BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8290-8]

Science Advisory Board Staff Office; Notification of Two Public Teleconferences and a Meeting of the Science Advisory Board Integrated Nitrogen Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) Science Advisory Board Staff Office announces two public teleconferences and a meeting of the EPA Science Advisory Board Integrated Nitrogen Committee.

DATES: The teleconference meetings will be held on Thursday, April 19, 2007, from 3 p.m. to 5 p.m. (Eastern Time) and on June 8, 2007 from 2 p.m. to 4 p.m. (Eastern Time). A face-to-face meeting will be held on June 20, 2007 from 1 p.m. to 5 p.m. (Eastern Time), continuing from 8:30 a.m. to 5 p.m. (Eastern Time) on June 21, and from 8:30 a.m. to 3 p.m. on June 22.

ADDRESSES: The teleconferences will be conducted by phone only. The June 20-22, 2007 face-to-face meeting will be held at the SAB Conference Center, located at 1025 F Street, NW., Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wishes to obtain the call-in number and access code for the teleconferences; attend the face-to-face meeting; or receive further information concerning the teleconferences and meeting may contact Ms. Kathleen White, Designated Federal Officer (DFO). Ms. White may be contacted at the EPA Science

Advisory Board (1400F), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; or via telephone/voice mail: (202) 343-9878; fax: (202) 233-0643; or e-mail at: white.kathleen@epa.gov. General information concerning the EPA SAB can be found on the EPA Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The SAB Integrated Nitrogen Committee is conducting an evaluative study on the need for integrated research and control management strategies. To begin its work, the Committee held a public meeting on January 30-31, 2007, to develop a work plan for the study. Background information on that meeting was provided in a **Federal Register** notice (72 FR 1989, January 17, 2007). On the April 19, 2007 call the Committee will discuss information needs on sources, transport, fate, effects, impacts and metrics relating to reactive nitrogen in the environment; and discuss options for meeting those needs through the literature, committee work, and invited speakers for the face-to-face meeting. On the June 8, 2007 call, members of the Committee will present the information they have developed, make recommendations for refining the agenda, and conduct other Committee business. At the June 20-22, 2007 face-to-face meeting the Committee will complete information gathering for the first phase of its work, relating to sources, transport, fate, effects, impacts and metrics relating to reactive nitrogen in the environment and make appropriate related writing assignments for its report. The Committee will also begin the second phase of its work addressing the relationship of nitrogen to ecosystem scale through case studies. The Committee may undertake other Committee business as needed and time allows.

Availability of Meeting Materials: The draft agenda, and other materials for this teleconference will be posted on the SAB Web site at http://epa.gov/sab/panels/ad_hoc_inr_committee.htm prior to the meeting.

Procedures for Providing Public Input: Interested members of the public may submit relevant written or oral information for the Integrated Nitrogen Committee to consider during the course of their study. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a public teleconference will be limited to three minutes per speaker, with no more than a total of 30 minutes for all speakers. Interested parties should

contact Ms. White, DFO, in writing (preferably via e-mail), by April 12, 2007, for the April 19 teleconference, by June 1 for the June 8 teleconference, and by June 13 for the June 20-22 meeting, at the contact information noted above, to be placed on the list of public speakers for this meeting. **Written Statements:** Written statements should be received in the SAB Staff Office by the same dates. Written statements should be supplied to the DFO in the following formats: one hard copy with original signature, and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

Accessibility: For information on access or services for individuals with disabilities, please contact Ms. White at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: March 16, 2007.

Anthony F. Maciorowski,

Deputy Director, EPA Science Advisory Board Staff Office.

BILLING CODE 6560-50-P

FEDERAL RESERVE SYSTEM

Agency information collection activities: Announcement of Board approval under delegated authority and submission to OMB

AGENCY: Board of Governors of the Federal Reserve System.

SUMMARY: Background.

Notice is hereby given of the final approval of proposed information collection by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.16 (OMB Regulations on Controlling Paperwork Burdens on the Public). Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the Paperwork Reduction Act Submission, supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

FOR FURTHER INFORMATION CONTACT:

Federal Reserve Board Clearance Officer—Michelle Shore—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202–452–3829).

