

identification code will enhance its ability to conduct automated surveillance of members' error trading.

Member firms would be given a reasonable period of time (approximately three months from Commission approval) to make their own system enhancements so that they may be in compliance with the new trade type identification requirement. The Exchange will publish the entire revised list of Account Identification Codes, including the new account type, "Q," in an Information Memo to be issued to all members and member organizations. For previous information memos on this subject, see 1993-7 (March 4, 1993) and 1992-34 (November 13, 1992).

## 2. Statutory Basis

The Exchange believes that its proposal is consistent with section 6(b) of the Act,<sup>5</sup> in general, and section 6(b)(5) of the Act,<sup>6</sup> in particular, because it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange believes the addition of the identifier "Q" for "proprietary trades to cover the member's own error" will add to the protection of investors by enhancing the Exchange's ability to conduct automated surveillance of members' error trading.

### B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange neither solicited nor received written comments on the proposed rule change.
