[Project No. 12715-003]

Fairlawn Hydroelectric Company, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for an original license for the proposed 14,000-kilowatt (kW) Jennings Randolph Hydroelectric Project located on the North Branch Potomac River in Garrett County, Maryland and Mineral County, West Virginia, at the U.S. Army Corps of Engineers' (Corps) Jennings Randolph Dam and has prepared an environmental assessment (EA). In the EA, Commission staff assess the potential environmental effects of licensing the project and conclude that issuing a license for the project, with appropriate environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The final EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