OMB Desk Officer—Mark Menchik—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503, or e-mail to mmenchik@omb.eop.gov.

Final approval under OMB delegated authority of the extension for three years, with revision, of the following reports

1. *Report title:* Weekly Report of Assets and Liabilities for Large Banks and Weekly Report of Selected Assets
Agency form number: FR 2416 and FR 2644

OMB Control number: 7100–0075

Frequency: Weekly

Reporters: U.S.—chartered commercial banks

Annual reporting hours: FR 2416, 22,386 hours; FR 2644, 80,652 hours

Estimated average hours per response: FR 2416, 8.61 hours; FR 2644, 1.41 hours

Number of respondents: FR 2416, 50; FR 2644, 1,100

General description of report: These information collections are voluntary [12 U.S.C. § 225(a) and 248(a)(2)]. Individual respondent data are regarded as confidential under the Freedom of Information Act [5 U.S.C. § 552(b)(4)].

Abstract: The FR 2416, FR 2644, and the Weekly Report of Assets and Liabilities for Large U.S. Branches and Agencies of Foreign Banks (FR 2069; OMB No. 7100–0030) are referred to collectively as the bank credit reports. The FR 2416 is a detailed balance sheet that covers domestic offices of large U.S.—chartered commercial banks. The FR 2644 collects less-detailed information on investments, loans, total assets, and several memoranda items, covering domestic offices of small U.S.—chartered commercial banks. The bank credit reports are collected as of each Wednesday.

These three voluntary reports are mainstays of the Federal Reserve's reporting system from which data for analysis of current banking developments are derived. The FR 2416 is used on a stand-alone basis as the large domestic bank series. The FR 2644 collects sample data, which are used to estimate universe levels using data from the quarterly commercial bank Consolidated Reports of Condition and Income (FFIEC 031 and 041; OMB No. 7100–0036) (Call Report). Data from the bank credit reports, together with data

from other sources, are used for constructing weekly estimates of bank credit, of sources and uses of bank funds, and of a balance sheet for the banking system as a whole.

The Federal Reserve publishes the data in aggregate form in the weekly H.8 statistical release, *Assets and Liabilities of Commercial Banks in the United States*, which is followed closely by other government agencies, the banking industry, the financial press, and other users. This release provides a balance sheet for the banking industry as a whole and data disaggregated by its large domestic, small domestic, and foreign-related components.

Current Actions: On January 11, 2007, the Federal Reserve published a notice in the Federal Register (72 FR 1325) requesting public comment for 60 days on the extension, with revision, of the FR 2416 and FR 2069. The comment period for this notice expired on March 12, 2007. The Federal Reserve received one supportive comment letter from a federal agency describing its use of the data to prepare monthly, quarterly, and annual estimates of personal interest payments, a component of personal outlays in the national income and product accounts.

2. *Report title:* Weekly Report of Assets and Liabilities for Large U.S. Branches and Agencies of Foreign Banks
Agency form number: FR 2069

OMB Control number: 7100–0030

Frequency: Weekly

Reporters: U.S. branches and agencies of foreign banks

Annual reporting hours: 14,560 hours

Estimated average hours per response: 4.00 hours

Number of respondents: 70

General description of report: This information collection is voluntary [12 U.S.C. §§ 248(a)(2) and 3105(a)(2)]. Individual respondent data are regarded as confidential under the Freedom of Information Act [5 U.S.C. § 552(b)(4)].

Abstract: The FR 2069 is a detailed balance sheet that covers large U.S. branches and agencies of foreign banks. This report, along with the FR 2416 and FR 2644, is collected as of each Wednesday.

These three voluntary reports are mainstays of the Federal Reserve's reporting system from which data for analysis of current banking developments are derived. The FR 2069 collects sample data, which are used to estimate universe levels using data from the quarterly Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks (FFIEC 002; OMB No. 7100–0032). Data from the bank credit reports, together with data from other sources, are used for

constructing weekly estimates of bank credit, of sources and uses of bank funds, and of a balance sheet for the banking system as a whole.

