

§ 712.25 Cooperation by the individual.

(a) It is the responsibility of the HRP candidate or HRP certified individual to provide full, frank, and truthful answers to relevant and material questions, and when requested, furnish, or authorize others to furnish, information that DOE deems pertinent to reach a decision regarding HRP certification or recertification. This obligation to cooperate applies at any stage, including but not limited to initial certification, recertification, temporary removal, revocation, and/or hearing. The individual or candidate may elect not to cooperate; however, such refusal may prevent DOE from reaching an affirmative finding required for granting or continuing HRP certification. In this event, any HRP certification then in effect may be revoked, or, for HRP candidates, may not be granted.

(b) An HRP certified individual who receives notification of the Manager's decision to revoke his or her certification due to failure to cooperate may choose one of the following options:

(1) Take no action; or
 (2) Within 20 working days after the individual received notice of the Manager's revocation decision, submit a written request by certified mail to the Manager for reconsideration. The request must include the individual's response to the information that gave rise to the revocation decision.

(c) Upon receipt of the request for reconsideration, the Manager shall notify the individual, in writing, within 20 calendar days of receipt of the written appeal, as to whether the action to revoke certification was appropriate. If the Manager determines that the action was inappropriate, he or she shall direct that the individual be reinstated.

BILLING CODE 6450-01-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA-2016-9559; Airspace Docket No. 16-ACE-11]

Proposed Amendment of Class D and E Airspace for the Following Missouri Towns; Cape Girardeau, MO; St. Louis, MO; and Macon, MO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class D airspace at Spirit of St. Louis Airport, St. Louis, MO; Class E airspace designated as a surface area at Cape Girardeau Regional Airport, Cape Girardeau, MO, and Spirit of St. Louis Airport; Class E airspace designated as an extension at Cape Girardeau Regional Airport; and Class E airspace extending upward from 700 feet above the surface at Cape Girardeau Regional Airport, Spirit of St. Louis Airport, and Macon-Fower Memorial Airport, Macon, MO. Cancellation of standard instrument approach procedures at these airports prompted the FAA to conduct a review of the airspace. Additionally, the name of Cape Girardeau Regional Airport (formerly Cape Girardeau Municipal Airport) and the geographic coordinates of St. Louis Regional Airport, Alton/St. Louis, MO; the OBLIO Locator Outer Marker (LOM), and the Macon-Fower Memorial Airport would be adjusted to coincide with the FAA's aeronautical database. The airspace designation for Macon-Fower, MO, in Class E airspace extending upward from 700 feet above the surface would be removed as it is a duplicate entry of the Macon, MO, airspace designation.

DATES: Comments must be received on or before August 7, 2017.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone (202) 366-9826, or 1-800-647-5527. SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D airspace at Spirit of St. Louis Airport, St. Louis, MO; Class E airspace designated as a surface area at Cape Girardeau Regional Airport and Spirit of St. Louis Airport; Class E airspace designated as an extension at Cape Girardeau Regional Airport; and Class E airspace extending upward from 700 feet above the surface at Cape

Girardeau Regional Airport, Spirit of St. Louis Airport, and Macon-Fower Memorial Airport, Macon, MO.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2016-9559/Airspace Docket No. 16-ACE-11." The postcard will be date/time stamped and returned to the commenter.

An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas,

air traffic service routes, and reporting points.

The Proposal

Cancellation of standard instrument approach procedures prompted the FAA to conduct a review of the airspace at the Spirit of St. Louis Airport, Cape Girardeau Regional Airport, and Macon-Fower Memorial Airport. Controlled airspace is necessary for the safety and management of the standard instrument approach procedures for IFR operations at these airports.

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying:

Class D airspace at Cape Girardeau Regional Airport (formerly Cape Girardeau Municipal Airport) by updating the name of the airport to coincide with the FAA's aeronautical database;

Class D airspace to within a 4.4-mile radius (increased from a 4.3-mile radius) at Spirit of St. Louis Airport, St. Louis, MO, and adding an extension within 1 mile each side of the 079° bearing from the airport extending from the 4.4-mile radius to 4.6 miles east of the airport, and adjusting the extension west of the airport to within 1 mile each side of the 259° bearing (previously 258°) from the airport extending from the 4.4-mile radius to 4.6 miles west of the airport;

Class E airspace designated as a surface area at Cape Girardeau Regional Airport (formerly Cape Girardeau Municipal Airport) by adding the vertical limits from the surface to and including 2,800 feet, adding the part time language to the description, and updating the name of the airport to coincide with the FAA's aeronautical database;

