SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: 2024 Navy Health of the Force Survey; Navy Health of the Force Survey Program; OMB Control Number 0703-0095.

Type of Request: New Generic Information Collection.

Number of Respondents: 20,000.

Responses per Respondent: 1.

Annual Responses: 20,000.

Average Burden per Response: 20 minutes.

Annual Burden Hours: 6,667.

Needs and Uses: The Navy Health of the Force Survey is a strategic level engagement survey of the Navy Active Duty population that addresses core measures relating to the health of the force. It is conducted on behalf of the Chief of Navy Personnel and under the authority of 5 U.S.C. 301, Departmental Regulations; 10 U.S.C. 8031 and 8032, Office of the Chief of Naval Operations; and OPNAV Instruction 5300.8C, "Coordination and Control of Personnel Surveys." The core survey questions support trend analysis on Sailor job satisfaction, retention plans, and influences to stay or leave; Health of the Force Metrics of connectedness, cohesion, organizational commitment, job satisfaction, trust and inclusion; and diversity, equity and inclusion in the Navy.

The 2024 Health of the Force—Personal (HOF-P) Survey addresses Sailors' personal lives and the programs and policies that impact them. It includes questions about housing for single Sailors, access to healthcare, pregnancy and support for pregnant Sailors, childcare, parental leave, post birth return to work policies and support for work/life balance. Navy management uses the results to evaluate the effectiveness of important programs and policies. Insights from the survey are included in the Navy's HOF Report to Congress and congressional testimony. By consolidating questions about related programs and policies into a single survey, we minimize the burden on Sailors, reducing multiple potentially overlapping single issue or program focused surveys to a single data collection event.

Affected Public: Individuals or households (Active Duty Sailors).

Frequency: Once.

Respondent's Obligation: Voluntary.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The ANNH Program provides grants to eligible institutions of higher education (IHEs) to enable them to improve and expand their capacity to serve Alaska Native and Native Hawaiian students. Institutions may use these grants to plan, develop, or implement activities that strengthen the institution.

Background: The Alaska Native and Native Hawaiian populations experience disparities in college access and completion. A 2018 report found that degree attainment for Alaska Native adults at the associate's degree level and higher was 11 percent, compared to over 43 percent for White adults in Alaska.¹ In three-year American Community Survey data (2011–2013), the bachelor's degree attainment rate for Native Hawaiians was 20.5 percent, and the national bachelor's degree attainment rate was 29.1 percent.² The degree attainment gap between Native Hawaiians and White adults was 21 percentage points, according to a 2018 report.³ In addition, according to U.S. Census Bureau data, 53% of Native Hawaiians had not enrolled in any postsecondary education, as compared to 54.9% of the total U.S. population who had attended college.⁴ To increase access to, and success in, postsecondary education by Alaska Native and Native Hawaiian students, the Department, through the FY 2024 ANNH competitive preference priorities, encourages
