

U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Elm Fork Watershed, Multiple-Purpose Structure (MPS) No. 19, Cooke County, Texas.

FOR FURTHER INFORMATION CONTACT: Salvador Salinas, Assistant State Conservationist (SP&P), Natural Resources Conservation Service, 101 South Main, Temple, Texas 76501-7682, Telephone (254) 742-9800.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, John P. Burt, State Conservationist, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project will provide municipal water and recreational activities for the city of Muenster, Texas and reduce flooding and improve surface water quality in and below MPS No. 19. The environmental assessment addresses the installation of the Multiple-Purpose Structure (MPS No. 19) that remains to be installed.

Installation of the site, including dam, emergency spillway, and municipal water pool, will require 359 acres. The dam and emergency spillway will be planted to grasses that have wildlife values. A mitigation plan has been developed to offset the loss of any wildlife habitat. The fee title area needed for the structure will be fenced to control livestock, therefore greatly benefiting ground nesting birds. The structure will affect 185 acres of prime farmland. Downstream flooding of wildlife habitat will be reduced. No endangered plants or animals or their habitat will be affected. No cultural or historical properties will be affected.

Multiple-Purpose Structure No. 19 will create 309 acres of aquatic habitat creating a fisheries resource where none exists.

Federal assistance will be provided under authority of Public Law 78-534, the Flood Control Act of 1944. Total project costs for Multiple-Purpose Structure No. 19 is estimated to be \$6,923,687, of which \$3,810,525 will be paid from Public Law 534 funds and \$3,113,162 from local funds.

The notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill

single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting John P. Burt.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Dated: June 8, 2001.

Salvador Salinas,

Assistant State Conservationist (SP&P).

BILLING CODE 3410-16-P

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Notice of Proposed Changes to Section IV of the Field Office Technical Guide (FOTG) of the Natural Resources Conservation Service in Indiana

AGENCY: Natural Resources Conservation Service (NRCS), USDA.

ACTION: Notice of availability of proposed changes in Section IV of the FOTG of the NRCS in Indiana for review and comment.

SUMMARY: It is the intention of NRCS in Indiana to issue a revised conservation practice standard in Section IV of the FOTG. The revised standards are Grade Stabilization Structure (410), Nutrient Management (590), Tree/Shrub Pruning (660) and Wetland Creation (658). These practices may be used in conservation systems that treat highly erodible land and/or wetlands.

DATES: Comments will be received on or before July 23, 2001.

ADDRESSES: Address all requests and comments to Jane E. Hardisty, State Conservationist, Natural Resources Conservation Service (NRCS), 6013 Lakeside Blvd., Indianapolis, Indiana 46278. Copies of this standard will be made available upon written request. You may submit your electronic requests and comments to darrell.brown@in.usda.gov.

FOR FURTHER INFORMATION CONTACT: Jane E. Hardisty, 317-290-3200.

SUPPLEMENTARY INFORMATION: Section 343 of the Federal Agriculture Improvement and Reform Act of 1996 states that after enactment of the law, revisions made to NRCS state technical guides used to carry out highly erodible land and wetland 2 provisions of the law, shall be made available for public review and comment. For the next 30 days, the NRCS in Indiana will receive comments relative to the proposed

changes. Following that period, a determination will be made by the NRCS in Indiana regarding disposition of those comments and a final determination of changes will be made.

Dated: May 16, 2001.

Jane E. Hardisty,

State Conservationist, Indianapolis, Indiana.