Class E airspace designated as a surface area to within a 4.4-mile radius (increased from a 4.3-mile radius) at Spirit of St. Louis Airport, St. Louis, MO, adding an extension to within 1 mile each side of the 079° bearing from the airport extending from the 4.4-mile radius to 4.6 miles east of the airport, and adding an extension within 1 mile each side of the 259° bearing from the airport extending from the 4.4-mile radius to 4.6 miles west of the airport;

Class E airspace designated as an extension to Class E surface area at Cape Girardeau Regional Airport (formerly Cape Girardeau Municipal Airport), Cape Girardeau, MO, by adding an extension 1 mile each side of the 023° bearing from the airport from the 4.1-mile radius of the airport to 4.4 miles to the north of the airport, adjusting the extension to the east of the airport to within 1 mile (decreased from 2.6 miles) each side of the 108° bearing from the

Cape Girardeau Regional Localizer (previously the Cape Girardeau VOR/DME) from the 4.1-mile radius to 4.4 miles east of the airport, adjusting the extension to the south of the airport to within 2.4 miles (previously 2.6 miles) each side of the 196° (previously 194°) radial of the Cape Girardeau VOR/DME from the 4.1-mile radius of the airport extending to 7.2 miles (increased from 5.7 miles), adjusting the extension west of the airport to within 1 mile (decreased from 2.6 miles) each side of the 287° (previously 279°) radial from the Cape Girardeau VOR/DME from the 4.1-mile radius to 4.4 miles (decreased from 7.4 miles) west of the airport, and updating the name of the airport to coincide with the FAA's aeronautical database;

Class E airspace areas extending upward from 700 feet above the surface;

At Cape Girardeau Regional Airport, Cape Girardeau, MO, by adding an extension to the north of the airport within 2 miles each side of the 203° bearing from the airport from the 6.6-mile radius of the airport to 7.3 miles, adjusting the extension to the east to within 3.8 miles (increased from 2.5 miles) each side of the 108° bearing from the Cape Girardeau Localizer (previously from the Cape Girardeau VOR/DME) extending from the 6.6-mile radius to 14 miles (increased from 8.7 miles), adjusting the extension to the south of the airport to within 2.4 miles (reduced from 3 miles) each side of the 196° radial (previously 194°) from the Cape Girardeau VOR/DME from the 6.6-mile radius to 7.2 miles (decreased from 10 miles) south of the airport, adding an extension within 1.9 miles each side of the 023° bearing from the airport from the 6.6-mile radius of the airport to 7.5 miles south of the airport, adjusting the extension to the west of the airport to within 2 miles (decreased from 3 miles) each side of the 280° (previously 279°) bearing from the airport (previously the Cape Girardeau VOR/DME) extending from the 6.6-mile radius to 7.4 miles (decreased from 8.7 miles) west of the airport, and updating the name of the airport to coincide with the FAA's aeronautical database;

Within a 6.9-mile radius (increased from a 6.8-mile radius) of the Spirit of St. Louis Airport, St. Louis, MO, adding an extension 4.2 miles north and 6.4 miles south of the 259° bearing from the Spirit of St. Louis Localizer extending from the 6.6-mile radius of the airport to 11.3 miles east of the Spirit of St. Louis Localizer, adding an extension within 2.5 miles each side of the 079° bearing from the airport from the 6.9-mile radius to 8.1 miles east of the airport, adjusting the extension to the

west of the airport to within 3.9 miles each side of the 259° (from 258°) bearing from the airport extending from the 6.9 mile radius to 10.6 miles west of the airport, removing an extension west of the airport referencing the Foristell VORTAC, removing the Foristell VORTAC from the description, and updating the geographic coordinates for St. Louis Regional Airport, Alton/St. Louis, MO, and the OBLIO LOM to coincide with the FAA's aeronautical database;

And within a 6.7-mile radius (increased from a 6.5-mile radius) of Macon-Fower Memorial Airport, Macon, MO, and updating the geographic coordinates of the airport to coincide with the FAA's aeronautical database. The duplicate airspace designation listed as Macon-Fower, MO, in FAA Order 7400.11A, would be removed.

This action also would make an editorial change in the airspace description for Class D, Class E surface area, and Class E extension airspace, replacing Airport/Facility Directory with the current term Chart Supplement.

Class D and E airspace designations are published in paragraph 5000, 6002, 6004, and 6005, respectively, of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance

with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
