. The facilities are also used to provide service to the LDCs, as well as mainline tap customers. At current production rates, Columbia states that the gas supply in certain parts of the system is insufficient to meet the demand, especially during periods of high demand, such as winter heating season. In order to maintain service to those customers, Columbia states that it backflows gas from its main transmission system into the facilities to satisfy any gas shortfalls. Columbia notes that it is not requesting that the Commission issue a limited jurisdiction certificate authorizing the buyer's incidental use of the facilities, but that it believes such a certificate may be required by the buyer to continue such deliveries. Therefore, Columbia is providing such information to familiarize the Commission with the operation of the facilities in anticipation that the buyer will file an application for such an order.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 15, 2001, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. Any questions regarding the application should be directed to V.J. Hamilton, Certificate Coordinator, Columbia Gas
