On June 7, 2001, the Department published *Stainless Steel Plate in Coils From the Republic of Korea: Preliminary Results of Antidumping Duty Administrative Review*, 66 FR 30699 (June 7, 2001) ("Preliminary Determination"). We invited parties to comment on these preliminary results. The review covers imports of subject merchandise from POSCO. The period of review ("POR") is November 4, 1998 through April 30, 2000. We received written comments on July 9, 2001 from petitioners (Allegheny Ludlum, AK Steel Corporation (formerly Armco, Inc.), J&L Specialty Steel, Inc., North American Stainless, Butler-Armco Independent Union, Zanesville Armco Independent Union, and the United Steelworkers of America, (AFL-CIO/CLC)) and POSCO. For purposes of this administrative review, the product covered by this order is certain stainless steel plate in coils. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject plate may also be further processed (e.g., cold-rolled, polished, etc.) provided that it maintains the specified dimensions of plate following such processing. Excluded from the scope of this order is the following: (1) Plate not in coils, (2) plate that is not annealed or otherwise heat treated and pickled or otherwise descaled, (3) sheet and strip, and (4) flat bars. In addition, certain cold-rolled stainless steel plate in coils is also excluded from the scope of this order. The excluded cold-rolled stainless steel plate in coils is defined as that merchandise which meets the physical characteristics described above that has undergone a cold-reduction process that reduced the thickness of the steel by 25 percent or more, and has been annealed and pickled after this cold reduction process.
