B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket ID number OPPT-2005-0008. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the EPA Docket Center, Rm. B102-Reading Room, EPA West, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The EPA Docket Center Reading Room telephone number is (202) 566-1744 and the telephone number for the OPPT Docket, which is located in EPA Docket Center, is (202) 566-0280.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. Background

The U.S. Environmental Protection Agency is convening two workshops to train stakeholders on how to report for the 2006 Partial Updating of the TSCA Chemical Substance Inventory. The EPA is required by section 8(b) of the Toxic Substances Control Act (TSCA) to compile and update an inventory of chemical substances manufactured or imported into the United States. Every

four years, manufacturers (including importers) of certain chemical substances on the Chemical Substance Inventory have been required to report data specified in the TSCA section 8(a) Inventory Update Rule (IUR), 40 CFR part 710. Past updates included information on the chemical's production volume, site-limited status, and plant site information.

Amendments to the IUR promulgated in the **Federal Register** on January 7, 2003 (68 FR 848) (FRL-6767-4) expanded the data reported on certain chemicals to assist EPA and others in screening potential exposures and risks resulting from manufacturing, processing, and use of TSCA chemical substances. At the same time, EPA amended the IUR regulations to increase the production volume threshold which triggers reporting requirements from 10,000 pounds per year to 25,000 pounds per year and established a new higher threshold of 300,000 pounds per year above which manufacturers must report additional information on downstream processing and use of their chemical substances. The 2003 amendments to the IUR also revoked the exemption from reporting for inorganic chemical substances, provided a partial exemption from reporting of processing and use information for chemical substances of low current interest, and continued the current exemption from reporting for polymers, microorganisms, and naturally occurring chemical substances. These changes modify requirements for information collected in calendar year 2005 and submitted in 2006 and thereafter. These workshops may be of interest to persons currently reporting under the IUR and to manufacturers of inorganic chemical substances.

The workshops will include a series of presentations by representatives of EPA on the Instructions for Reporting for the 2006 Partial Updating of the TSCA Chemical Substance Inventory. Subjects discussed will include reporting requirements, instructions for completing the reporting form, how to assert confidentiality claims, how to submit completed reports to EPA, and case studies illustrating different aspects of reporting. During the workshops, persons in attendance will be able to ask questions regarding the material being presented. The purpose of these meetings is to provide training to persons who must report in 2006 under the Inventory Update Rule.

III. How Can I Request to Participate in this Meeting?

You may register to participate in this meeting by directing your web browser

to www.epa.gov/oppt/iur. There is a workshop registration link on this website that will allow you to provide all necessary information for participation. There is no charge for attending this public meeting.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7994-5]

Notice of Availability of Draft NPDES General Permit for Small Municipal Separate Storm Sewer Systems in the Commonwealth of Puerto Rico and Federal Facilities in the Commonwealth of Puerto Rico

AGENCY: Environmental Protection Agency.

ACTION: Notice of Draft NPDES General Permits—PRR040000 and PRR04000F.

SUMMARY: The Director of the Caribbean Environmental Protection Division (CEPD), Environmental Protection Agency—Region 2 (EPA), is issuing Notice of a Draft National Pollutant Discharge Elimination System (NPDES) general permit for discharges from small municipal separate storm sewer systems (MS4) to waters of the Commonwealth of Puerto Rico. This draft NPDES general permit establishes Notice of Intent (NOI) requirements, standards, prohibitions and management practices for discharges of storm water from municipal separate storm sewer systems. Owners and/or operators of small MS4s that discharge storm water will be required to submit a NOI to EPA-CEPD to be covered by the general permit and will receive a written notification from EPA-CEPD of permit coverage and authorization to discharge under the general permit. The eligibility requirements are discussed in the draft permit. The municipality must meet the eligibility requirements of the permit prior to submission of the NOI. This general permit does not cover new sources as defined under 40 CFR 122.2.

DATES: Public comments are due by midnight on February 6, 2006. The general permit shall be effective on the

date specified in the final general permit published in the **Federal Register** and will expire five years from the date that the final permit is published in the **Federal Register**. Within the comment period, interested persons may request a public hearing pursuant to 40 CFR 124.12 concerning the proposed permit. Requests for a public hearing must be sent or delivered in writing to the same address as provided below for public comments prior to the close of the comment period. Requests for a public hearing must state the nature of the issues proposed to be raised in the hearing. Pursuant to 40 CFR 124.12, EPA shall hold a public hearing if it finds, on the basis of requests, a significant degree of public interest in a public hearing on the proposed permit. If EPA decides to hold a public hearing, a public notice of the date, time and place of the hearing will be made at least 30 days prior to the hearing.

ADDRESSES: The draft permit is based on an administrative record available for public review at EPA—Region 2, Caribbean Environmental Protection Division, Centro Europa Building, Suite 417, 1492 Ponce de Leon Avenue, San Juan, Puerto Rico 00907-4127.

FOR FURTHER INFORMATION CONTACT: Additional information concerning the draft permit may be obtained between the hours of 8:30 a.m. and 4:30 p.m. Monday through Friday excluding holidays from: Sergio Bosques, Caribbean Environmental Protection Division, Environmental Protection Agency, Centro Europa Building, Suite 417, 1492 Ponce de Leon Avenue, San Juan, Puerto Rico 00907-4127; telephone: 787-977-5838; e-mail: bosques.sergio@epa.gov.

SUPPLEMENTARY INFORMATION: This general permit covers storm water discharges from small municipal separate storm sewer systems meeting the definition of “small municipal separate storm sewer system” at 40 CFR 122.26(b)(16) and designated under 40 CFR 122.32(a)(1) or 40 CFR 122.32(a)(2). Designation under 40 CFR 122.32(a)(1) applies to small MS4s located in an urbanized area. Designation under 40 CFR 122.32(a)(2) applies to small MS4s determined to need a permit by the Director. A small MS4 is a conveyance or system of conveyances—including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, manmade channels, or storm drains. This system must be owned or operated by a municipality. A municipality includes the following entities: *The United States, a State, city, town, borough, county, parish, district, association, or other public body*

(created by or pursuant to State law) having jurisdiction over disposal of sewage, industrial wastes, storm water, or other wastes including special districts under State law such as a sewer, flood control district or drainage district, or similar entity, or a designated and approved management agency under section 208 of the CWA that discharges to waters of the United States. A Fact Sheet sets forth principal facts and the significant factual, legal, and policy issues considered in the development of the draft permit. To obtain a paper copy of the documents, please contact Sergio Bosques using the contact information provided above.

When the general permits are issued, the notice of final issuance will be published in the **Federal Register**. The general permits shall be effective on the date specified in the notice of final issuance of the general permits published in the **Federal Register** and will expire five years from the effective date of the permit.

Authority: Clean Water Act, 33 U.S.C. 1251 *et seq.*
