

DEPARTMENT OF COMMERCE**International Trade Administration****[A-475-822]****Final Results of Antidumping Administrative Review: Stainless Steel Plate in Coils From Italy**

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of Final Results in the Antidumping Duty Administrative Review of Stainless Steel Plate in Coils from Italy.

SUMMARY: In response to a request from ThyssenKrupp Acciai Speciali Terni S.p.A ("TKAST") and ThyssenKrupp AST USA, Inc. ("TKASTUSA"), the U.S. Department of Commerce ("Department") is conducting an administrative review of the antidumping duty order on stainless steel plate in coils ("SSPC") from Italy for the period May 1, 2000 through April 30, 2001.

We received no comments on the preliminary results, and we have made no changes in our analysis. Therefore, the final results do not differ from the preliminary results. The final weighted-average dumping margin for the reviewed firm is listed below in the section entitled "Final Results of the Review."

EFFECTIVE DATE: October 15, 2002.

FOR FURTHER INFORMATION CONTACT: Stephen Bailey or Robert Bolling, Enforcement Group III, Import Administration, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC 20230; telephone: 202-482-1102, or 202-482-3434, respectively.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations codified at 19 CFR Part 351 (2001).

Background

On June 10, 2002, the Department published in the **Federal Register** (67 FR 39677) the preliminary results of its administrative review of the antidumping duty order on stainless steel plate in coils from Italy

("Preliminary Results"). We invited parties to comment on our preliminary results of review. No party submitted comments on our preliminary results. We have now completed the administrative review in accordance with section 751(a) of the Act.

Scope of Review

For purposes of this administrative review, the product covered is certain stainless steel plate in coils. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject plate products are flat-rolled products, 254 mm or over in width and 4.75 mm or more in thickness, in coils, and annealed or otherwise heat treated and pickled or otherwise descaled. The subject plate may also be further processed (e.g., cold-rolled, polished, etc.) provided that it maintains the specified dimensions of plate following such processing. Excluded from the scope of this petition are the following: (1) Plate not in coils, (2) plate that is not annealed or otherwise heat treated and pickled or otherwise descaled, (3) sheet and strip, and (4) flat bars. In addition, certain cold-rolled stainless steel plate in coils is also excluded from the scope of these orders. The excluded cold-rolled stainless steel plate in coils is defined as that merchandise which meets the physical characteristics described above that has undergone a cold-reduction process that reduced the thickness of the steel by 25 percent or more, and has been annealed and pickled after this cold reduction process.

The merchandise subject to this review is currently classifiable in the Harmonized Tariff Schedule of the United States (HTS) at subheadings: 7219110030, 7219110060, 7219120005, 7219120020, 7219120025, 7219120050, 7219120055, 7219120065, 7219120070, 7219120080, 7219310010, 7219900010, 7219900020, 7219900025, 7219900060, 7219900080, 7220110000, 7220201010, 7220201015, 7220201060, 7220201080, 7220206005, 7220206010, 7220206015, 7220206060, 7220206080, 7220900010, 7220900015, 7220900060, and 7220900080. Although the HTS subheadings are provided for convenience and Customs purposes, the written description of the merchandise under investigation is dispositive.

Analysis of Comments Received

Because no interested party submitted comments, the Department hereby adopts all findings from the *Preliminary Results* in these final results.

Final Results of Review

We determine that the following percentage margin exists for the period May 1, 2000, through April 30, 2001:

Producer/Manufacturer/Exporter	Weighted-Average Margin (percent)
TKAST	0.00

The Department shall determine, and Customs shall assess, antidumping duties on all appropriate entries. The Department will issue appraisal instructions directly to the Customs Service. In accordance with 19 CFR 351.212(b), we have calculated exporter/importer-specific assessment rates. We divided the total dumping margins for the reviewed sales by the entered quantity of those reviewed sales for TKAST. We will direct the Customs Service to assess the resulting percentage margins against the entered Customs values for the subject merchandise on each of that importer's entries under the relevant order during the review period (see 19 CFR 351.212(b)(1)).

