SUPPLEMENTARY INFORMATION: The operator qualification rules at 49 CFR 192.801 (for gas pipelines) and at 49 CFR 195.501 (for hazardous liquid pipelines) require every pipeline operator to have and follow a written qualification program that includes provisions to identify covered tasks and to ensure that all persons performing these tasks are qualified. By October 28, 2002, all gas and hazardous liquid pipeline operators should have completed the qualification of all individuals performing covered tasks on pipeline facilities.

On March 25, 2003, OPS will conduct a public meeting to continue discussions on the progress in implementing the operator qualification rule for gas and hazardous liquid pipelines. OPS will present a detailed review of the development of the operator qualification inspection protocols. The meeting will focus on areas considered high priority and discussion on compliance issues from Federal and State pipeline safety personnel. These issues, as identified at a previous public meeting on January 22, 2003, in San Antonio, TX, are as follows:

- (1) Scope of Operator Qualification
- (2) Evaluation of Knowledge, Skills, and Physical Ability
- (3) Re-evaluation Intervals
- (4) Maintenance versus New Construction
- (5) Treatment of Emergency Response
- (6) Additional Covered Tasks
- (7) Extent of Documentation
- (8) Abnormal Operating Conditions
- (9) Treatment of Training
- (10) Criteria for Small Operators
- (11) Direction and Observation of Non-Qualified People
- (12) Noteworthy Practices
- (13) Persons Contributing to an Incident or Accident

All persons attending the meeting will have an opportunity to comment on operator qualification compliance issues and to question the expert panel on the new operator qualification compliance protocols.

Issued in Washington, DC on March 12, 2003.

James K. O'Steen,

Deputy Associate Administrator for Pipeline Safety.