The Federal Reserve publishes the data in aggregate form in the weekly H.8 statistical release, *Assets and Liabilities of Commercial Banks in the United States*, which is followed closely by other government agencies, the banking industry, the financial press, and other users. This release provides a balance sheet for the banking industry as a whole and data disaggregated by its large domestic, small domestic, and foreign-related components.

Current Actions: On January 11, 2007, the Federal Reserve published a notice in the Federal Register (72 FR 1325) requesting public comment for 60 days on the extension, with revision, of the FR 2069. The comment period for this notice expired on March 12, 2007. The Federal Reserve did not receive any comments.

3. *Report titles:* Report of Changes in Organizational Structure, Annual Report of Bank Holding Companies

Agency form numbers: FR Y–10 and FR Y–6

OMB Control numbers: 7100–0297

Effective Dates: FR Y–6, December 31, 2007; FR Y–10, April 30, 2008

Frequency: Event-generated, annual

Reporters: Bank holding companies (BHCs), foreign banking organizations (FBOs), member banks, Edge and agreement corporations

Annual reporting hours: FR Y–10, 16,608 hours; FR Y–6, 27,069 hours

Estimated average hours per response: FR Y–10, 1.00 hour; FR Y–6, 5.25 hours;

Number of respondents: FR Y–10, 2,768; FR Y–6, 5,156

General description of report: These information collections are mandatory under the Federal Reserve Act, the BHC Act, and the International Banking Act (12 U.S.C. 248 (a)(1), 321, 601, 602, 611a, 615, 1843(k), 1844(c), and 3106, and Regulations K and Y (12 CFR 211.13(c), 225.5(b), and 225.87).

Individual respondent data are not considered confidential. However, respondents may request confidential treatment for any information that they believe is subject to an exemption from disclosure under the FOIA, 5 U.S.C. § 552(b).

Abstract: The FR Y–10 is an event-generated information collection submitted by top-tier domestic BHCs, including financial holding companies (FHCs), and state member banks unaffiliated with a BHC, to capture changes in their regulated investments and activities. The Federal Reserve uses the data to monitor structure information on subsidiaries and

regulated investments of these entities engaged in banking and nonbanking activities.

The FR Y-6 is an annual information collection submitted by top-tier BHCs and nonqualifying FBOs. It collects financial data, an organization chart, and information about shareholders. The Federal Reserve uses the data to monitor holding company operations and determine holding company compliance with the provisions of the BHC Act and Regulation Y (12 CFR 225).

Current Actions: On September 13, 2006, the Federal Reserve published a notice in the Federal Register (71 FR 54075) requesting public comment for 60 days on the extension, with revision, of the Structure Reports.¹ The comment period for this notice expired on November 13, 2006. The Board received comment letters from four large BHCs and three industry trade associations. Most of these comments were addressed in a final Federal Register notice dated December 28, 2006 (71 FR 78207). In this notice, the Federal Reserve stated that it was continuing to evaluate several substantive comments on the collection of domestic branch data and would address these comments in a separate Federal Register notice in 2007. Below is a summary of the original proposal, a summary of the comments received, and the modifications to the original proposal.

Original Proposal

FR Y-6 Organization Chart

The Federal Reserve proposed to add to the organization chart an annual requirement for institutions to verify a list of domestic branches that the Federal Reserve has on file for the institution. The list of domestic branches would include those of depository institutions and Edge and agreement corporations held directly or indirectly by the respondent.

The Federal Reserve would provide institutions with a hardcopy of their data and, in response to industry feedback, a means for institutions to download their data in a spreadsheet format. The institutions would be required to return to the Federal Reserve an annotated document incorporating any changes or corrections to the data. The effective date for this proposed

change would have been December 31, 2006.

