

Environmental Quality (TCEQ) to ExxonMobil Corp. for its Baytown Chemical Plant located in Harris County, Texas.

**ADDRESSES:** The EPA requests that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, the Petition, and other supporting information. Out of an abundance of caution for members of the public and our staff, the EPA Region 6 office is currently closed to the public to reduce the risk of transmitting COVID-19. Please call or email the contact listed below if you need alternative access to the final Order and Petition, which are available electronically at: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

**FOR FURTHER INFORMATION CONTACT:** Aimee Wilson, EPA Region 6 Office, Air Permits Section, (214) 665-7596, [wilson.aimee@epa.gov](mailto:wilson.aimee@epa.gov).

**SUPPLEMENTARY INFORMATION:** The CAA affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities under title V of the CAA. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of the EPA's 45-day review period if the EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or unless the grounds for the issue arose after this period.

The EPA received the Petition from the Environmental Integrity Project, Sierra Club, and Texas Campaign for the Environment dated September 30, 2020, requesting that the EPA object to the issuance of operating permit no. O2269, issued by TCEQ to the Baytown Chemical Plant in Harris County, Texas. The Petition claims the TCEQ Executive Director failed to adjust ExxonMobil's Plantwide Applicability Limits (PAL) for NO<sub>x</sub> and VOC downward to account for Harris County's recent designation as a serious Ozone nonattainment area and the revised proposed permit improperly incorporates a Major NSR permit by reference, fails to assure compliance with the PAL, fails to establish a compliance schedule for ExxonMobil to comply with its commitment to obtain a SIP-approved Chapter 116, Subchapter B permit for units and emissions authorized by state-only flexible permit

No. 20211/PAL16, improperly incorporates confidential permit terms, and fails to specify monitoring, testing, and recordkeeping requirements sufficient to assure compliance with applicable requirements for projects authorized by permits by rule (PBR).

On March 18, 2022, the EPA Administrator issued an Order granting in part and denying in part the Petition. The Order explains the basis for EPA's decision.

Dated: April 4, 2022.

**David Garcia,**  
Director, Air and Radiation Division, Region 6.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-9718-01-OA]

### Request for Nominations for the Science Advisory Board IRIS Hexavalent Chromium (Cr(VI)) Review Panel

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office requests public nominations of scientific experts to form a Panel to review the draft EPA Integrated Risk Information System (IRIS) Toxicological Review of Hexavalent Chromium (Cr(VI)). EPA's draft assessment includes a hazard identification analysis, which summarizes the chemical properties, toxicokinetics, and health effects associated exposure, and dose-response analysis, which characterizes the quantitative relationship between chemical exposure and each credible health hazard. These quantitative relationships are then used to derive cancer and non-cancer toxicity values (*e.g.*, inhalation unit risk, oral slope factor, reference concentration, reference dose). The SAB Hexavalent Chromium Review Panel will consider whether the conclusions found in the EPA's draft assessment are clearly presented and scientifically supported. The Panel will also be asked to provide recommendations on how the assessment may be strengthened.

**DATES:** Nominations should be submitted by May 4, 2022 per the instructions below.

**FOR FURTHER INFORMATION CONTACT:** Any member of the public wishing further information regarding this Notice and

Request for Nominations may contact Dr. Suhair Shallal, Designated Federal Officer (DFO), EPA Science Advisory Board via telephone/voice mail (202) 564-2057, or email at [shallal.suhair@epa.gov](mailto:shallal.suhair@epa.gov). General information concerning the EPA SAB can be found at the EPA SAB website at <https://sab.epa.gov>.

### SUPPLEMENTARY INFORMATION:

**Background:** The SAB (42 U.S.C. 4365) is a chartered Federal Advisory Committee that provides independent scientific and technical peer review, advice, and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. app. 2) and related regulations. The SAB Staff Office is forming an expert panel, the SAB Hexavalent Chromium Review Panel, under the auspices of the Chartered SAB. The SAB Hexavalent Chromium Review Panel will provide advice through the chartered SAB. The SAB and the SAB Hexavalent Chromium Review Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

The SAB Hexavalent Chromium Review Panel will conduct a review of the draft EPA IRIS Toxicological Review of Hexavalent Chromium. EPA's draft assessment includes a hazard identification analysis, which summarizes the chemical properties, toxicokinetics, and health effects associated exposure, and dose-response analysis, which characterizes the quantitative relationship between chemical exposure and each credible health hazard. These quantitative relationships are then used to derive cancer and non-cancer toxicity values (*e.g.*, inhalation unit risk, oral slope factor, reference concentration, reference dose). The SAB Hexavalent Chromium Review Panel will consider whether the conclusions found in the EPA's draft assessment are clearly presented and scientifically supported. The Panel will also be asked to provide recommendations on how the assessment may be strengthened.

**Request for Nominations:** The SAB Staff Office is seeking nominations of nationally and internationally recognized scientists with demonstrated expertise in the following disciplines: *Toxicology, specifically inhalation toxicology/dosimetry, hepatic nephrological, genetic toxicology; epidemiology; systematic review; physiologically-based pharmacokinetic (PBPK) modeling; carcinogenesis,*

including gastrointestinal; risk assessment; and dose response analysis.