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of this notice of final results of administrative review for all shipments of stainless steel plate in coils from Italy entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate for TKAST will be the rate shown above; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in these or any previous reviews conducted by the Department, the cash deposit rate will be the "all others" rate, which is 48.80 percent.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

Notification of Interested Parties

This notice also serves as a final reminder to importers of their

responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders ("APOs") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: October 3, 2002.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Stainless Steel Wire Rod From Italy: Notice of Final Results of Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Stainless Steel Wire Rod from Italy: notice of final results of countervailing duty administrative review.

SUMMARY: On June 7, 2002, the Department of Commerce (the Department) published in the **Federal Register** its preliminary results of administrative review of the countervailing duty order on stainless steel wire rod from Italy for the period January 1, 2000, through December 31, 2000.

Upon review of the comments received, the Final Results remain

unchanged from the Preliminary Results. For information on the subsidy rate for the reviewed company, see the "Final Results of Review" section of this notice.

EFFECTIVE DATE: October 15, 2002.

FOR FURTHER INFORMATION CONTACT:

Carrie Farley at (202) 482-0395 or Eric B. Greynolds at (202) 482-6071, Office of AD/CVD Enforcement VI, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, Room 4012, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations codified at 19 CFR part 351 (2001).

Background

On June 7, 2002, the Department published the preliminary results of the administrative review of the countervailing duty order on stainless steel wire rod from Italy. *See Stainless Steel Wire Rod from Italy*, 67 FR 39357 (June 7, 2002) (*Preliminary Results*). This review covers one manufacturer/exporter, Acciaierie Valbruna S.p.A. This review covers the period January 1, 2000, through December 31, 2000 and 17 programs.

Scope of Review

For purposes of this administrative review, certain stainless steel wire rod (SSWR or subject merchandise) comprises products that are hot-rolled or hot-rolled annealed and/or pickled and/or descaled rounds, squares, octagons, hexagons or other shapes, in coils, that may also be coated with a lubricant containing copper, lime or oxalate. SSWR is made of alloy steels containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. These products are manufactured only by hot-rolling or hot-rolling, annealing, and/or pickling and/or descaling, and are normally sold in coiled form, and are of solid cross-section. The majority of SSWR sold in the United States is round in cross-sectional shape, annealed and pickled, and later cold-finished into stainless steel wire or small-diameter bar. The

most common size for such products is 5.5 millimeters or 0.217 inches in diameter, which represents the smallest size that normally is produced on a rolling mill and is the size that most wire drawing machines are set up to draw. The range of SSWR sizes normally sold in the United States is between 0.20 inches and 1.312 inches in diameter. Two stainless steel grades SF20T and K-M35FL are excluded from the scope of the investigation. The percentages of chemical makeup for the excluded grades are as follows:

SF20T:

Carbon	0.05 max
Manganese	2.00 max
Phosphorous	0.05 max
Sulfur	0.15 max
Silicon	1.00 max
Chromium	19.00/21.00
Molybdenum	1.50/2.50
Lead	added (0.10/0.30)
Tellurium	added (0.03 min)

K-M35FL:

Carbon	0.015 max
Manganese	0.40 max
Phosphorous	0.04 max
Sulfur	0.03 max
Silicon	0.70/1.00
Chromium	12.50/14.00
Nickel	0.30 max
Lead	added (0.10/0.30)
Aluminum	0.20/0.35

The products covered by this administrative review are currently classifiable under subheadings 7221.00.0005, 7221.00.0015, 7221.00.0030, 7221.00.0045, and 7221.00.0075 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and Customs purposes, the written description of the scope of this review is dispositive.

Analysis of Comments Received

All issues raised in the case briefs by parties to this administrative review are addressed in the Issues and Decision Memorandum (*Decision Memorandum*), dated October 7, 2002, which is hereby adopted by this notice. A list of issues which parties have raised and to which we have responded, all of which are in the *Decision Memorandum*, is attached to this notice as Appendix I. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in room B-099 of the Main Commerce Building. In addition, a complete version of the *Decision Memorandum* can be accessed directly on the World Wide Web at <http://ia.ita.doc.gov>, under the heading "Federal Register Notices." The paper copy and electronic version of the *Decision Memorandum* are identical in content.