FR Y-10 Domestic Branch Schedule

The Federal Reserve proposed to add a schedule to collect data on domestic branches and offices of depository institutions, held directly or indirectly, and domestic branches of Edge and agreement corporations. Data regarding branch openings, acquisitions, sales, closings or relocations would be collected on an event-generated basis, parallel to the other schedules on the FR Y-10, within thirty calendar days following the event. Institutions would be permitted to combine multiple transactions occurring within a 30-day period into a single monthly filing. The effective date for this proposed change would have been June 30, 2007.

Data would be submitted for the following branches and offices:

1. Full service (brick and mortar, retail) – traditional offices.
2. Electronic banking – offices where Internet and other similar deposits are booked.
3. Limited service (military, drive-through, mobile or seasonal, and retail) – limited, but often take or include deposits.
4. Loan production offices (LPOs) and consumer credit – limited, normally nondeposit, but extend credit.
5. Trust – limited and nondeposit
6. Administrative (administrative, contractual, messenger) – all other limited and nondeposit

Summary of Comments

Several commenters indicated that adding a schedule to the FR Y-10 to collect data on domestic branches would be overly burdensome and may be duplicative of other information collected by the Federal Reserve or other regulators. As explained in the initial proposal, the current process for gathering domestic branch structure data is inadequate. Branch data for domestic state member banks are communicated to the Federal Reserve primarily through the application process. Information for all other domestic bank branches (branches of national and nonmember banks) is obtained by searching Federal Deposit Insurance Corporation (FDIC) and Office of the Comptroller of the Currency (OCC) bulletins. The results of this process are data that are not consistent and are often stale. The timing and extent of notifications to various bank regulators do not allow for consistent maintenance of the data. For example, branch openings and closings are reported with different lags and through different channels. Also, domestic bank branch data are submitted to the FDIC

on the Summary of Deposits (OMB No. 3064-0061) as of June 30 each year.² However, the volume of branch structure changes is large. As a result, the relevancy of the annual data substantially diminishes over time. The Federal Reserve needs a formal information collection to ensure that these data are consistent, complete, and current.

One commenter questioned the usefulness of the data, since only institutions regulated by the Federal Reserve would be required to submit the data. This commenter noted that the data would be incomplete for analyzing the competitive effects of proposed bank mergers and acquisitions in specific markets. As described in the original proposal, 95 percent of all domestic banking branches and 82 percent of all banking and thrift branches would be covered by this information collection. Information for the remaining small percentage of branches would continue to be collected using the current process for gathering domestic branch structure data discussed above. Although the information for these branches will not be as reliable as that obtained from the FR Y-10 respondents, the overall quality of the branch data will be dramatically improved by this framework.

Several commenters asked the Federal Reserve to coordinate with the other agencies to collect consistent structure data. The Federal Reserve acknowledges that coordination with other agencies could achieve organizational and technical efficiencies for both banking organizations and the regulatory community. The Federal Reserve has been in contact with the other agencies during the development of this proposal. Discussions among the regulatory agencies regarding possible gains from coordination, as well as changes and enhancements to the technological platforms used for the collection are ongoing.

Two commenters requested amending the information collection to allow respondents to provide their complete list of branches monthly on a separate report rather than providing changes on an event-generated basis on the FR Y-10. The Federal Reserve believes that the data would be more accurately and efficiently collected if banking organizations submit changes directly to the Federal Reserve, rather than requiring Federal Reserve staff to discern changes by comparing monthly filings. Furthermore, relative to existing

¹ The Structure Reports included in the initial notice were the Report of Changes in Organizational Structure (FR Y-10), the Report of Changes in FBO Organizational Structure (FR Y-10F), the Supplement to the Report of Changes in Organizational Structure (FR Y-10S), the Notification of Foreign Branch Status (FR 2058), the Annual Report of Bank Holding Companies (FR Y-6), and the Annual Report of Foreign Banking Organizations (FR Y-7).

² Thrift branches are reported as of June 30 each year to the OTS, on their annual Branch Office Survey (OMB No. 1550-0004).

branches, the number of branch openings, closings, sales, and relocations is quite small. The current proposal allows for greater flexibility in how the schedule is filed, which should allow banks to find efficient ways to transmit the data.

One commenter requested clarification of the administrative branch type. This term was defined in the draft instructions as a branch that has limited nondeposit functions, including back office operations and check processing facilities.

