j. *Description of Proceeding*:

Section 6.4 of the Commission's regulations, 18 CFR 6.4, provides, among other things, that it is deemed to be intent of a licensee to surrender a license, if the licensee abandons a project for a period of three years. In addition, standard Article 16 of the license for Project No. 8866 provides, in pertinent part:

If the Licensee shall cause or suffer essential project property to be removed or destroyed or to become unfit for use, without adequate replacement, or shall abandon or discontinue good faith operation of the project or refuse or neglect to comply with the terms of the license and the lawful orders of the Commission * * *, the Commission will deem it to be the intent of the Licensee to surrender the license * * *

The Commission issued a minor license for the project in 1986 to Lynn E. Stevenson.¹ The project has not operated since a downstream landslide in 1993 and has been abandoned. On April 10, 2007, during the inspection of the project by the Portland Regional office, Commission staff noted that the project was not operable and had not been operated since the landslide in 1993. During a May 11, 2010 inspection, Commission staff noted damage to the powerhouse and to the equipment in the powerhouse from previous flooding. By letter of July 27, 2011 to the estate of Lynn E. Stevenson, Commission staff required the licensee to show cause why the Commission should not initiate a proceeding to terminate the license for the project based on the licensee's implied surrender of the license. The licensee did not respond.

To date, the licensee has not made the necessary repairs to resume operations at the project and the project is abandoned.

k. *Location of the Order*: A copy of the order is available for inspection and reproduction at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in

¹ 34 FERC ¶ 62,530 (1986). Mr. Stevenson died in 2003 and Black Canyon Bliss, LLC purchased the project lands and facilities from the estate of Lynn E. Stevenson. Neither the estate nor the current owners have requested a transfer of license; therefore, the license remains with the estate of Lynn Stevenson. The project has been mistakenly referred to as Project No. 8865 since 2004. The Secretary of the Commission corrected this oversight on July 18, 2011 with the issuance of a Notice of Change in Docket Numbers.
