AGENCY: National Park Service, Interior.

ADDRESSES: Kelsey Olney-Wall, Repatriation Manager, University Museums, Colgate University, 13 Oak Drive, Hamilton, NY 13346, telephone (315) 228–7677, email kolneywall@colgate.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the LMA, and additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records. Abstract of Information Available

Based on the information available, human remains representing at least 14 individuals have been reasonably identified.

At minimum 14 individuals were believed to be removed between 1950 and 1980 from an unknown number of archaeological sites by avocational archaeologists associated with the Chenango Chapter of the New York State Archaeological Association (formally the Chenango Archaeological Society). The relationship between Theodore Whitney, an avocational archaeologist that donated materials and Ancestral remains to LMA, and the avocational Archaeologists in the Chenango Chapter of the New York State Archaeological Association (formally the Chenango Archaeological Society), along with the identified burials published in the Chenango Chapter bulletin, link these individuals to the Ancestral land of the Oneida Indian Nation. To date, the Ancestors removed from these sites have not been accounted for in other NAGPRA Inventories or past repatriations. Geographical affiliation from the Chenango Chapter excavations are consistent with the archaeologically documented territory of the Oneida Indian Nation.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the acquisition history of the human remains described in this notice.

Determinations

The LMA has determined that:

- The human remains described in this notice represent the physical remains of at least 14 individuals of Native American ancestry.
- There is a reasonable connection between the human remains described in this notice and the Oneida Indian Nation.

If competing requests for repatriation are received, the LMA must determine the most appropriate requestor prior to repatriation.