Modifications to the Original Proposal

In response to comments and industry feedback, the Federal Reserve approved the following modifications to the original proposal:

- Eliminating LPOs, consumer credit offices, and administrative offices from the list of reportable branches on the FR Y-6 and FR Y-10;
- Excluding from the FR Y-10 address changes that result from changes in street names or zip codes, with no actual change in the physical location of the branch;
- Making FR Y-10 reporting of branch relocations of less than 1,000 feet optional, if the move does not involve a change of county; and
- Changing the implementation dates to December 31, 2007, for the FR Y-6 revisions and April 30, 2008, for the FR Y-10 revisions.

Final approval under OMB delegated authority the implementation of the following survey:

Report title: Central Bank Survey of Foreign Exchange and Derivatives Market Activity

Agency form number: FR 3036

OMB control number: 7100-0285

Frequency: One-time

Reporters: Financial institutions that serve as intermediaries in the wholesale foreign exchange and derivatives market and dealers.

Annual reporting hours: 3,150 hours

Estimated average hours per response: Turnover survey: 51 hours; outstandings survey: 60 hours

Number of respondents: 60

General description of report: This information collection is voluntary (12 U.S.C. 225a, 248(a)(2), 358, and 3105(c)) and is given confidential treatment (5 U.S.C. § 552(b)(4)).

Abstract: The FR 3036 is the U.S. part of a global data collection that is conducted by central banks every three years. More than fifty central banks plan to conduct the survey in 2007. The Bank for International Settlements compiles national data from each central bank to produce global market statistics.

The Federal Reserve System and other government agencies use the survey to monitor activity in the foreign exchange and derivatives markets. Respondents use the published data to gauge their market share.

Current actions: On January 11, 2007, the Federal Reserve published a notice in the Federal Register (72 FR 1325) requesting public comment for 60 days on the implementation of the FR 3036 survey. The comment period for this notice expired on March 12, 2007. The Federal Reserve received no comments on the proposed survey and will implement it as proposed.

Board of Governors of the Federal Reserve System, March 16, 2007.

Jennifer J. Johnson

Secretary of the Board

BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-07-05CO]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and send comments to Joan F. Karr, CDC Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should

be received within 60 days of this notice.

Notice of Republication of 60 day FRN Title of Project

Evaluation of the Centers for Disease Control and Prevention's Consumer Response Service Center—New—National Center for Healthcare Marketing (NCHM), Centers for Disease Control and Prevention (CDC).

Description of Republication

Due to expiration of the 60Day-05-05CO on July 21, 2005 OMB Desk Officer (John Kraemer) has requested that the 60Day-07-05CO be republished using the date of 02/15/2007, which is currently the 30Day-07-05CO publication date. Public comments will be considered until COB of April 15, 2007. We are working to put measures in place to ensure this does not happen again. The 30 day FRN will be republished at a later date.

Background and Brief Description

CDC is launching an integrated "one face to the public" approach across all communication channels to handle inquiries concerning a broad spectrum of public health topics. The overall objective is to ensure consistent, timely, reliable health information for dissemination to a variety of consumers (public, health professionals, researchers, etc.) and to address variations in inquiry volumes related to public health emergencies, news events, and dynamic, shifting public health priorities. The CDC has integrated over 40 hotlines into one Consumer Response Services Center—CDC-INFO. CDC-INFO has an exceptionally wide scope because content currently divided between over 40 hotlines handling nearly 2,000,000 telephone contacts annually will be consolidated under CDC-INFO. All CDC hotlines were consolidated in one center beginning in February 2005, with all CDC program areas transitioning into CDC-INFO through a phased approach during the next three years. CDC-INFO itself will be operational for at least the next seven years.

The primary objectives of the national evaluation are to (1) Proactively evaluate customer interactions and service effectiveness by employing assessment measures and data collection mechanisms to support performance management, gathering insights and understandings for improving service levels, and implementing effective measures to meet customer satisfaction goals; (2) develop an ongoing understanding of customer requirements and satisfaction
