B. What Should I Consider as I Prepare My Comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When submitting comments, remember to:

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns, and suggest alternatives.

II. Background on the Receipt of Requests to Terminate Certain Uses of its Chloroneb Products and Request for Label Amendments

This notice announces receipt by EPA of a request from Kincaid Inc. (See Table 3 of this unit) to voluntarily terminate certain uses of four chloroneb product registrations, and effect label amendments. Chloroneb is a fungicide currently registered for use on a wide variety of food crops but primarily used for pre-plant cottonseed treatment as well as on commercial turf and ornamentals. Other markets for chloroneb seed treatment uses include: Sugar beets, soybeans, cotton, and beans. In a letter dated January 9, 2006, Kincaid Inc. requested that EPA terminate certain uses of pesticide product registrations identified in this notice in Table 1 of this unit. Kincaid Inc. requests voluntary termination of chloroneb's use on residential lawns and turf, as well as on lawns and turf at parks and schools. Specifically, Kincaid requests that the following use be terminated: Turf, except for golf course tees, greens, collars, aprons, and spot treatment on fairways, as well as athletic fields used only by professional athletes. In addition to the use terminations, Kincaid requests the following statement be added to the label for its manufacturing-use registration (registration number 73782-1) identified in this notice in Table 2: "This product may not be formulated into end use products for use on turf, except for use on golf course tees, greens, collars, aprons, and spot treatment on fairways, as well as athletic fields used for professional athletes."

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from a registrant to terminate certain uses of chloroneb product registrations. The affected products and the registrant making the request are identified in Table 1 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The chloroneb registrant has requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed request.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice in the **Federal Register**, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued shortly after the close of the comment period terminating the affected registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Chloroneb

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before May 19, 2006. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the termination action.

In any order issued in response to this request for termination of certain uses of a product registration, EPA proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1: Registrant may sell and distribute existing stocks for one year from the date of the use termination request. The product may be sold, distributed, and used by people other than the registrant until existing stocks have been exhausted, provided that such sale, distribution, and use complies with the EPA-approved label and labeling of the product.

If the request for voluntary use termination is granted, the Agency intends to publish the cancellation order in the **Federal Register**.