**Process and Deadline for Submitting Nominations:** Any interested person or organization may nominate qualified individuals in the areas of expertise described above for possible service on the SAB Panel. Individuals may self-nominate. Nominations should be submitted in electronic format (preferred) using the online nomination form on the SAB website at <https://sab.epa.gov> (see the “Public Input on Membership” list under “Committees, Panels, and Membership”). To be considered, nominations should include the information requested below. EPA values and welcomes diversity. All qualified candidates are encouraged to apply regardless of sex, race, disability, or ethnicity. Nominations should be submitted in time to arrive no later than May 4, 2022. The following information should be provided on the nomination form: Contact information for the person making the nomination; contact information for the nominee; and the disciplinary and specific areas of expertise of the nominee. Nominees will be contacted by the SAB Staff Office and will be asked to provide a recent curriculum vitae and a narrative biographical summary that includes: Current position, educational background; research activities; sources of research funding for the last two years; and recent service on other national advisory committees or national professional organizations. Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB website, should contact the DFO at the contact information noted above. The names and biosketches of qualified nominees identified by respondents to this **Federal Register** notice, and additional experts identified by the SAB Staff Office, will be posted in a List of Candidates for the Panel on the SAB website at <https://sab.epa.gov>. Public comments on the List of Candidates will be accepted for 21 days. The public will be requested to provide relevant information or other documentation on nominees that the SAB Staff Office should consider in evaluating candidates.

For the EPA SAB Staff Office a balanced review panel includes candidates who possess the necessary domains of knowledge, the relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation), and the collective breadth of experience to adequately address the charge. In forming the expert panel, the SAB Staff Office will consider public comments

on the Lists of Candidates, information provided by the candidates themselves, and background information independently gathered by the SAB Staff Office. Selection criteria to be used for panel membership include: (a) Scientific and/or technical expertise, knowledge, and experience (primary factors); (b) availability and willingness to serve; (c) absence of financial conflicts of interest; (d) absence of an appearance of a loss of impartiality; (e) skills working in committees, subcommittees and advisory panels; and, (f) for the panel as a whole, diversity of expertise and scientific points of view.

The SAB Staff Office’s evaluation of an absence of financial conflicts of interest will include a review of the “Confidential Financial Disclosure Form for Environmental Protection Agency Special Government Employees” (EPA Form 3110–48). This confidential form is required and allows government officials to determine whether there is a statutory conflict between a person’s public responsibilities (which include membership on an EPA federal advisory committee) and private interests and activities, or the appearance of a loss of impartiality, as defined by federal regulation. The form may be viewed and downloaded through the “Ethics Requirements for Advisors” link on the SAB website at <https://sab.epa.gov>. This form should not be submitted as part of a nomination.

The approved policy under which the EPA SAB Office selects members for subcommittees and review panels is described in the following document: *Overview of the Panel Formation Process at the Environmental Protection Agency Science Advisory Board* (EPA–SAB–EC–02–010), which is posted on the SAB website at <https://sab.epa.gov>.

**Thomas Brennan,**

*Director, Science Advisory Board Staff Office.*

## FEDERAL MARITIME COMMISSION

[Docket No. 22–11]

### Notice of Filing of Complaint and Assignment; Aeneas Exporting LLC, Complainant v. Honeybee International Inc., and All America Shipping, Respondent

Notice is given that a complaint has been filed with the Federal Maritime Commission (Commission) by Aeneas Exporting LLC, hereinafter “Complainant”, against Honeybee

International Inc. and All America Shipping, hereinafter “Respondents”. Complainant alleges that Respondents are California corporations and an ocean common carrier, non-vessel-operating common carrier, ocean freight forwarder, and ocean transportation intermediary.

Complainant alleges that Respondents violated 46 U.S.C. 41102(c) and 41104(a)(3), 46 CFR 545.4, and “Fraud and Coercion” regarding the receipt, handling, storing, and delivery of vehicles and assessment of charges and fees. The full text of the complaint can be found in the Commission’s Electronic Reading Room at <https://www2.fmc.gov/readingroom/proceeding/22-11/>.

This proceeding has been assigned to Office of Administrative Law Judges. The initial decision of the presiding office in this proceeding shall be issued by April 10, 2023, and the final decision of the Commission shall be issued by October 24, 2023.

Served: April 8, 2022.

**William Cody,**  
*Secretary.*

## FEDERAL MARITIME COMMISSION

### National Shipper Advisory Committee April 2022 Meeting

**AGENCY:** Federal Maritime Commission.

**ACTION:** Notice of federal advisory committee meeting.

**SUMMARY:** Notice is hereby given of a meeting of the National Shipper Advisory Commission (NSAC), pursuant to the Federal Advisory Committee Act.

**DATES:** The Committee will meet in-person at the Federal Maritime Commission on April 27, 2022, from 1:00 p.m. until 4:00 p.m. Eastern Time. Please note that this meeting may adjourn early if the Committee has completed its business.

**ADDRESSES:** The meeting will be held in the Federal Maritime Commission Hearing Room, located on the first floor at 800 North Capitol St. NW, Washington, DC 20573. The meeting will also stream live via a link on the Federal Maritime Commission’s website, [www.fmc.gov](http://www.fmc.gov).

This meeting is open to the public. Requests to register to attend the meeting in-person should be submitted to [nsac@fmc.gov](mailto:nsac@fmc.gov) and contain “REGISTER FOR NSAC MEETING” in the subject line. The deadline for members of the public to register to attend the meeting in-person is Friday,
