

increase the current water supply, although in insufficient amounts to meet the projected needs. These activities may include drilling additional water wells throughout Jackson County, constructing water transmission lines from existing resources, such as intermittent streams, within the County to the JCWA Treatment Plant, or water conservation.

The major environmental and human health and safety impacts that would result from implementation of the No Action alternative include: Significant, continued lack of recreation needs within Jackson County and the surrounding region; a moderately significant adverse impact on human health and safety due to an insufficient water supply; a significant impediment to growth of industry, residential development, and employment in Jackson County; an impediment to other development goals of the EZ/EC; and a significant potential to adversely and disproportionately affect minority or low-income groups due to further economic degradation and due to adverse health impacts associated with an insufficient water supply.

SUPPLEMENTARY INFORMATION:

On February 4 and March 31, 2000, the Committee for Purchase From People Who Are Blind or Severely Disabled published notices (65 F.R.

5492 and 17255) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodities and impact of the additions on the current or most recent contractors, the Committee has determined that the commodities listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

2. The action will not have a severe economic impact on current contractors for the commodities.

3. The action will result in authorizing small entities to furnish the commodities to the Government.
